10.18. The Clearing House keeps the register of Offers, submitted by Clearing Members and the Clearing House, and the register of OTC Trades in foreign currency and OTC Trade in precious metals, executed with Clearing Members and Liquidity Providers.

Article 11. Special aspects of executing OTC Trades in foreign currency and OTC Trades in precious metals with Liquidity Providers

11.1. When executing OTC Trades in foreign currency or OTC Trades in precious metals with Clearing Members and Liquidity Providers the Clearing House acts as a central counterparty.

11.2. The Clearing House via the Clearing System provides Clearing Members with the information, received from the Liquidity Provider not changing it, which is required by the Clearing Member in order to forward the Offer to the Clearing House, including information on base currency, price in conjugate currency, amount of base currency, offered to be bought / sold (hereinafter referred to as the Liquidity Provider quotation).

11.2.1. Validity period of the Offer of the Clearing Member is limited by the moment, when the Clearing House has finished the check of the fact whether there is relevant Liquidity Provider quotation, which meets the terms of the Offer, submitted by the Clearing Member. Terms, under which the Liquidity Provider quotation is considered to be the one, which meets the Offer of the Clearing Member, are contained in the paragraph 12.6.

11.3. If at least one of the checks, defined in the paragraph 10.9, has negative result, the Clearing House removes the Offer from the Clearing System.

11.4. Immediately after the registration in the Clearing System of the Offer, submitted by the Clearing Member, the Clearing House checks whether there is any Liquidity Provider quotation, which satisfies the Order, submitted by the Clearing Member and is registered in the Clearing System.

- 11.5. Liquidity Provider quotation is considered to be the one, which satisfies the Offer, registered in the Clearing System and is submitted by the Clearing Member, under the following conditions:
- Liquidity Provider quotation and the Offer, submitted by the Clearing Member are counter to each other;
 - Liquidity Provider quotation and the Offer, submitted by the Clearing Member, contain similar base currency name, conjugate currency name and Date for the fulfillment of obligations under a Trade;
 - Liquidity Provider quotation corresponds to the terms of the Offer, submitted in accordance with the requirements of the Regime of an OTC Trade execution;
 - price, defined in the Liquidity Provider quotation is not more than the buy price (not less than the sell price), defined in the Offer, submitted by the Clearing Member.

Information on termination of obligations arising from futures contracts and swap contracts, recorded under Settlement Accounts of the 1st, 2nd and of the 3rd level, is provided to a Clearing Member as a part of the Report on obligations under Derivatives, forwarded to a Clearing Member in accordance with the sub-paragraph 14.1.6.
- 14.4.4. Information on termination of obligations arising from futures contracts and swap contracts, recorded under Settlement Accounts of the 2nd and of the 3rd level, is provided to a Trading Member as the part of the Report on obligations under Derivatives, forwarded to a Trading Member in accordance with the sub-paragraph 14.1.7.
- 14.5. Procedure for Margin Calls emergence and satisfaction is defined in the Common part of the Clearing Rules.

Article 15. Variation margin

- 15.1. On a Settlement Day following the swap contract conclusion date the variation margin under the swap contract is calculated according to the formula:

$$VMO = (Rc - (BR + SR)) \times L, \text{ where}$$

VMO – the variation margin under the swap contract;

Rc – the Settlement Price defined on the current Settlement Day;

BR – swap contract basic rate;

SR – swap contract price;

L – swap contract lot.

Starting from the second Settlement Day following the swap contract conclusion date and to the Settlement Date of the obligations under the second part of the swap contract inclusively, the variation margin under the swap contract, obligations under which are not terminated, is calculated according to the formula:

$$VM_T = (R_c - R_{c_p}) \times L, \text{ where}$$

VM_T – the swap contract variation margin;

R_c – the Settlement Price defined on the current Settlement Day;

R_{c_p} – the Settlement Price defined on the previous Settlement Day;

L – swap contract lot.

- 15.2. On the Settlement Day following the swap contract conclusion date, the variation margin under the futures contract is calculated according to the formula:

$$VMO = (R_c - \text{Price}) \times L, \text{ where}$$

VMO – the futures contract variation margin;

R_c – the Settlement Price defined on the current Settlement Day;

Price – futures contract price;

L – futures contract lot.

Starting from the second Settlement Day following the futures contract conclusion date and to the Settlement Date of obligations under the futures contract inclusively, the variation margin under the futures contract, obligations under which are not terminated, is calculated according to the formula:

$$VM_T = (R_c - R_{c_p}) \times L, \text{ where}$$

VM_T – the futures contract variation margin;

R_c – the Settlement Price defined on the current Settlement Day;

R_{c_p} – the Settlement Price defined on the previous Settlement Day;

L – futures contract lot.

With the aim to calculate variation margin under deliverable and cash settled futures contracts, executed on the basis of fix orders, the Settlement Price, calculated on current Settlement Day, is considered to be equal:

- till the date for the calculation of the fix rate of the Moscow Exchange, calculated on the date, defined in accordance with the terms of deliverable and cash-settled futures contracts, executed on the basis of the fix order (hereinafter referred to as the fix date), including this date, under deliverable and cash-settled futures contracts, executed on the basis of the fix order – to the forward price of such foreign currency, corresponding to the date, following the fix date;
- on the date, following the fix date, under deliverable futures contracts, executed on the basis of fix orders – to the Central exchange rate of the relevant foreign currency;
- on the date, following the fix date, under cash-settled futures contracts, executed on the basis of fix orders – to the fix price of the relevant foreign currency, defined on the fix date.

- 15.3. For a Clearing Member, who is the seller under the swap contract / futures contract, the Clearing House calculates the value VM_S according to the formula:
 $VMS = -VOLi \times VM$, where
 $VOLi$ – the number of concluded swap contracts / futures contracts in i-underlying asset, obligations under which are not terminated and under which a Clearing Member is the seller;
 VM – the variation margin under the swap contract / futures contracts, calculated in accordance with the paragraphs 15-15.2.
- 15.4. For a Clearing Member, who is the buyer under the swap contract / futures contract, the Clearing House calculates the value VM_B according to the formula:
 $VMB = VOLi \times VM$, where
 $VOLi$ – the number of concluded swap contracts / futures contracts in i-underlying asset, obligations under which are not terminated and under which a Clearing Member is the buyer;
 VM – the variation margin under the swap contract / futures contracts, calculated in accordance with the paragraphs 15-15.2.
- 15.5. If the value calculated in accordance with the paragraph 15.3 or 15.4 is negative, this means that a Clearing Member has the obligation to pay variation margin to the Clearing House in the amount, which is equal to the absolute value of the VMS or VMB , if it is positive – then a Clearing Member has the claim towards the Clearing House to receive the variation margin in the amount, which is equal to the value VMS or VMB .
- 15.5.1. Obligations to pay / claim to receive variation margin are recorded under a Settlement Account of a Clearing Member, which forms the part of the Trade Account of a Clearing Member defined in the order / Offer / corresponds to the Trade Account of the 2nd or of the 3rd level defined in the order / Offer.
- 15.5.2. When indicating a Trade Account of the 2nd level in the order / Offer to conclude the futures contract or the swap contract, the Clearing House also records the information on obligations to pay / claims to receive variation margin under the Settlement Account of the 2nd level, which forms the part of the Trade Account of the 2nd level defined in the order / Offer.
- 15.5.3. When indicating a Trade Account of the 3rd level in the order / Offer to conclude the futures contract or the swap contract, the Clearing House also records the information on obligations to pay / claims to receive variation margin under the Settlement Account of the 2nd level, which corresponds to the Trade Account of the 3rd level defined in the order and under a Settlement Account of the 3rd level, which forms the part of the Trade Account of the 3rd level defined in the order / Offer.
- 15.5.4. Information on the size of obligations to pay / claims to receive variation margin recorded under a Settlement Account of a Clearing Member / Settlement Account of the 2nd level is provided to a Clearing Member as a part of the Report on obligations under Derivatives forwarded to a Clearing Member in accordance with the sub-paragraph 14.1.6.
- 15.5.5. Information on the size of obligations to pay / claims to receive variation margin recorded under the Settlement Account of the 2nd and/or of the 3rd level is provided to a Trading

Member as a part of the Report on obligations under Derivatives forwarded to a Trading Member in accordance with the sub-paragraph 14.1.7.

- 15.6. After the definition of obligations to pay / claims to receive variation margin in accordance with this Article of the Clearing Rules on the FX market and Precious metals market and till the termination of recording obligations under futures contracts and swap contracts in accordance with the Article 14, the Clearing House:
- 15.6.1. calculates the sum, which is denominated in Russian rubles, which the buyer under the swap contract is obliged to pay to the seller under the swap contract under the second part of the swap contract, as the product of the Settlement Price defined on the Settlement Day and the number of concluded swap contracts, obligations under which are not terminated, for each swap contract with the particular underlying asset and the Settlement Date of obligations under the second part of the swap contract;
- 15.6.2. calculates the sum, which is denominated in Russian rubles, which the buyer under the futures contract is obliged to pay to the seller under the futures contract under the second part of the futures contract, as the product of the Settlement Price defined on the Settlement Day and the number of concluded futures contracts, obligations under which are not terminated, for each futures contract with the particular underlying asset and the Settlement Date;

4.	Offers submission time (periods of time) and execution of OTC Trades in foreign currency and OTC Trades in precious metals	
4.1.	Offers submission	from 10:00 till 22:59 of the workday
4.2.	Execution of OTC Trades in foreign currency and OTC Trades in precious metals	from 10:00 till 23:00 of the workday

OTC TRADES EXECUTION RULES OF CCP NCC

SECTION I. GENERAL PROVISIONS

Article 1. Purpose of rules

- 1.1. OTC Trades Execution Rules of the CCP NCC (hereinafter referred to as the Rules) define procedure for making Offers to execute OTC Trades in foreign currency and precious metals, conduction of the RFS Auction, execution OTC Trades in foreign currency and precious metals, procedure for monitoring of compliance by System Users with the Rules and procedure for forming algorithmic batch of Offers to execute OTC Trades in foreign currency and in precious metals with the Liquidity Provider.

Article 2. Terms and definitions

<i>Algorithmic batch of Offers to execute OTC Trades in foreign currency and in precious metals with the Liquidity Provider (algorithmic batch of Offers, batch of Offers) -</i>	message, submitted to the System by the Clearing Member, which contains number of Offers, defined by the Clearing Member according to these Rules, to execute trades with a Liquidity Provider under one Instrument per total volume, defined by the Clearing Member, under condition that Offers are submitted to the Clearing System within the period of time, defined by the Clearing Member.
<i>Client Identification Data -</i>	information, received by the Exchange from the Trading Member – Clearing Member, which is the User, when registering client of the Trading Member according to the legislation of the Russian Federation and to the Admission Rules of Moscow Exchange.
<i>Cross Trades (OTC cross trades) -</i>	OTC Trades, executed in the Clearing System with the participation of the CCP on the basis of Offers, submitted in the interest of the same entity.
<i>Exchange -</i>	Public Joint-Stock Company Moscow Exchange MICEX-RTS (Moscow Exchange).
<i>Instrument -</i>	OTC spot trades, swap trades or swap contracts, executed via the System. Set of execution terms regarding trade/contract, mentioned above, is defined in the relevant specification.
<i>Liquidity Consumer (Consumer) -</i>	System User that initiates Auction by submitting RFQ.
<i>Liquidity Supplier (Supplier) -</i>	System User that supplies liquidity through Quotations submission.

<p><i>Offer to Execute OTC Trade (Offer) -</i></p>	<p>(1) message of the Clearing Member submitted to the System to execute OTC Trade, which contains indication of the other Clearing Member, Offer of which may be recognized as the Offer with counter terms, (2) message of the Liquidity Consumer submitted to the System in reply to Quotations of Liquidity Suppliers / Clearing House and (3) Quotation which has not been withdrawn by the Liquidity Supplier / Liquidity Provider and has been chosen by the Liquidity Consumer. Each submitted Offer is formal offer to execute OTC Trade addressed to the Clearing House.</p>
<p><i>OTC System User (System user, User) -</i></p>	<p>entity, which is the Clearing Member, and which joined these Rules in the defined order. System User can be represented by Liquidity Provider and/or Liquidity Supplier.</p>
<p><i>OTC Trade -</i></p>	<p>trade, executed on the basis of Offers of Clearing Members, including Clearing Members, which are Liquidity Suppliers and Consumers, in the order, stipulated by the Clearing Rules on the FX market and Precious metals market, by these Rules, also a trade, executed by the Clearing House with the Clearing Member / Liquidity Provider on the basis of Clearing Members' Offers / Liquidity Providers.</p>
<p><i>OTC Trades Execution System (System) -</i></p>	<p>set of hardware and software, which is part of the Clearing System that provides an opportunity to System Users and to the Clearing System to submit RFQ, Quotations and Offers, and perform other actions, stipulated by these Rules and by the Clearing Rules on the FX market and Precious metals market.</p>
<p><i>Quotation -</i></p>	<p>message, submitted to the System by the Liquidity Supplier in reply to RFQ.</p>
<p><i>Request for RFS Quotations (RFQ) -</i></p>	<p>message with set parameters, submitted by the Liquidity Consumer to the System to initiate Auction (opening of Auction).</p>
<p><i>RFS Auction -</i></p>	<p>mechanism for determination of the Instrument price in the claimed volume.</p>
<p><i>“RFS Auction” Mode -</i></p>	<p>mode for execution of OTC trades with the central counterparty by RFS Auction via the System</p>
<p><i>“Trades with CCP” Mode -</i></p>	<p>mode for execution of OTC trades with the central counterparty via the System through submission by the User of Offers, which contain indication of other Users, Offers of which may be recognized as the ones with counter terms.</p>

Article 3. System users' rights and liabilities

- 3.1. System users have the right to:
 - 3.1.1. Under the conditions, defined in the Rules, have access to the System, initiate Auctions and submit Quotations with the aim to execute OTC Trades in the "RFS Auction" Mode, and submit Offers with the aim to execute OTC Trades in the "Trades with CCP" Mode;
 - 3.1.2. Use the System for submission of Offers, Quotations and RFQ in the order, defined in the Rules;
 - 3.1.3. Receive reporting and other documents after Auctions and after OTC Trades execution, formats of which are given in the relevant internal documents of the Clearing House (relevant parts of internal documents of the Clearing House);
 - 3.1.4. Execute Cross Trades in compliance with the restrictions set by the Rules.
- 3.2. System Users are not entitled to submit Quotations and RFQ in the "RFS Auction" Mode with the aim to execute OTC Trades in the interest of the User's client that is individual person.
- 3.3. System Users must:
 - 3.3.1. Be admitted to the clearing service on the FX Market and Precious Metals Market and correspond to the requirements, set in respect of Clearing Members on the FX Market and Precious Metals Market;
 - 3.3.2. Use the System only with the aim to execute OTC Trades in the order, stipulated by these Rules and by the Clearing Rules on the FX and Precious metals market;
 - 3.3.3. Pay fees and make other payments, set by the Clearing House in the amount defined in the Tariffs of the Clearing House, at the appropriate times;
 - 3.3.4. Comply with the non-disclosure mode regarding information, which becomes available to the System User due to his access to the System.

Article 4. Procedure for System Users notification

- 4.1. Information, regarding granting to System Users of an access to the System and system activity, is provided to Users through forwarding information messages via the following:
 - 4.1.1. electronic form via the System;
 - 4.1.2. electronic message or electronic document via Moscow Exchange EDI (hereinafter referred to as the EDI);
 - 4.1.3. electronic message via e-mail;
 - 4.1.4. written form delivered by courier;
 - 4.1.5. disclosure on the website of the Clearing House;
 - 4.1.6. other way, which allows unconditionally identify information message sent date.
- 4.2. Day of System Users notification if information is provided via the forms, defined in the sub-paragraphs 4.1.1-4.1.4, is the day when System Users receive information message. If

information is provided via the form, defined in the paragraph 4.1.5, notice day is the day when information is disclosed on the website of the Clearing House.

Article 5. Procedure for provision of documents to the Clearing House / receiving documents from the Clearing House in the form of an electronic document

- 5.1. Provision / receipt of document to / from the Clearing House in the form of an electronic document is conducted by the System User according to the EDI Procedure.
- 5.2. File with an electronic document shall be signed by an electronic signature of the System User and shall be forwarded to the Clearing House via EDI.

Article 6. Disclosure procedure

- 6.1. Clearing House must ensure integrity of the information contained in the System.
- 6.2. Clearing House is entitled to disclose of the website of the Clearing House general information on initiated Auctions and executed OTC Trades.

SECTION II. ACCESS TO THE SYSTEM

Article 7. Procedure for granting access to the system

- 7.1. Accession to the Rules as the System User with the aim to submit Offers and execute OTC Trades in the “Trades with CCP” mode is conducted through submission by the Clearing Member, admitted to the clearing service on the FX market and precious metals market, of the relevant application on assigning powers of OTC Trades execution in the “Trades with CCP” mode to clearing logins, indicated in such application. Access to the “Trades with CCP” mode is provided in not more than 5 (five) Settlement Days since provision of the relevant application.
- 7.2. Clearing House provides access to the System with the aim of OTC Trades execution by Users in the order, defined in these Rules and in the Clearing Rules. Agreement on System use is concluded through accession to the abovementioned agreement, terms of which are stipulated by the Rules.
- 7.3. Accession to the Rules as Liquidity Consumer is conducted when first initiating Auction by the entity, which is the Clearing Member admitted to the clearing service on the FX market and precious metals market, through RFQ submission in the “RFS Auction” mode. Submission of such RFQ, signed by SES of the Clearing Member, is acceptance of the offer of the Clearing House regarding accession to the Rules, which shall be conducted not later within 1 (one) year since the Rules come into force. This period of time for the acceptance is prolonged for 1 (one) year since every new version of these Rules comes into force.

When accessing to the Rules in the order, stipulated by this paragraph, Liquidity Consumer by default gains access to all Instruments, in which OTC Trades can be executed according to the Rules.

- 7.4. Accession to the Rules as Liquidity Supplier is conducted through submission by the entity, which is the Clearing Member admitted to the clearing service on the FX market and precious metals market, of the relevant application on assigning Liquidity Supplier's powers to the clearing logins, defined in such application. Access to the System as Liquidity Supplier is provided not later than in 5 (five) Settlement Days after provision of the relevant application.
- 7.5. Clearing House is entitled to deny Clearing Member access to the System as Liquidity Supplier at its sole discretion.

Article 8. Procedure for suspension and termination of an access to the system

- 8.1. Based on the application of the System User the Clearing House suspends/terminates access of the User to the System or to certain Instruments for submission of Quotations and/or RFQ in the "RFS Auction" mode through suspension of relevant powers of clearing logins, indicated in the relevant application.

Based on the application of the System User the Clearing House suspends/terminates access of the User to the System for submission of Offers in the "Trades with CCP" mode through suspension of relevant powers of clearing logins, indicated in the relevant application.

Clearing House is entitled to suspend / terminate access of the User to the System or to certain Instruments for Offers, Quotations and/or RFQ submission according to other grounds, stipulated by the Rules.

- 8.2. In order to renew access to the System or to certain Instruments for Offers, Quotations and/or RFQ submission, Clearing Member shall forward application on assigning powers of OTC Trades execution in the "Trades with CCP" mode and/or powers of the Liquidity Supplier and/or of the Liquidity Consumer to clearing logins defined in such application.
- 8.3. In case if the Clearing House terminates or suspends access of the Clearing Member to the clearing service then admission of such Clearing Member as the User to the System is also terminated or suspended correspondingly.
- 8.4. Clearing House is entitled at its sole discretion suspend admission of the Liquidity Consumer to the System in case if number of Auctions, which have been initiated by the Liquidity Consumer and which have not resulted in OTC Trade execution, exceeds the limit set by the Clearing House.
- 8.5. Clearing House is entitled at its sole discretion suspend admission of the Liquidity Supplier to the System in case if number of Liquidity Supplier's Offers, which have failed the check in accordance with the Clearing Rules, exceeds the limit set by the Clearing House.
- 8.6. Clearing House is entitled at its sole discretion terminate admission of the User to the System.

SECTION III. AUCTION INITIATION, PROCEDURE FOR QUOTATIONS SUBMISSION AND OTC TRADES EXECUTION

Article 9. General terms of and procedure for Auction initiation, Quotations submission and OTC Trades execution

- 9.1. System Users admitted to the “Trades with CCP” mode have the right to forward Offers via the System. Such Offers, which contain indication of other System Users, Offers of which may be recognized as Offers with coinciding terms.
- 9.2. Clearing House has set prohibition to execute trades in the “Trades with CCP” mode with one Identifier of the Clearing Member. In case if the Offers in the “Trades with CCP” are submitted from one Identifier of the Clearing Member, such Quotation will not accepted by the System.
- 9.3. Liquidity Consumer through RFQ submission initiates Auction with the aim to execute OTC Trade in foreign currency with the Liquidity Supplier in the “RFS Auction” mode. When opening an Auction Liquidity Consumer defines the following:
- code of the Instrument for the foreign currency buy-sell;
 - trade volume under the instrument (lot currency);
 - Auction duration;
 - Quotations availability: (1) all Quotations of Liquidity Suppliers or (2) only best Quotations;
 - availability of the Liquidity Consumer’s name: (1) disclose name of the Liquidity Consumer or (2) do not disclose name of the Liquidity Consumer.

Liquidity Consumer has access to the information only on Auctions initiated by himself.

Liquidity Supplier has access to the information on all Auctions, which have been initiated and have not been terminated.

- 9.4. After Liquidity Consumer submits RFQ to the System, Liquidity Suppliers receive message on Auction opening and on possibility to submit Quotations taking into account parameters set by the Consumer.

Liquidity Consumer does not have access to the information on Liquidity Suppliers, which have submitted Quotations.

Liquidity Suppliers do not have access to the information on the Liquidity Consumer that has initiated an Auction except for cases when Liquidity Consumer gives consent upon such disclosure through choosing relevant option when opening an Auction.

- 9.5. In reply to Auction initiated by the Consumer, Liquidity Suppliers submit Quotations with buy and/or sell prices of the Instrument in accordance with the parameters, defined when opening an Auction.

During an Auction Liquidity Supplier is entitled to forward not more than one sell Quotation and not more than one buy Quotation in respect of the Instrument.

Liquidity Supplier is entitled to withdraw or change his Quotations at any moment till the end of the Auction and till his Quotation is chosen by the Liquidity Consumer, meanwhile not more than one sell Quotation and not more than one buy Quotation of one Liquidity Supplier can exist in the System within one Auction.

9.6. Liquidity Supplier has access to the information on all his Quotations, and also on Quotations which are the best ones at this particular moment without disclosure of the information on Liquidity Suppliers that submitted it.

9.7. Since the start and till the end of the Auction, Liquidity Consumer is entitled to choose buy and/or sell Quotation that suits him the best through forwarding relevant Offer. Quotation of the Liquidity Supplier chosen by the Liquidity Consumer gains status of the Offer of the Liquidity Supplier.

Offers content shall correspond to the requirements, set by the Clearing Rules on the FX market and precious metals market.

Offer may contain short code of the Trading Member's client, which is the Clearing Member and the User.

9.8. When the Liquidity Consumer has chosen Quotation through Offer forwarding Auction continues till the OTC Trade execution. Liquidity Suppliers, whose Quotations have not been chosen by the Liquidity Consumer, are entitled to submit Quotations till the end of the Auction (taking into account limits defined in the paragraph 10.3). Meanwhile Liquidity Consumer is not entitled to submit new Offer during the same Auction or cancel the Auction.

Liquidity Supplier is not entitled to withdraw its Offer.

9.9. Auction is terminated when one of the following events occurs (what comes earlier):

- OTC Trade execution;
- negative result of the Offer check, submitted by the Liquidity Consumer, executed in accordance with the Clearing Rules on the FX market and precious metals market;
- time, set by the Liquidity Consumer when opening Auction, has elapsed.

9.10. Clearing House checks and registers Offers of the Liquidity Supplier and of the Liquidity Consumer and executes OTC Trades in the order and under the terms stipulated by the Clearing Rules on the FX market and precious metals market.

9.11. Liquidity Consumer through RFQ submission initiates Auction with the aim to execute OTC swap trade in foreign currency or precious metal in the "RFS Auction" mode. When opening an Auction Liquidity Consumer defines the following:

- code of the swap Instrument regarding foreign currency or precious metal;
- trade volume under the instrument (lot currency);
- Auction duration;
- Quotations availability: (1) all Quotations of Liquidity Suppliers or (2) only best Quotations.

Liquidity Consumer has access to the information only on Auctions initiated by himself.

Liquidity Supplier has access to the information on all Auctions, which have been initiated and have not been terminated.

9.12. After submission by the Liquidity Consumer to the System of the RFQ, Clearing House forwards to Liquidity Providers requests for quotations, terms of which correspond to parameters of the RFQ of the Clearing Member. Clearing House via the Clearing System provide the Clearing Member with the information (quotations of Liquidity Providers)

required for submitting by the Clearing Member of the Offer to the Clearing House with the aim to execute OTC swap trade in foreign currency or precious metal with the Liquidity Provider in the “RFS Auction” mode.

- 9.13. Liquidity Consumer does not have access to the information on Liquidity Providers that submitted quotations of the Liquidity Provider.
- 9.14. Liquidity Providers do not have access to the information on the Liquidity Consumer that initiated the Auction.
- 9.15. Since the start and till the end of the Auction, Liquidity Consumer is entitled to choose buy and/or sell Quotation of the Liquidity Provider that suits him the best through forwarding relevant Offer.
- 9.16. When the Liquidity Consumer has chosen Quotation of the Liquidity Provider through Offer forwarding Auction continues till the OTC Trade execution.
- 9.17. Auction is terminated when one of the following events occurs (what comes earlier):
 - OTC Trade execution;
 - negative result of the Offer check, submitted by the Liquidity Consumer, executed in accordance with the Clearing Rules on the FX market and precious metals market;
 - time, set by the Liquidity Consumer when opening Auction, has elapsed.
- 9.18. Clearing House checks and registers Offers of the Liquidity Supplier and executes OTC Trades in the order and under the terms stipulated by the Clearing Rules on the FX market and precious metals market.
- 9.19. Time of submission of Offers, Quotations and RFQ, choosing Quotation by the Liquidity Consumer, time of provision of extracts from the OTC Trades list and RFS Auctions duration regarding specific Instruments is defined by the decision of the Clearing House.
- 9.20. Execution of OTC Trades and RFS Auction for execution of OTC Trades in foreign currency with the obligations Settlement Date on the trade execution day on the day, which is not the Settlement Day for such currency, is not allowed.

Article 10. Procedure for continuation of non-executed Auctions. Restrictions in respect of participant in the Auction

- 10.1. In case if Offer of the Liquidity Supplier failed the check in accordance with the Clearing Rules (hereinafter referred to as the failure of the check conducted according to the Clearing Rules) such Liquidity Supplier is not entitled to submit Quotations during this particular Auction. Auction continues and Liquidity Consumer is entitled to choose any other buy and/or sell Quotation.
- 10.2. Clearing House at its sole discretion is entitled to set maximum permissible number of failures of checks of the Liquidity Supplier’s Offers, conducted according to the Clearing Rules, when reaching which Liquidity Supplier can no longer submit Quotations during Auctions regarding all available Instruments till the end of this Settlement Day.
- 10.3. In case of the failure of the check conducted according to the Clearing Rules of the Offer, submitted by the Liquidity Consumer, Auctions terminates.

- 10.4. Clearing House at its sole discretion is entitled to set maximum permissible number of failed checks of the Liquidity Consumer's Offers conducted according to the Clearing Rules, when reaching which Liquidity Consumer can no longer initiate Auctions till the end of this Settlement Day.

Article 11. Restrictions in respect of Cross Trades execution

- 11.1. Execution of Cross Trades is prohibited except for the case defined in the paragraph 11.2.
- 11.2. User is entitled to execute Cross Trades in case if the Clearing House has information, received from the Exchange, that the User, which is the Trading Member, has permission on execution on Cross Trades on the FX Market and Precious Metals Market of the Exchange, on the basis of orders, submitted by the User as the Trading Member at its own expense or at the expense of its clients, registered as the client of the Trading Member.
- 11.2.1. Fact that the User, which is the Trading Member, submits Offers at the expense of the same person, registered as the client of such Trading Member, is identified by the Clearing House on the basis of the Client Identification Data, received from the Exchange, which corresponds to the short client code, defined in the Offer.

SECTION IV. PROCEDURE FOR BUILDING ALGORITHMIC BATCH OF OFFERS TO EXECUTE OTC TRADES IN FOREIGN CURRENCY AND PRECIOUS METALS WITH THE LIQUIDITY PROVIDER

Article 12. Specifics of submission of the algorithmic batch of Offers to execute OTC Trades in foreign currency and precious metals with Liquidity Providers

- 12.1. Clearing Members have the right to submit algorithmic batches of Offers to execute OTC Trades in foreign currency and precious metals with the Liquidity Provider. Offers, included into the algorithmic batches of Offers, are automatically submitted to the System during the period of time, set by this Clearing Member.
- 12.2. Clearing House checks and registers Offers of Clearing Members, submitted with the use of algorithmic batches of Offers, and execution of OTC Trades in the order and under conditions, stipulated by the Clearing Rules on the FX market and precious metals market.
- 12.3. Algorithmic batches of Offers, submitted by the Clearing Member, shall contain the following parameters (terms of algorithmic batches of Offers):
- short code of the client (when the Clearing Member submits algorithmic batches of Offers to execute trades in the interest of the client);
 - Trade Account of the Clearing Member;
 - Identifier of the Clearing Member;
 - direction of the Offer, submitted within the algorithmic batches of Offers: buy or sell;
 - total number of lots of all Offers, included into the algorithmic batches of Offers;
 - Settlement Date for obligations under buy-sell trades in foreign currency / precious metal;
 - type of Offer within the algorithmic batches of Offer:

- Offers to execute OTC Trade, which contain consent to buy or sell certain number of lots at the best price, defined in such Offer, registered in the System, and do not require additional confirmation;
- Offer to execute OTC Trade, which contain consent to buy certain number of lots at the price, not higher than the maximum buying price, or sell certain number of lots at a price, not lower than the minimum selling price, and do not require additional confirmation;
- for the algorithmic batch, which contains Offers to execute OTC Trade, which contain consent to buy certain number of lots at the price, not higher than the maximum buying price, or sell certain number of lots at a price, not lower than the minimum selling price: buy or sell price limit;
- maximum allowable deviation from the current best price of buy/sell of the counter Offer;
- type of restriction of the price limit (for Offers, which are executed in the maximum possible amount immediately after its submission to the System):
 - interest – maximum allowable deviation from the price of the Offer, submitted to the System, in percent from the current best buy-sell price of the counter Offer,
 - rate – maximum allowable deviation from the price of the Offer, submitted to the System, in absolute values of the rate of the current best buy-sell trade of the counter Offer;
- period of time, during which Offer from the algorithmic batch of Offers shall be submitted to the System;
- number of Offers, defined in the following way:
 - through indication by the Clearing Member of the concrete number of Offers in the batch of Offers or
 - through dividing the defined by the Clearing Member of the period of time for Offers submission by intervals, with which Offers, included into the algorithmic batch of Offers, shall be submitted to the System;
- ratio of the random deviation of the interval within the defined period of time and random deviation of the volume of Offers, included into the algorithmic batch of Offers.

12.4. Each Offer, included into the algorithmic batch of Offers, contains terms, stipulated by the Clearing Rules on the FX market and precious metals market and these Rules, for Offers to execute OTC Trades under the relevant Instrument taking into account Offers kinds and types.

12.5. When the period of time, defined in the algorithmic batch of Offers, arrives, Offers, which are contained in the batch of Offers, are submitted to the System taking into account number of Offers, intervals and other parameters, set in the terms of this batch of Offers. Each next Offer from the algorithmic batch of Offers can be submitted to the System after receiving response from the System on execution or refusal to fulfil previous Offer from the algorithmic batch of Offers.

12.6. Offers, which are contained in the batch of Offers / algorithmic batches of Offers, submitted to the System with the breach of these Rules, including the ones that resulted from circumstances that lead to and/or create background for failures (rejects) when using the

System and/or other hardware and software tools, used when executing OTC Trades in foreign currency / OTC Trades in precious metals and/or directly impeding proper (normal) functioning of the abovementioned tools, including force majeure, also failure, troubles and rejects of the equipment; failures and errors of the software, also other circumstances such as breach of rules for access control and/or unauthorized access to the System, not registered by the System.

Article 13. Procedure for definition of parameters of algorithmic batch of Offers

13.1. Volume of the Offer (in lots) from the algorithmic batch of Offers is calculated according to the following order:

13.1.1. Used functions:

- Round – math function of rounding to a given rounding order;
- Floor (Ceil) – function of rounding down to a given rounding order;
- Random – function of choosing random value out of the range;
- Min (Max) – function of choosing minimum (maximum) value.

13.1.2. Balance left from the volume of the algorithmic batch of Offers after i-iteration:

$$V_{OCT_i} = V - \sum_{j=1}^{i-1} V_{\phi AKT_j}, \text{ where}$$

$V_{\phi AKT_j}$ is the volume, actually performed when submitting connected Offer during i-iteration. During i-iteration $V_{OCT_i} = V$.

13.1.3. Target number of iterations, remained till the end of the algorithm (including currency i-iteration):

$$M_i = \text{Min} \left(N - i + 1, \text{Floor} \left(\frac{V_{OCT_i}}{V_{min}} \right) \right)$$

13.1.4. Average volume of the Offer from the algorithmic batch of Offers:

$$V_{cp_i} = \text{Floor} \left(\begin{cases} M_i = 0 : V_{OCT_i} \\ M_i \neq 0 : \frac{V_{OCT_i}}{M_i} \end{cases} \right)$$

13.1.5. Minimum volume of the Offer from the algorithmic batch of Offers:

$$V_{min_i} = \begin{cases} V_{cp_i} = 0 : 0 \\ V_{cp_i} \neq 0 : \text{Max} \left(\text{Floor} \left(V_{cp_i} \times \left(1 - \frac{K_r \text{exp}}{2} \right) \right), V_{min} \right) \end{cases}$$

where $K_r \text{exp} = \frac{e^{K_r} - 1}{e - 1}$ is the value of random deviation of the Offer from the algorithmic batch of Offers.

13.1.6. Maximum volume of the Offer from the algorithmic batch of Offers:

$$V_{max_i} = \text{Ceil} \left(V_{cp_i} \times \left(1 + \frac{K_r \text{exp}}{2} \right) \right)$$

13.1.7. Normalization according to the minimum balance left (ensure that the volume V_{min} for each next iteration of the algorithmic batch is remained - under the condition that all Offers from it will be executed in the System in full):

$$Vmax_i = Min(Vmax_i, Vост_i - Vmin \times Max(M_i - 1, 0))$$

13.1.8. Random volume of Offers from the algorithmic batch of Offers:

$$Vrand_i = Random(Vmin_i, Vmax_i)$$

Boundaries of the range are included.

In case if $Vmin_i > Vmax_i$, instead of calling function $Random()$, 0 is received.

13.1.9. Adding to the remained balance (if due to performance of the i-iteration (under the condition that Offers in the System are executed in full) there is the volume $< Vmin$ in the algorithmic batch then the remained balance is added to the volume of the current iteration):

$$Vдоп_i = \begin{cases} Vост_i - Vmin \text{ ост}_i \geq Vmin : Vmin \text{ ост}_i \\ Vост_i - Vmin \text{ ост}_i < Vmin : Vост_i \end{cases}$$

13.1.10. Final calculation of the volume of the Offer from the algorithmic batch of Offers, planned to be entered during i-iteration:

$$Vплан_i = \begin{cases} Vдоп_i \geq Vmin : Vдоп_i \\ Vдоп_i < Vmin : 0 \end{cases}$$

13.2. Clearing Member when entering parameters of the algorithmic batch of Offers has the right to defined the ratio of random deviation of the Offer from the algorithmic batch of Offers according to the entering time and the volume - $K_r = 0, \dots, 1$ at 0,1 intervals, where:

- 0 – no deviation (equal distribution of orders according to entering time and volume);
- 1 – maximum deviation ($\pm 50\%$ from the value of calculated average time interval and from the value of calculated average volume Vcp_i).

Value of random deviation of orders is calculated according to the following:

$$K_r exp = \frac{e^{K_r} - 1}{e - 1}$$

where $K_r exp$ is the random deviation of Offers,

K_r is the ratio of the random deviation of Offers, set by the Clearing Member (0, ..., 1),

e^x is the exponent of the given number.

Article 14. Miscellaneous

14.1. Clearing House is not responsible for losses, costs or expenses, regardless of reason of occurrence (including its occurrence due to failures, errors, breakdowns or gaps when accessing to the System, or due to lack of access to the System or to any of its part), and also when using System, suffered by System Users, except for cases when such losses directly result from reckless disregard of the Clearing House, willful default or fraud.

14.2. System Users guarantee the Clearing House full compensation of losses, damage, legal actions, costs and expenses, incurred by the Clearing House in any way due to granting to the System User access to the System, or usage of the System by the System User, regardless of the reason of occurrence, except for cases when such losses directly result from reckless disregard of the Clearing House, willful default or fraud

14.3. System User agrees with the fact that occasionally access to the System will not be available for some reason or will be denied in some other way due to technical service,

equipment malfunction, software errors, breaks in customer service or in data net processing or due to other reasons, and also agrees with the fact that the Clearing House is not responsible towards System Users for losses, costs and expenses, regardless of the reason of occurrence, incurred due to unavailable access to the Systems.
