SECTION I. GENERAL PROVISIONS

These “Clearing Rules of the Central Counterparty National Clearing Centre. Part IV. The Clearing Rules on the Derivatives market” (hereinafter the Clearing Rules on the Derivatives market) constitute itself as an integral part of the Clearing Rules of the Central Counterparty National Clearing Centre and jointly with “the Clearing Rules of the Central Counterparty National Clearing Centre. Part I. The Common part” (hereinafter the Common part of the Clearing Rules) cover the relations connected with the fulfillment of contracts, which are derivatives, concluded on the Derivatives Market of the PJSC Moscow Exchange.

Article 1. Terms and definitions

1.1. In the Clearing Rules on the Derivatives market the terms given in the Common part of the Clearing Rules and also the terms given below are used:

<i>Authorized Owner – Accounts</i>	entity, which provides assets in order to secure fulfillment and/or fulfill obligations of a Clearing Member (Clearing Members), and performing other functions in accordance with the Clearing Rules on the Derivatives Market.
<i>Closing Positions Regime –</i>	restriction imposed by the Clearing House in respect of a Clearing Member, when only Derivative Contracts, party to which is the defined Clearing Member, leading to the closure of positions of such Clearing Member.
<i>Derivative Contract –</i>	Contract, which is derivative, concluded in accordance with the Derivatives Market Rules in the order defined in the Derivatives Market Rules and/or in the Clearing Rules on the Derivatives market.
<i>Execution of a Derivative Contract / execution –</i>	<p>termination, through the duly fulfillment inclusively, of the following obligation(s), arising from the Derivative Contract, stipulated by the Specification:</p> <ul style="list-style-type: none"> • for the delivery futures contract – Delivery obligations; • for the settlement futures contract – Settlement obligations; • for an option contract, underlying asset of which is the futures contract, – obligation to conclude futures contract, stipulated by the Specification of such option contract; • for a delivery option contract, underlying asset of which is not the futures contract, – Delivery obligations; • for a settlement option contract, underlying asset of which is not the futures contract, – Settlement obligations.
<i>Total Required Margin Amount Calculation Methodology –</i>	internal document of the Clearing House, which defines the principles for Total Required Margin Amount calculation.
<i>Maximum / Minimum Value of the Price Range</i>	value, more / less than which the price for futures contract conclusion can not be, except for cases, directly stipulated by the Clearing Rules on the Derivatives market and/or by the Derivatives Market Rules.

<i>Risk parameters for the Derivatives market Calculation Methodology –</i>	internal document of the Clearing House, which defines the procedure for setting and changing risk parameters on the Derivatives market.
<i>Segregated Sub-accounts Cluster -</i>	Sub-accounts Cluster, opened for the provision to the Authorized Accounts Owner of the opportunity to transfer a debt and assignment of the claim of the Clearing Member, and transfer of Collateral to the other Clearing Member.
<i>Sub-accounts Cluster –</i>	group of clearing registers sections, united in the recording of the Clearing House.
<i>Total Required Margin Amount –</i>	sum in Russian rubles calculated in accordance with the Clearing Rules on the Derivatives Market, which is required to assess the sufficiency of Collateral to secure the fulfillment of all obligations arising from Derivative contracts in total.
<i>Trade Restriction –</i>	sum denominated in Russian rubles defined by the Clearing House in accordance with the Clearing Rules on the Derivatives market on the basis of Collateral value, within which a Clearing Member is entitled to conclude Derivative Contracts.

Article 2. General provisions

- 2.1. The Clearing House clears Derivative Contracts acting as a central counterparty.
- 2.2. The Clearing House clears the following derivatives:
 - futures contracts;
 - options contracts.
- 2.3. Russian rubles, foreign currency, precious metals and securities, in accordance with the Common part of the Clearing Rules, are accepted as Collateral recorded under Settlement Account of the Unified Pool.
- 2.4. Collateral in foreign currency, recorded under Settlement Accounts that are not Unified Pool Settlement Accounts, is “the other” collateral.
- 2.5. List of assets, transfer of profiles of which is possible between the Clearing System of the Derivatives market and the Clearing System of the Securities market and Deposits market:
 - cash funds in Russian rubles;
 - cash funds in foreign currency, exchange rate of which is underlying asset of Derivative Contracts, execution of which is possible on the Derivatives market, and accepted as the way to secure fulfillment of obligations under Partially Secured Trades, recorded under Unified Pool Settlement Accounts;
 - precious metals / securities, which are the underlying asset of Derivative Contracts, execution of which is possible on the Derivatives Market, and accepted to secure fulfillment of obligations under Partially Secured Trades, recorded under Unified Pool Settlement Accounts.

2.5.1. Clearing House is entitled to make decision on limiting list of assets, transfer of profiles of which is possible between the Clearing System of the Derivatives Market and Clearing System of the Securities Market.

2.6. Russian rubles, and also foreign currency, which are included into the List of foreign currencies (hereinafter the List) accepted on the Derivatives market as Collateral, are accepted as Collateral recorded under Settlement Accounts, which are not Settlement Accounts of the Unified Pool.

The list is formed in accordance with the Methodology for selecting currency acceptable as collateral on the Derivatives market of the Moscow Exchange, approved by the Clearing House. Information on the foreign currency, which is included into the List, is disclosed on the website of the Clearing House.

If by the moment of exclusion of the foreign currency from the List, Clearing Member has Margin Call, recorded under the Settlement Account, which is not satisfied in the order, defined in the Clearing Rules on the Derivatives Market, foreign currency excluded from the List and recorded under such Settlement Account can be used for the satisfaction of the Margin Call in the order, defined in the Clearing Rules on the Derivatives market.

The methodology defined in this paragraph also defines the procedure for the definition of the restriction for the minimum sum in each foreign currency, accepted as Collateral of one Clearing Member, discount rate, applicable when calculating the defined assessment value.

Russian rubles, foreign currency, securities and precious metals are accepted as Collateral, recorded under Settlement Accounts, which are Unified Pool Settlement Accounts, according to the Common Part of the Clearing Rules.

2.7. Time periods for the calculation and fulfillment of obligations, defined in the Clearing Rules on the Derivatives market, clearing sessions time, and also time periods for the execution of clearing operations, time periods for the provision of documents to the Clearing House / by the Clearing House within the process of interaction with Clearing Members when clearing in accordance with the Clearing Rules on the Derivatives market are defined in the Time Specifications on the Derivatives market, which is Supplement 1 to the Clearing Rules on the Derivatives market.

Terms, not specially defined in the Time Specifications on the Derivatives market, are defined in accordance with the Time Specifications, which is the Supplement to the Common part of the Clearing Rules.

2.8. PJSC Moscow Exchange is the Technical Centre on the Derivatives market.

Article 3. Clearing registers

3.1. When executing clearing on the Derivatives market the Clearing House registers and keeps clearing registers stipulated by the Common part of the Clearing Rules and also:

- cash collateral register (in Russian rubles and in foreign currency);
- position register.

3.2. Cash collateral register is the clearing register designed for recording information on Collateral in Russian rubles or in foreign currency and on assets profiles of cash funds.

- 3.3. Position register is the clearing register designed for recording of accepted for clearing obligations and claims of a Clearing Member arisen from Derivative Contracts, party to which is the abovementioned Clearing Member.
- 3.4. Procedure for keeping clearing registers is defined in the Common part of the Clearing Rules and also in the relevant articles of sections SECTION IV and SECTION V.

SECTION II. REQUIREMENTS FOR CLEARING MEMBERS

Article 4. Clearing service terms. The procedure for granting admission to the clearing service

- 4.1. In accordance with the Clearing Rules on the Derivatives market the following categories of Clearing Members may be assigned to Clearing Members:
- Clearing Members of the category “B”;
 - Clearing Members of the category “B2”;
 - Clearing Members of the category “O”.
- 4.2. Admission to the clearing service on the Derivatives market is granted to a Clearing Member, which correspond to the requirements set out for Clearing Members of the relevant category in the Common part of the Clearing Rules, and also to a Clearing Member, which concluded the Agreement on IT support of the Technical Centre and which set up the software “Universal file gateway” according to this agreement.

Article 5. Procedure for opening and closing clearing registers sections, Sub-accounts Clusters and Settlement Accounts for Clearing Members

- 5.1. On each clearing register, defined in the paragraph 3.1, the Clearing House opens clearing register section with the code XX00000.

For the Clearing Member, which is not the Market Participant, and the Non-clearing Member – Market Participant, which concluded with the Clearing House the agreement on keeping clearing registers, stipulated by the Common Part of the Clearing rules, may be opened other sections under clearing registers, defined in the paragraph 3.1, on the basis of the information, received from the Exchange via the Trading System.

- 5.2. Clearing registers section code consist of seven symbols, divided into three groups. Groups of symbols in the clearing registers section code are situated in the following order – XXYYZZZ.

The first group consists of two symbols and is the Identifier of a Clearing Member (stands for XX).

The second group consists of two symbols (stands for YY). The consequence of symbols XXYY is the code of a Sub-accounts Cluster. In the recording of the Clearing House sections, which have the same code of a Sub-accounts Cluster, are united.

The third group consists of three symbols (stands for ZZZ). The consequence of symbols XXYYZZZ is the code of the clearing register section, indicated by a Clearing Member in the application for opening clearing registers section.

Figures and letters of the Latin alphabet are correct symbols of the section code.

- 5.3. Sub-accounts Cluster may be one of the following types:
- Proprietary Sub-accounts Cluster;
 - Client Sub-accounts Cluster;
 - Sub-accounts Cluster in trust;

- Segregated Sub-accounts Cluster.

Sub-accounts Cluster type is defined in respect of the Market Participant, for which this particular Sub-accounts Cluster is opened.

One Clearing Member can open several Sub-accounts Cluster, each of them can be proprietary Sub-accounts Clusters, Client, Segregated or Trust one.

- 5.4. One or several Sub-accounts Cluster(s) can be connected with one Settlement Account.

Type of the Settlement Account is defined in respect of the Clearing Member.

- 5.5. Cash funds, recorded under cash collateral register sections, which has the code of the Sub-accounts Cluster, connected with this particular Settlement Account, are recorded under each Settlement Account.

- 5.6. Sub-accounts Cluster with the code XX00 is opened when to the Clearing Member the Identifier (hereinafter referred to as the main Sub-accounts Cluster) with the type “Proprietary” is assigned.

Together with the opening of main Sub-accounts Cluster the Clearing House opens for the Clearing Member the Settlement Account of the relevant type and connects it with such Sub-accounts Cluster.

- 5.7. Application for opening Proprietary Sub-accounts Cluster, Client Sub-accounts Cluster or Trust Sub-accounts Cluster is signed by the Clearing Member.

- 5.8. Application for opening Sub-accounts Cluster / Application for opening Segregated Sub-accounts Cluster, provided by the Clearing Member to the Clearing House, shall contain the code and the type of the Sub-accounts Cluster, application for opening Settlement Account, with which the Sub-accounts Cluster shall be connected, with the indication of its type, or the indication of the opened Settlement Account, with which the Sub-accounts Cluster shall be connected.

Together with opening of the Sub-accounts Cluster the Clearing House opens main section of the Sub-accounts Cluster with the code similar to the XXYY000.

- 5.8.1. In the Application for opening Sub-accounts Cluster in trust or Application for opening Client Sub-accounts Cluster of the Clearing Member, except for Segregated Sub-accounts Cluster, the Clearing Member indicates whether or not is entitled to use in its own interest funds of the trustor(s), transferred to the Clearing Member, by its client inclusively, and the right to use the defined funds in order to secure fulfillment of its own obligations or of obligations of third parties.

- 5.9. In order to connect opened Sub-accounts Clusters with the Settlement Account, the Clearing Member provides the Clearing House with the following:

- Application for opening Settlement Account for the Sub-accounts Cluster;
- Application for correspondence of the Sub-accounts Cluster to the Settlement Account.

Application for opening Settlement Account for the Sub-accounts Cluster shall contain the indication of the Settlement Account type.

- 5.10. On the basis of the Application for opening Settlement Account for the Sub-accounts Cluster, the Clearing House opens for the Clearing Member the Settlement Account and connects it with the Sub-accounts Cluster, defined in the Application.

When Collateral, information about which has been recorded under cash collateral register, opened within the Sub-accounts Cluster(s), starts to be recorded under the Settlement Account, opened on the basis of the Application for opening Settlement Account for the Sub-accounts Cluster, and stops being recorded under the Settlement Account, with which the Sub-accounts Cluster(s) has(have) been connected before the fulfillment of the Application for opening Settlement Account for the Sub-accounts Cluster.

- 5.11. On the basis of the Application for correspondence of the Sub-accounts Cluster to the Settlement Account, the Clearing House connects the Sub-accounts Cluster, defined in the application, with the Settlement Account, defined in the application.

When Collateral, information about which has been recorded under cash collateral register opened within the Sub-accounts Cluster(s), starts being recorded under the Settlement Account, defined in the Application for correspondence of the Sub-accounts Cluster to the Settlement Account, and stops being recorded under the Settlement Account, with which the Sub-accounts Cluster(s) has (have) been connected before the fulfillment of the Application for the correspondence of the Sub-accounts Cluster to the Settlement Account.

- 5.12. Application for correspondence of the Sub-accounts Cluster to the Settlement Account is executed by the Clearing House during mark-to-market night clearing session on the day of the defined application provision.

- 5.13. Application for correspondence of the Sub-accounts Cluster to the Settlement Account is executed by the Clearing House if all of the following requirements are met:

- Sub-accounts Cluster type corresponds to the Settlement Account type, defined in the Application for correspondence of the Sub-accounts Cluster to the Settlement Account;
- Settlement Account, defined in the Application for correspondence of the Sub-accounts Cluster to the Settlement Account;
- under position register sections, which have the Sub-accounts Cluster code, defined in the application, are not recorded open positions under deliverable Derivative Contracts, underlying asset of which is securities, admitted to execution of buy-sell trades in the Trading Mode “Main Trading Mode T+” as at the day of execution according to the Clearing Rules of the Securities Market, Deposit Market and Credit Market, and/or under deliverable Derivative Contracts, underlying asset of which is precious metal, and/or deliverable futures contracts, underlying asset of which is agricultural products;
- Clearing Member does not have any unpaid Debts under the Settlement Account, with which the Sub-accounts Cluster(s) has been connected, and under the Settlement Account, defined in the Application for correspondence of the Sub-accounts Cluster to the Settlement Account;
- amount of cash funds in Russian rubles, recorded under all cash collateral register sections, which have the code of the Sub-accounts Cluster, defined in the application as collateral, is not negative;

- value SZ_{SC} , calculated under the Settlement Account, with which Sub-accounts Cluster(s) has (have) been connected, and/or under the Settlement Account, defined in the Application for correspondence of the Sub-accounts Cluster to the Settlement Account, will not become negative resulting from the execution of the application;
 - absolute value of the negative Single Limit of the Settlement Account for tax payment is more than the value, set by the decision of the Clearing House (if the Settlement Account defined in the Application for correspondence of the Sub-accounts Cluster to the Settlement Account, is the Settlement Account included into the list of Settlement Accounts connected with the Settlement Account for tax payment, and under the Settlement Account for tax payment obligations to pay the sums corresponding to the sum of profits tax on income of foreign organizations from sources located in Russian Federation, which are recorded under the Settlement Account defined in the Application for correspondence of the Sub-accounts Cluster to the Settlement Account).
- 5.14. Within 1 (one) Settlement Day with one Settlement Account can be connected only one Sub-accounts Cluster.
- 5.15. The Clearing Member must register separate Settlement Accounts for each Segregated Sub-accounts Cluster.
- 5.16. The Clearing Member must open separate Sub-accounts Cluster and separate client Settlement Account for the client of the Clearing Member, for which, in accordance with the legislation of the Russian Federation, the Clearing Member requires from the clearing organization separate recording of cash funds and other assets of such Clearing Member client, transferred to the clearing organization as the individual clearing collateral.
- 5.17. The Clearing Member must open separate Settlement Account, and also separate Sub-accounts Cluster, if in accordance with the legislation of the Russian Federation the Clearing Member does not have the right to use in its own interest funds of the trustor(s), transferred to the Clearing Member, by its client inclusively, and the right to use the defined funds in order to secure fulfillment of its own obligations or of obligations of third parties.
- 5.18. Opening of clearing registers sections is not allowed:
- with the indication of identification data of the Market Participant client in accordance with the requirements, set by the Exchange when registering Market Participants clients, which do not correspond to the identification data of the Clearing Member, if proprietary Settlement Account corresponds to the Sub-accounts Cluster, to which the clearing registers section is opened except for the case set out by the paragraph 5.19;
 - with the indication of identification data of the Clearing Member, if the client or trust Settlement Account corresponds to the Sub-accounts Cluster, to which the clearing registers section is opened.
- 5.19. Opening clearing registers sections with the indication of identification data of the client of the Market Participant according to the requirements set by the Exchange when registering clients of Market Participants, which do not correspond to identification data of the Clearing Member, if proprietary Settlement Account corresponds to the Sub-accounts Cluster, to which clearing registers section is opened, is admitted only for execution of

Derivative Contracts, party to which is Non-resident Clearing Member, acting in the name and on behalf of the client and at the expense of collateral, transferred to such Non-resident Clearing Member by his client to his ownership on the basis of the title transfer agreement on assets which constitute collateral between Non-resident Clearing Member and his client.

- 5.20. In order to open clearing registers sections, defined in the paragraph 5.19, Non-resident Clearing Member must submit to the Clearing House application on using Settlement Account for execution of trades at the expense of collateral, transferred by the client to his ownership on the basis of the title transfer agreement on assets which constitute collateral.
- 5.21. For each Settlement Account, except for the Settlement Account, connected with the Segregated Sub-accounts Cluster, the Clearing House without the Application of a Clearing Member opens:
- special Sub-accounts Cluster, designed in order to record obligations to pay penalties and fees, stipulated by the Common part of the Clearing Rules, emerging under the Settlement Account, in respect of which such Special Sub-accounts Cluster is opened, and also to record obligations when applying the procedure for discounting obligations of the Clearing House to return Collateral to Non-defaulting Clearing Members / Authorized Accounts Owner in accordance with the Common part of the Clearing Rules;
 - main proprietary section within the special Sub-accounts Cluster.
- 5.21.1. Type of the special Sub-accounts Cluster corresponds to the type of the Settlement Account, for which such special Sub-accounts Cluster is opened.
- 5.21.2. Obligations to pay penalties and fees, stipulated by the Common Part of the Clearing Rules, emerged under the Settlement Account, connected with the Segregated Sub-accounts Cluster, and also obligations with postponed fulfillment when applying the procedure for discounting obligations of the Clearing House to return the Collateral to Non-defaulting Clearing Members / Authorized Accounts Owner, in accordance with the Common Part of the Clearing Rules, are recorded under the securities sub-account of the Segregated Sub-accounts Cluster with the code XXYY000, where XXYY is the code of the Segregated Sub-accounts Cluster. Under such securities sub-account of the cash collateral register the following information is recorded:
- on the Collateral in Russian rubles and in foreign currency, when transferring such Collateral to the relevant clearing banking or correspondent account of the Clearing House such securities sub-account is indicated in the purpose of payment;
 - on the Collateral in Russian rubles and in foreign currency, when transferring such Collateral to the relevant clearing banking or correspondent account of the Clearing House securities sub-account of clearing registers has not been indicated, however the Settlement Account, connected with the Segregated Sub-accounts Cluster, has been indicated.
- 5.21.3. Provisions, set for the relevant type of the Sub-accounts Cluster (Proprietary, Client, Trust) in the Article 18, Article 19, and also with the Article 24, regarding calculation of the values SZ_{SC} и SZ_{OB} , apply to special Sub-accounts Cluster.
- 5.21.4. Under main proprietary section, opened within the special Sub-accounts Cluster, the following is not recorded: positions, also the information on termination of obligations under Derivative Contracts.

5.21.5. For each Settlement Account the Clearing House without the application of the Clearing Member opens liquidation securities sub-account of the position register, designed for recording positions under balancing Derivative Contracts, concluded without orders submission between the Clearing House and Non-defaulting Clearing Members in accordance with the Common Part of the Clearing Rules.

For each Settlement Account, except for the Settlement Account, connected with the Segregated Sub-accounts Cluster, liquidation securities sub-account of the positions register is opened within the special Sub-accounts Cluster.

For each Settlement Account, connected with the Segregated Sub-accounts Cluster, liquidation securities sub-account of the position register is opened within such Segregated Sub-accounts Cluster.

5.22. In order to close clearing registers sections, the entity, to which clearing registers section is opened (Clearing Member, which is not a Market Participant, or Non-clearing Member – Market Participant, which concluded with the Clearing House the Agreement on keeping clearing registers), provides the Clearing House with the Application for closing clearing registers sections, which shall contain numbers of sections to be closed and closing date. Closing of the defined clearing registers section is possible only if there is no opened positions under Derivative Contracts and if there is zero balance under cash funds recorded under such cash collateral register sections.

5.23. Closing main section of the Sub-accounts Cluster is executed on the basis of the Application for closing clearing registers sections of the entity, to which main section of the Sub-accounts Cluster is opened (Clearing Member, which is not the main Market Participant, or the Non-clearing Member – Market Participant, which concluded with the Clearing House the Agreement on keeping clearing registers), after all other sections of this Sub-accounts Cluster are closed.

5.24. Closing clearing registers section of a Clearing Member with the code XX00000 is executed by the Clearing House after closing all other clearing registers sections of this Clearing Member when annulling Identifier of a Clearing Member.

5.25. Clearing House closes clearing registers sections of the Clearing Member, admission to the clearing service of which is terminated, if under the Settlement Account, corresponding to such sections, zero balance in Russian rubles and in the foreign currency is recorded.

5.26. The Settlement Account is the clearing register of the 1st level, Sub-accounts Cluster is the clearing register of the 2nd level, clearing registers section is the clearing register of the 3rd level.

Article 6. Procedure for the registration of Segregated Sub-accounts Clusters

6.1. For the registration of the Segregated Sub-accounts Cluster the entity (entities), which are included into the list of Authorized Accounts Owners of the Clearing House, shall be indicated in the Application for the registration of the Segregated Sub-accounts Cluster. The defined Authorized Accounts Owner is fixed to such Segregated Sub-accounts Cluster.

6.2. Authorized Accounts Owner can be:

- a Clearing Member, to which the Identifier, within which the Segregated Sub-accounts Cluster is registered, is assigned;
 - other legal entity.
- 6.3. A Clearing Member in order to obtain the Authorized Accounts Owner status (inclusion into the list of Authorized Accounts Owners) shall provide the Clearing House with the Application for obtaining the Authorized Accounts Owner status.
- A legal entity, which is not a Clearing Member, to obtain the Authorized Accounts Owner status must conclude the agreement on obtaining Authorized Accounts Owner status with the Clearing House (hereinafter the Agreement). In order to conclude the Agreement a legal entity must provide the Clearing House with the set of documents in accordance with the list of documents, provided by a legal entity to conclude Clearing Membership Agreement given in the Common part of the Clearing Rules, if such set of documents was not provided to the Clearing House earlier.
- 6.3.1. In order to confirm its financial state, Authorized Accounts Owners shall provide the Clearing House with the reporting in the whole volume, order and terms, set out by the Common Part of the Clearing Rules, within the whole period, when the Agreement is in effect.
- With the aim to estimate the financial state of the Authorized Accounts Owner the Clearing House is entitled to claim from the Authorized Accounts Owner additional information and reporting, not defined in the common part of the Clearing Rules.
- 6.3.2. Annulment of the Authorized Accounts Owner status of a Clearing Member is executed by the Clearing House when terminating Clearing Membership Agreement, when terminating admission of a Clearing Member to the clearing service on the Derivatives market or on the basis of the application, received from a Clearing member.
- Annulment of the Authorized Accounts Owner status of the entity, which is not a Clearing Member, is executed by the Clearing House when terminating the Agreement with this entity.
- When terminating an Agreement with the Authorized Accounts Owner, the Clearing House changes type of the Sub-accounts Cluster from the Segregated one to the Client / Trust one.
- 6.4. The Application on registration of the Segregated Sub-accounts Cluster is signed by a Clearing Member, to which is assigned the Identifier, within which this Segregated Sub-accounts Cluster is opened, and by the Authorized Accounts Owner / Authorized Accounts Owners defined in the application.
- 6.4.1. The defined application can be submitted as one document, signed by all abovementioned entities, or as two (three) identical documents, each signed by one of the defined entities.
- 6.5. The Authorized Accounts Owner, fixed to the Segregated Sub-accounts Cluster, is entitled to annul the Authorized Accounts Owner status under such Segregated Sub-accounts Cluster, providing the Clearing House with the Application for Authorized Accounts Owner status annulment. The Segregated Sub-accounts Cluster, to which is fixed Authorized Accounts Owner, whose status was annulled on the basis of his application, hereinafter is referred to as the Segregated Sub-accounts Cluster without Authorized Accounts Owner.

6.5.1. Fixation of new Authorized Accounts Owner to the Segregated Sub-accounts Cluster without Authorized Accounts Owner is executed on the basis of the Application for fixation of the Authorized Accounts Owner, signed by a Clearing Member, to which the Identifier, within which this Segregated Sub-accounts Cluster is opened, and by the new Authorized Accounts Owner. The defined application is submitted to the Clearing House in the order defined in the sub-paragraph 6.4.1.

6.6. A Clearing Member is entitled to change the Sub-accounts Cluster of the Client or Trust type to the Sub-accounts Cluster of the Segregated type under the condition that such Sub-accounts Cluster is connected with separate client Settlement Account / Trust Sub-accounts Cluster is connected with separate Trust Settlement Account.

Change of the Sub-accounts Cluster type is executed by the Clearing House on the basis of the Application for Sub-accounts Cluster type change provided by a Clearing Member to the Clearing House, signed by a Clearing Member and an Authorized Accounts Owner and submitted in the order defined in the paragraph 6.4.1.

The Application for Sub-accounts Cluster type change is executed under the following condition:

- there is Margin Call, recorded under the Settlement Account, connected with this Sub-accounts Cluster, pending the change of type of the Sub-accounts Cluster.

Article 7. Specifics of the Segregated Clients Registration

7.1. Besides to performing the actions provided by the Common part of the Clearing Rules, a Clearing Member shall open for the Segregated Client separate Client Sub-accounts Cluster / separate Trust Sub-accounts Cluster.

7.2. When establishing the correspondence of the client Settlement Account or the Trust Settlement Account with the registration data of the Segregated Client, the Clearing Member is obliged to link the separate Client Sub-accounts Cluster / Trust Sub-accounts Cluster opened for the Segregated Client with the Settlement Account of the Segregated Client based on the submitted in accordance with the Common part of the Clearing Rules of a request to establish the correspondence of the client Settlement Account or the Trust Settlement Account with the registration data of the Segregated Client, which also indicates the code of the Sub-accounts Cluster, opened for the Segregated Client.

7.3. A Clearing Member is not entitled to connect a Settlement Account of a Segregated Client with others Sub-accounts Clusters or with Segregated Clients that have different registration data.

Article 8. Specifics of the suspension of an admission to the clearing service

8.1. When there are grounds stipulated by the Common part of the Clearing Rules as the grounds for the suspension of an admission to the clearing service and also in other cases set out by the Clearing Rules on the Derivatives market, the Clearing House is entitled to set for a Clearing Member the Closing Positions Regime.

8.1.1. After receiving information on the fact that grounds for the suspension of an admission, stipulated by the Common part of the Clearing Rules and Clearing Rules on the Derivatives

- market, are not valid anymore, the Clearing House is entitled to make a decision on cancellation of the Closing Positions Regime set for a Clearing Member.
- 8.2. In case if effect of grounds for setting Closing Positions Regime in respect of the Clearing Member terminates after such regime is set according to the Clearing Rules, except for the case when such regime is set according to the grounds for suspension of admission to the clearing service set out in the Common Part of the Clearing Rules, the Clearing House cancels Closing Positions Regime set for the Clearing Member.
- 8.3. The Clearing House notifies the Exchange on setting / canceling of the Closing Positions Regime in respect of a Clearing Member.
- 8.4. In case if the grounds for setting Closing Positions Regime in respect of a Clearing Member are valid within 3 (three) workdays after setting the defined Regime in accordance with the Clearing Rules, the Clearing House is entitled to suspend admission of a Clearing Member to the clearing service from the 4th (fourth) Settlement Day from the date when the Closing Positions Regime was set.
- 8.5. In case of suspension of an admission to the clearing service the Clearing House is entitled to apply to a Clearing Member the procedure for forced closure of positions in accordance with the Article 25.

SECTION III. MEASURES AIMED AT RISK MANAGEMENT WHEN CLEARING

Article 9. List of measures aimed at risk management when clearing

- 9.1. With the aim to reduce risks connected with clearing on the Derivatives market the Clearing House applies measures stipulated by the Common part of the Clearing Rules, and also performs calculation and control of the Trading Limit.
- 9.2. The Default Fund of the Derivatives market is formed by the Clearing House by the Default Fund contributions of all Clearing Members admitted to clearing on the Derivatives market. Minimum Default Fund contribution of each Clearing Member constitutes 10 000 000 (ten million) of Russian rubles.
- 9.3. All Clearing Members admitted to clearing on the Derivatives market are obliged to post Collateral for Stress.
Procedure for the calculation of the amount of Collateral for Stress of a Clearing Member is set out by the Collateral for Stress Calculation Methodology.
- 9.4. When a Clearing Member does not fulfill the Default Fund Margin Call and/or Collateral for Stress Margin Call, the procedure for issuing and fulfilling which is defined in the Common part of the Clearing Rules, the Clearing House sets the Closing Positions Regime in respect of such Clearing Member.
- 9.5. When using the contribution of the Defaulting Clearing Member to the Default Fund of the Derivatives market and/or Collateral for Stress on the Derivatives market, the clearing service of such Defaulting Clearing Member is suspended.
- 9.6. In case if the Defaulting Clearing Member replenishes the Default Fund and Collateral for Stress on the Derivatives market within 1 (one) Settlement Day after the Clearing House issues Default Fund Margin Call and/or Collateral for Stress Margin Call, the clearing service of such Defaulting Clearing Member is renewed.

Article 10. Trade Restriction

- 10.1. The Trade Restriction in respect of the clearing registers section (hereinafter referred to as the Client Limit) is set (changed) in the Clearing System during the Trading by the Market Participant / Clearing Member, to which services regarding keeping clearing registers of the 3rd level is provided.
- 10.2. Trade Restriction in respect of a Sub-accounts Cluster (Proprietary, Client, Trust, Segregated) is calculated according to the following formula:
$$TL_B = M + S, \text{ where}$$
$$TL_B - \text{Trade Restriction in respect of a Sub-accounts Cluster;}$$
$$M - \text{sum of cash funds in Russian rubles, recorded under all cash collateral register sections, which have the Sub-accounts Cluster code, as Collateral, of the sum of assets profiles of cash funds in Russian rubles (with the sign), recorded under all cash collateral registers sections, which have the Sub-accounts Cluster code;}$$

S – assessed value of foreign currencies, recorded under all cash collateral register sections, which have the Sub-accounts Cluster code, as Collateral.

10.2.1. Clearing Member is entitled to set (change) values of the Trading Limit for the Sub-accounts Cluster (values TL_B) (hereinafter referred to as the Limit for the Sub-accounts Cluster) in the Clearing System during the trading.

10.2.2. In case if the Limit for the Sub-accounts Cluster is set in accordance with the sub-paragraph 10.2.1, then the Trading Limit for the Sub-accounts Cluster (TL_B) is equal to the Limit for the Sub-accounts Cluster, set by the Clearing Member

10.3. Trade Restriction in respect of a Settlement Account is calculated according to the following formula:

$$TL_{SC} = \sum_B (M_B + S_B) - OB, \text{ where}$$

TL_{SC} – Trade Restriction in respect of a Settlement Account,

\sum_B – summation under Sub-accounts Clusters connected with the Settlement Account;

M_B – cash funds in Russian rubles, recorded under all cash collateral register sections, which have codes of Sub-accounts Clusters, as Collateral, of the sum of assets profiles of cash funds in Russian rubles (with the sign), recorded under all cash collateral registers sections, which have the code of Sub-accounts Clusters connected with the Settlement Account

S_B – assessed value of foreign currencies, recorded under all cash collateral register sections, which have codes of Sub-accounts Clusters connected with the Settlement Account, as Collateral;

OB – size of the obligation with postponed fulfillment, denominated in Russian rubles and defined in accordance with the Common part of the Clearing Rules.

10.4. When fulfilling (terminating) obligations to pay variation margin, bonus, obligations to pay cash funds when settling non-deliverable option contracts, penalties, exchange fee and any other fees, the Clearing House changes the value of the Client Limit for the value of the abovementioned obligations.

10.5. In case if the in respect of the Sub-accounts Cluster the Limit for the Sub-accounts Cluster is set, the Clearing House:

- changes the value of the Trading Limit for the Sub-accounts Cluster (TL_B) when fulfilling (terminating) obligations to pay variation margin, bonus, obligations to pay cash funds when settling non-deliverable option contracts, penalties, exchange fees and any other fees for the value of the abovementioned obligations;
- does not change the value of the Trading Limit for the Sub-accounts Cluster (TL_B) when posting and returning Collateral.

SECTION IV. PROCEDURE FOR AND TERMS OF ACCEPTING OBLIGATIONS FOR CLEARING

Article 11. Opportunity to conclude Derivative Contract. Specification change

- 11.1. Via the Specification or by the decision the Exchange sets the following:
- code (signification) of the Derivative Contract;
 - first and last Trading days when the Derivative Contract can be concluded, or procedure for its definition.
- 11.1.1. The decision of the Exchange also sets the settlement price on the first day of the Derivative Contract conclusion (initial Settlement price).
- 11.2. When receiving information from the Exchange on the date of the first Trading day, when on terms of the Specification Derivative Contract can be concluded, the Clearing House imposes the minimum restriction level of Required Margin Amounts under all Derivative Contracts, the possibility to conclude which will be provided under the conditions of this Specification, and notifies the Exchange on this fact.
- 11.3. The Clearing House is entitled to change the minimum restriction level of the Collateral Rate for the Derivative Contract with the particular code in the order set out in the Risk Parameters of the Derivatives Market Calculation Methodology.
- 11.4. The Exchange in concurrence with the Clearing House is entitled to make changes and/or additions to the Specification, which change the terms of the conclusion of the Derivative Contract and/or terms of earlier concluded Derivative Contracts.
- Consequences of making changes and/or additions to the Specification are set out by this Specification.

Article 12. Procedure for the interaction with the Exchange

- 12.1. Every Settlement Day before the Trading Day starts the Clearing House transfers to the Exchange the following information:
- a) on opened positions register sections (except for information on sections opened within the Special Sub-accounts Cluster);
 - b) on registered Segregated Clients and Segregated Sub-accounts Clusters;
 - c) Trade Restrictions values;
 - d) Additional parameters.
- Values of Trade Restrictions for each Clearing Member are transferred to the Exchange under each registered Settlement Account and under each Sub-accounts Cluster code.
- 12.2. Additional parameters, transferred to the Exchange, which provides service related to the organization of trading, where Derivative Contracts are concluded, are the following:
- list of clearing registers section in respect of a Clearing Member;
 - volume of obligations recorded under each position register section;

- Total Required Margin Amount, calculated under each position register section, under each Sub-accounts Cluster and each Settlement Account;
 - sum of cash funds in Russian rubles recorded as Collateral, or the sum of assets profiles of cash funds in Russian rubles (with the sign), under the group of cash collateral register section, which have the same Sub-accounts Cluster code ($\sum_i M_i$) (hereinafter Broker Limit),
where M_i stands for cash funds or assets profiles of cash funds in Russian rubles, recorded under i-cash collateral register section;
 - sum of estimated value of foreign currencies recorded as Collateral, under the group of cash collateral register sections, which have the same Sub-accounts Cluster code ($\sum_i S_i$),
where S_i stands for the estimated value of precious metals recorded as Collateral under the i-cash collateral register section (summation is executed under all sections, included into the group);
 - Upper and Lower Bounds of the Market Risks Range and Upper and Lower Bounds of the Interest Risks Range in respect of each futures contract;
 - Maximum and Minimum Values of the Price Range for each futures contract.
- 12.3. On the basis of the day clearing session results the Clearing House transfers to the Exchange the following information:
- volume of obligations recorded under each position register section;
 - Total Required Margin Amount, calculated under each position register section, under each Sub-accounts Cluster and each Settlement Account;
 - change of the sum of cash funds in Russian rubles recorded as Collateral or the sum of assets profiles of cash funds in Russian rubles (with the sign), under the group of cash collateral register sections, which have the same code of the Sub-accounts Cluster;
 - change of the estimated value of the foreign currency recorded as Collateral under the group of cash collateral register sections, which have the same Sub-accounts Cluster code in total;
 - Upper and Lower Bounds of the Market Risks Range and Upper and Lower Bounds of the Interest Risks Range in respect of each futures contract;
 - Maximum and Minimum Values of the Price Range for futures contract;
 - change of Trade Restrictions values for each Settlement Account and each Sub-accounts Cluster.
- 12.4. In case if values of Trade Restrictions or additional parameters are changed, the Clearing House immediately transfers the defined changes to the Exchange.
- 12.5. Before the beginning of each day and night clearing session the Exchange transfers to the Clearing House settlement price for each Derivative Contract, and also settlement price without taking into account restrictions on the decline from the previous settlement price.

- 12.6. In case of necessity to enlarge Upper and Lower Bounds of the Market Risks Range and Upper and Lower Bounds of the Interest Risks Range in respect of each futures contract in respect of Derivative Contracts in cases set out in the Risk parameters of the Derivatives market Calculation Methodology, the Clearing House forwards to the Exchange notification on the necessity to suspend trading. After enlargement of the abovementioned risk parameters for the defined futures contracts the Clearing House forwards to the Exchange notification on the opportunity to continue trading.

Article 13. Procedure for the interaction with the Exchange when submitting and withdrawing Orders to conclude trades, when accepting obligations arising from trades to clearing

- 13.1. Stipulated by this article procedure for the interaction of the Clearing House with the Exchange is applied when submitting Orders to conclude Derivative Contracts.
- 13.2. When a Market Participant submits Orders, the Exchange via the Trading System forwards to the Clearing House information on submitted Order.
- 13.3. The Clearing House via the Trading System forwards to the Exchange refusal to register the submitted order in cases set out in the Clearing Rules.
- 13.4. When receiving information on submitted Order to conclude Derivative Contracts the Clearing House immediately in the order, defined in the Article 14, checks the ability to register the Order.
- 13.5. In case if the check, defined in the paragraph 13.4, is successfully passed, the Clearing House via the Trading System forwards to the Exchange confirmation of the ability to register the Order, in case of unsuccessful result of the check the Clearing House forwards the refusal to register the Order.
- 13.6. During night clearing session after the execution of all operations, changing positions registers, cash collateral registers, the Clearing House checks for each Active order, submitted by a Clearing Member, compliance with the requirements for registration of the Order, stipulated by the Article 14. When the result of the check is negative the Clearing House via the Trading System forwards to the Exchange notification on the necessity to delete such Active order.
- 13.7. The Clearing House via the Trading System forwards to the Exchange notification on the necessity to delete Active order in other cases set out in the Clearing Rules on the Derivatives market.
- 13.8. The Exchange via the Trading System immediately informs the Clearing House on withdrawal / deletion of the Active order.
- 13.9. Under counter Active orders, for which terms, set out in the Derivatives Market Rules, are met, the Clearing House concludes trades with each Clearing Member, indicated in the order as a party to Derivative Contracts.
- 13.10. After the registration of a trade in the Trading System the Exchange via the Trading System transfers to the Clearing House information on concluded Derivative Contracts.

The Clearing House after receiving the defined information accepts for clearing obligations arising from Derivative Contracts.

13.11. Clearing Members are entitled to submit Standing instructions to limit start time for execution of trades with the Clearing House in respect of Sub-accounts Clusters.

Procedure for submission and execution of such instructions is defined in the Common Part of the Clearing Rules.

Article 14. Procedure for checking the ability to register the Order to conclude Derivative Contracts

14.1. The Clearing House in the order, defined in the Article 24, calculates the following values:

- SZ_R under the positions register section, defined in the Order, in case if the relevant instruction is received from a Clearing Member;
- SZ_B for Sub-accounts Cluster (Proprietary, Client, Trust, Segregated), the code of which is defined through the code of the positions register section defined in the Order;
- SZ_{SC} for a Settlement Account connected with the Sub-accounts Cluster, within which positions register section, defined in the Order, is opened.

Meanwhile the defined values SZ_B and SZ_{SC} are calculated on the basis of:

- current Trade Restrictions;
- Total Required Margin Amount, calculated under obligations arising from Derivative Contracts and Active orders, recorded by the Clearing House at the moment of calculation, and also from the submitted Order in the following order:
 - the sum of Total Required Margin Amount (G_i) is calculated in the order, set out in the Article 23, under each combination of obligations arising from Derivative Contracts, Active orders and from the submitted Order. Meanwhile Active and submitted Order are considered to be Derivative Contracts taking into account specifics set out in the Total Required Margin Amount Calculation Methodology;
 - maximum value ($\max_i G_i$) is chosen among the calculated values of Total Required Margin Amount (G_i).

14.2. The Clearing House with the aim to control the opportunity to register the Orders performs check of the sufficiency of the remained Collateral under the Sub-accounts Cluster (value SZ_B).

In order to cancel the check defined in this paragraph, the Clearing Member must give an instruction to cancel the check of the sufficiency of the remained Collateral under the Sub-accounts Cluster (value SZ_B) via the Clearing System or provide the Clearing House with the Application for choosing parameters of the Sub-accounts Cluster with the indication of the Sub-accounts Cluster code, for which is required to cancel the check defined in this paragraph.

- 14.3. The Order to conclude Derivative Contracts can not be registered, if at least one of the following conditions is met:
- 14.3.1. The Clearing House set the prohibition on the registration of Orders to conclude Derivative Contracts, submitted with the indication of the Clearing Member as a party to Derivative Contracts, in accordance with the requirements of the Clearing Rules on the Derivatives market;
- 14.3.2. value SZ_R , calculated in accordance with the Article 24 for the positions register section defined in the Order, becomes negative taking into account the registration of the Order or if the value SZ_R was negative before the registration of the Order then taking into account the registration of the Order the value SZ_R will become less than the this value calculated before the registration of the order. This sub-paragraph is in effect only in case of receipt from the Clearing Member of the instruction to execute calculation of the Client Limit. Such instruction is submitted by the Clearing Member via the Clearing System;
- 14.3.3. value SZ_B , calculated in accordance with the Article 24, under the Sub-accounts Cluster, taking into account registration of the Order, becomes negative or if the value SZ_B was negative before the registration of the Order then taking into account the registration of the Order the value SZ_B will become less than the this value calculated before the registration of the order (if the Clearing Member did not indicate that it was required to withdraw the check of Collateral sufficiency under such Sub-accounts Cluster when submitting orders);
- 14.3.4. value SZ_{SC} , calculated in accordance with the Article 24 under the Settlement Account, becomes negative or if the value SZ_{SC} was negative before the registration of the Order then taking into account the registration of the Order the value SZ_{SC} will become less than the this value calculated before the registration of the order;
- 14.3.5. submission of the Order is the breach of the Closing Positions Regime set in respect of a Clearing Member or in case of suspension of an admission to the clearing service;
- 14.3.6. the Order submitted with the indication of the positions register section, which has the code of the Sub-accounts Cluster, connected with the Settlement Account, in respect of which the restriction on registration of trades, imposed by the Clearing House in accordance with the paragraph 15.1, is in effect;
- 14.3.7. the Order is submitted with the indication of the positions register section, in respect of which or it has the Sub-accounts Cluster code, in respect of which the restriction on position opening, imposed by the Clearing House in accordance with the paragraph 15.4 or 15.10, is in effect, and such Order is aimed at concluding Derivative Contracts, which lead to enlargement of the open position or to open of the position, taking into account all Active orders, or the Order is submitted with the indication of the positions register section, in respect of which or it has the Sub-accounts Cluster code, in respect of which the restriction on registration of orders, imposed in accordance with the paragraph 15.4 of 15.10, is in effect.
- 14.4. In case if none of the conditions, defined in the paragraph 14.4, is not met then the Order to conclude Derivative Contracts can be registered.

Article 15. Procedure for restrictions on registration of orders and restrictions on position opening imposition

- 15.1. The Clearing House imposes the restriction, which stipulates the refusal of the Clearing House to register the Order, submitted with the indication of the positions register section, which has the code of the Sub-accounts Cluster, connected with the Settlement Account (hereinafter restriction on registration of orders in respect of a Settlement Account), if after setting (changing) the Upper and Lower Bounds of the Market Risks Range and Upper and Lower Bounds of the Interest Risks Range in respect of each futures contract after the day clearing session, night clearing session or during the Trading Day for such Settlement Account the following condition is met:

$$SZ_{SC} < -Pr_coeff_{SC} \times \max(TL_{sc}; 0),$$

where

Pr_coeff_{SC} is the ratio equal to 10.

The value of the Pr_coeff_{SC} can be changed by the decision of the Clearing House ranging from 2 to 50.

On changes of the value Pr_coeff_{SC} the Clearing House notifies Clearing Members through placing the relevant information on the Clearing House's website, and/or via the EDI, and/or using the Clearing System not later than in 2 (two) Settlement Days before making such changes, if the other period for notifying Clearing Members is not defined by the decision of the Clearing House.

Check of compliance with the defined condition is executed in respect of each Settlement Account of a Clearing Member.

Check of compliance with the defined condition is executed taking into account deletion of Active orders in accordance with the paragraph 15.11.

- 15.2. The Clearing House removes the restriction on registration of orders in respect of the Settlement Account during 2 (two) minutes as of the time, when the value SZ_{SC} , calculated for the Settlement Account in accordance with the paragraph 24.1, becomes non-negative ($SZ_{SC} \geq 0$).

- 15.3. The Clearing House is entitled to remove the restriction on registration orders in respect of the Settlement Account, when the value SZ_{SC} , calculated for the Settlement Account in accordance with the paragraph 24.1:

$$SZ_{SC} \geq -\max(TL_{sc}; 0)$$

- 15.4. The Clearing House imposes the restriction on position opening in respect of each positions register section or restriction on registration of orders in respect of each positions register section, if after setting (changing) the Upper and Lower Bounds of the Market Risks Range and Upper and Lower Bounds of the Interest Risks Range for trades after the day clearing session, night clearing session or during the Trading day in respect of such positions register section the following conditions are met simultaneously:

- the Clearing House on the basis of the instruction of a Clearing Member calculates the Trade Restriction under the positions register section with the aim to control the possibility to register the Order;

- a Clearing Member provided the Clearing House with the Instruction to impose the restriction on position opening / restriction on orders registration, where the code of the Sub-accounts Cluster, within which the positions register section, for which the restriction on orders registration is required to be imposed;
 - $SZR < - Pr_coeffR \times \max(TLR, 0)$, where
Pr_coeffR is the ratio, set out by the Clearing House on the basis of the Instruction to impose restriction on position opening / restriction on orders registration, received from a Clearing Member for the Sub-accounts Cluster, within which the positions register section is opened.
- 15.5. If in the Instruction to impose restriction on position opening / restriction on orders registration a Clearing Member indicated the necessity to delete Active orders, the Clearing House when conditions, defined in the paragraph 15.4, are met, notifies the Exchange on the necessity to delete Active orders, submitted in the name of such Clearing Member with the indication of such positions register sections, for which the conditions, defined in the paragraph 15.4, are met.
- 15.6. The Clearing House removes the restriction on position opening or restriction on orders registration, imposed in accordance with the paragraph 15.4, in case if at least one of the following conditions is met:
- 15.6.1. the Clearing House on the basis of the instruction of a Clearing Member stopped calculating the Trade Restriction under clearing registers section with the aim to control the possibility to register orders;
- 15.6.2. a Clearing Member provided the Clearing House with the Instruction to impose restriction on position opening / restriction on orders registration, where he indicated the code of the Sub-accounts Cluster, within which positions register section is opened, for which is necessary to remove the restriction on position opening / restriction on orders registration;
- 15.6.3. the value SZR , calculated in accordance with the paragraph 24.1, is non-negative ($SZR \geq 0$).
- 15.7. The Clearing House removes restrictions on opening positions in respect of the securities sub-account of the position register, if the Clearing Member provides the Clearing House with the Instruction to impose restriction on the registration of orders, in which the Segregated Sub-accounts Cluster, within which the securities sub-account of positions register, defined in this paragraph, is opened, is indicated, and terms, defined in the paragraph 15.4, are met.
- 15.8. The Clearing House removes the restriction for the registration of orders in respect of the securities sub-account of the position register, if the Clearing Member provided the Clearing House with the Instruction to impose the restriction in respect of the position opening, in which the code of the Sub-accounts Cluster, within which the securities sub-account of the position register, mentioned in this paragraph, and the conditions, defined in the paragraph 15.4, are met.
- 15.9. When occurs the event, defined in the sub-paragraph 15.6.1 or in the sub-paragraph 15.6.3, the Clearing House removes the restriction on position opening or the restriction on orders registration, imposed in accordance with the paragraph 15.4 within 2 (two) minutes since of the moment when the relevant event has occurred.

When occurs the event, defined in the sub-paragraph 15.6.2, the Clearing House removes the restriction on position opening or the restriction on orders registration, imposed in accordance with the paragraph 15.4 within 2 (two) minutes since of the moment, which, in accordance with the paragraph 15.14 is the moment when the Instruction to impose restriction on position opening / restriction on orders registration, provided by a Clearing Member to the Clearing House, comes into effect.

15.10. The Clearing House imposes the restriction on position opening in respect of all positions register sections, which have the code of the Sub-accounts Cluster, or the restriction on orders registration in respect of all positions register section, which have the code of the Sub-accounts Cluster, if after setting (changing) the Upper and Lower Bounds of the Market Risks Range and Upper and Lower Bounds of the Interest Risks Range after day clearing session, night clearing session is finished or during Trading day in respect of such Sub-accounts Cluster the following conditions are met simultaneously:

- a Clearing Member provided the Clearing Houses with the Instruction to impose restriction on position opening / restriction on orders registration, in which he indicated the code of the Sub-accounts Cluster, for which is necessary to impose the restriction on position opening or restriction on orders registration;
- $SZ_B < - Pr_coeff_B \times \max(TL_B, 0)$, where

Pr_coeff_B is the ratio set out by the Clearing House on the basis of the Instruction to impose restriction on position opening / restriction on orders registration, received from a Clearing Member in respect of the Sub-accounts Cluster.

Check of the satisfaction of the following term of executed taking into account deletion of Active orders in accordance with the paragraph 15.5.

15.11. If in the Instruction to impose restriction on position opening / restriction on orders registration a Clearing Member indicated the necessity to delete Active orders, the \clearing House in case of satisfaction of terms defined in the paragraph 15.10, notifies the Exchange on the necessity to delete Active orders, submitted in order to execute trades in the name of such Clearing Member with the indication of all positions register section, which have the code of the Sub-accounts Cluster indicated in the Instruction to impose restriction on position opening / restriction on orders registration.

15.12. The Clearing House removes the restriction on position opening or the restriction on orders registration, set out in accordance with the paragraph 15.10, in case if at least one of the following conditions is met:

15.12.1. a Clearing Member provided the Clearing House with the Instruction to impose restriction on position opening / restriction on orders registration, in which he indicated the code of the Sub-accounts Cluster, for which is necessary to cancel the restriction on position opening / restriction on orders registration;

15.12.2. the value SZ_B , calculated in accordance with the paragraph 24.1, is non-negative ($SZ_B \geq 0$).

15.13. When occurs the event, defined in the sub-paragraph 15.12.2, the Clearing House removes the restriction on position opening or the restriction on orders registration, imposed in accordance with the paragraph 15.10, within 2 (two) minutes since of the moment when the defined event has occurred.

When occurs the event, defined in the sub-paragraph 15.12.1, the Clearing House removes the restriction on position opening or the restriction on orders registration, set out in the paragraph 15.10, imposed in accordance with the paragraph 15.14, within 2 (two) minutes since of the moment when the Instruction to impose restriction on position opening / restriction on orders registration, submitted by a Clearing Member to the Clearing House, came into effect.

15.14. The Instruction to impose restriction on position opening / restriction on orders registration, received by the Clearing House not later than in 60 minutes before the closest day or night clearing session starts, comes into effect immediately after such clearing session is finished. The Instruction to impose restriction on position opening / restriction on orders registration, received by the Clearing House later than 60 minutes before the closest day or night clearing session starts or received by the Clearing House during such clearing session, comes into effect immediately after the closest clearing session, following this one, comes into effect.

15.15. The Clearing House sets the limit for the open position in respect of each position register section, if in respect of such position register section the following terms are met:

- the value SZ_R , calculated in accordance with the paragraph 24.1, is negative ($SZ_R < 0$),
- the Clearing House has received from the Clearing Member the instruction to calculate the Client Limit with the aim to control the opportunity of the Order registration,
- Collateral under the section is positive ($G_R > 0$),
- $ReserveCoeff * \max(0, TLR - vm_close(cl)) < R_reserve(cl) - vm_close(cl)$

where:

$ReserveCoeff$ – is the coefficient for the limitation of orders registration, set out by the Clearing House,

$R_reserve(cl)$ – is the value, calculated in accordance with the Collateral calculation methodology,

$Vm_close(cl)$ – is the value, calculated for the position register section:

$vm_close(cl) = (P_close - P_open) \times volume \times W / R$, if the position has been opened during current Settlement period;

$vm_close(cl) = (P_close - PI) \times volume \times W / R$, if the position has been opened before the current Settlement period,

where:

$volume$ – is the number of derivative contracts, closed during current Settlement period,

W – is the price of the minimum price increment,

R – is the minimum price increment,

PI – is the current (last) Contract Settlement price,

P_close – is the price of the position closing trade,

P_open – is the price of the position opening trade.

15.16. The Clearing House removes the limitation for opening positions, set out in accordance with the paragraph 15.15, in case of at least one of the terms, defined in the paragraph 15.15, is not met.

Article 16. Procedure for calculating and recording obligations arising from Derivative Contracts

16.1. The Clearing House calculates obligations arising from Derivative Contracts and records it in accordance with the Specifications and Clearing Rules on the Derivatives market.

16.1.1. Calculation of obligations arising from Derivative Contracts is executed by the Clearing House in the following order:

- in accordance with the order, defined in the Specification – if the procedure for the calculation of obligations is directly indicated in such Specification;
- in accordance with the Clearing Rules on the Derivatives market – if the procedure for the calculation of obligations is not directly indicated in such Specification or if in such Specification there is a reference to the procedure, defined in the Clearing Rules on the Derivatives market.

16.2. Derivative Contracts are recorded by the Clearing House as the part of positions after the first calculation of obligations to pay variation margin / bonus under such Derivative Contract during day or night clearing session.

Each position in respect of Derivative Contracts is defined:

- through the code of the Derivative Contract and the code of the positions register section, with the indication of which Derivative Contracts with this code are concluded (hereinafter defined Derivative Contracts are referred to as Derivative Contracts constituting the position, defined positions register section is referred to as positions register section, where the position in respect of Derivative contracts is recorded);
- status of the party (Buyer / Holder or Seller / Writer), which is a Clearing Member and the Clearing House under obligations arising from Derivative Contracts constituting the position (hereinafter party to Derivative Contracts);
- number of Derivative Contracts, constituting the position (hereinafter the size of the position in respect of Derivative Contracts).

Status of the party and number of Derivative Contracts recorded as the part of the position, are defined on the theory that the defined Derivative Contracts were repudiated (terminated) as it is defined below in this paragraph.

Two Derivative Contracts, recorded as the part of the position, to one of which a Clearing Member is a Buyer / Holder and to the other a Seller / Writer, are considered to be repudiated (terminated), except for the case, when the following conditions are met simultaneously:

- clearing session is day clearing session;
- the Specification of the defined Derivative Contracts stipulates that the sum of variation margin, to be transferred at night clearing session, depends on the sum of variation margin transferred at day clearing session.

When repudiating (terminating) Derivative Contracts obligations that emerged earlier with arrived settlement period arising from such Derivative Contracts are not terminated.

Derivative trade is offset trade in respect to the recorded position in respect of Derivative Contracts, if resulting from its conclusion the size of the position becomes less and the status of the party is not changed (hereinafter – closure of the position in respect of a Derivative Contract). Closure of the position in respect of a Derivative Contract also occurs as a result of termination of obligations under Derivative Contracts in the order defined in the Clearing Rules on the Derivatives market.

Enlargement of the size of the position as a result of conclusion of a Derivative Contract is opening of the position.

Two positions in respect of Derivative Contracts with one code, recorded on different positions register sections, are counter positions, if under one of it a Clearing Member is a Buyer / Holder, and under another one this or the other Clearing Member is a Seller / Writer.

Obligations arising from concluded Derivative Contract and obligations under the position in respect of the Derivative Contract with the same code are counter obligations if the party, defined in the Derivative Contract is the Clearing House, and the party, the defined in the position is the Clearing House, are counter ones.

Obligations arising from concluded Derivative Contracts and the position in respect of the Derivative Contract with the same code are unidirectional, if the party, defined in the Derivative Contract is the Clearing House, and the party, the defined in the position is the Clearing House, coincide.

16.3. The Clearing House records in the Clearing System of the Derivatives Market Asset Profile of the foreign currency / security, transferred to the Clearing System / received from the Clearing System of the securities market, such as:

- position under the futures contract with the current Settlement Date, underlying asset of which is this particular security / exchange rate for the particular foreign currency, in the amount and in the direction, corresponding to the transferred / received Asset Profile, under securities sub-account of the position register, which has the code, indicated in the Request for the Assets Profile Transfer,

and

- Assets Profile of cash funds in Russian rubles (taking into account the sign of the transferred / received Assets Profile) under the securities sub-account of the cash collateral register, which has the code, indicated in the Request for the Assets Profile Transfer. Value of the Profile of cash funds in Russian rubles is calculated as the product of the amount transferred / received Assets Profile of the foreign currency / security (taking into account the sign) and of the Settlement Price of this foreign currency / security, expressed in Russian rubles.

16.3.1. The position, recorded under the futures contract, defined in the paragraph 16.3, is recorded when calculating the amount of the Default Fund in the procedure, similar to the procedure for the calculation of the Default Fund in respect of such futures contract. The variation margin under the futures contract, defined in the paragraph 16.3, is not calculated.

Article 17. Procedure for changing recording of obligations arising from Derivative Contracts

- 17.1. A Clearing Member is entitled to instruct the Clearing House on changing the procedure for recording obligations arising from Derivative Contracts on positions register sections.
- 17.2. Recording of obligations arising from Derivative Contracts is changed by the Clearing House during the closest night clearing session on the basis of the Instruction to transfer positions, submitted by a Clearing Member.
- 17.3. The Instruction to transfer positions contains the following:
- Derivative Contract code;
 - code of the section, where obligations recording is to be stopped;
 - code of the section, where obligations recording is to be started;
 - number of Derivative Contracts.
- 17.4. In the Instruction to transfer positions as the section where obligations recording is to be stopped may be indicated a positions register section, Sub-accounts Cluster (except for special Sub-accounts Cluster) section and liquidation section of the positions register, as the section where obligations recording is to be started may be indicated positions register section.
- 17.5. The necessary condition of the execution of the Instruction to transfer positions between position register sections is the coincidence of entities, on behalf of and/or at the expense of which trades with the indication of the relevant positions register section, fixed to both sections, are concluded.
- 17.6. The Clearing House changes the recording of obligations arising from Derivative Contracts only in case if the following conditions are met:
- 17.6.1. the value SZ_R , calculated in accordance with the Article 24, under securities sub-accounts of positions register, defined in the Instruction to transfer positions does not become negative or if the value SZ_R was negative, it does not become less (in case of receipt from the Clearing Member of the instruction, in accordance with the paragraph 14.3.2),
- 17.6.2. the value SZ_B , calculated under Sub-accounts Clusters corresponding to positions register sections, defined in the Instruction to transfer positions does not become negative or if the value SZ_B was negative, it will not become less (if the Clearing Member did not indicate the necessity to withdraw the check of the sufficiency of the remained Collateral under such Sub-accounts Cluster),
- 17.6.3. the value SZ_{SC} , calculated under Settlement Accounts corresponding to positions register sections defined in the Instruction to transfer positions, will not become negative or if the value SZ_{SC} was negative then the abovementioned value would not become less.
- 17.7. In order to execute the Instruction to transfer positions the Clearing House stops recording obligations arising from Derivative Contracts under the positions register section, where recording of obligations is to be stopped, in the amount defined in the instruction, and starts recording the defined obligations under the positions register section, where recording of obligations is to be started.

- 17.8. For the execution of the Instruction to transfer positions Clearing Member is charged in the amount set out in the Tariffs of the Clearing House.
- 17.8.1. Procedure for the fulfillment of obligations of a Clearing Member to pay for the execution of the Instruction to transfer positions is defined in the Article 22.

SECTION V. CLEARING PROCEDURE

SUB-SECTION V-I. PROCEDURE FOR COLLATERAL POSTING AND RETURN

Article 18. Procedure for posting and return of Collateral

- 18.1. Posting and return of Collateral in cash funds, recorded under the Settlement Account of the Unified Pool, is executed in the order defined in the Common part of the Clearing Rules.
- 18.2. Posting and return of Collateral in cash funds, recorded under the Settlement Account, which is not the Settlement Account of the Unified Pool, is executed in the order defined in the Common part of the Clearing Rules taking into account specifics set out in this article.
- 18.3. Cash funds in the relevant currency, provided as Collateral, are transferred to the relevant clearing banking or correspondent account of the Clearing House according to the details, posted on the Clearing House's website with obligatory indication in the payment purpose of the code of clearing registers and of the number of the Clearing Membership Agreement, concluded between a Clearing Member and the Clearing House, if the code of the defined clearing registers section has the code of the Proprietary Sub-accounts Cluster, Client Sub-accounts Cluster or of the Trust Sub-accounts Cluster, or the number of the agreement, concluded between the Authorized Accounts Owner, fixed to the Segregated Sub-accounts Cluster, and the Clearing House, if the code of the defined clearing registers section has the code of this Segregated Sub-accounts Cluster.
- 18.4. The Clearing House records cash funds, transferred to the relevant clearing banking or correspondent account of the Clearing House, registered in the Settlement Organization / Settlement Bank as Collateral of a Clearing Member under the Settlement Account of a Clearing Member, connected with the Sub-accounts Cluster, code of which is the cash collateral register, defined in the payment purpose. Information on such Collateral can also be recorded on the cash collateral register section defined in the payment purpose.
- 18.5. If the cash collateral register section defined in the payment purpose is not found among opened by the Clearing House cash collateral register sections or the payment purpose is filled in incorrectly or not in full, the Clearing House is entitled to require from a Clearing Member additional information on payment purpose. In case if from a Clearing Member or from the bank of a payer additional information on payment purpose is received, recording of cash funds as Collateral of a Clearing Member in accordance with the paragraph 18.4 is executed by the Clearing House after such additional information on payment purpose is received from a Clearing Member / bank of a payer.
- 18.6. If the cash collateral register section, defined in the payment purpose, is not found among opened by the Clearing House cash collateral register sections or the payment purpose is filled in incorrectly or not in full but on the basis of the payment purpose it is possible to define the Identifier of a Clearing Member then recording of cash funds as Collateral of a Clearing Member in accordance with the paragraph 18.4 is executed by the Clearing House via the cash collateral register section of such Clearing Member with the code XX00000.

- 18.7. If within 5 (five) Settlement Days under the relevant currency since of the date, following the date of debiting cash funds in Russian rubles / foreign currency to the relevant clearing banking / correspondent account of the Clearing House with incorrect or incomplete payment purpose, a Clearing Member / bank of a payer does not provide the Clearing House with additional information on payment purpose with correctly filled in payment purpose, the Clearing House will return the defined cash funds according to the details of a payer.
- 18.8. If section of cash collateral register is not defined in the purpose of payment, or if to the section of cash collateral register, indicated in the purpose of payment, the entity, in the name and/or at the expense of which trades with the indication of such clearing register, is not assigned, information on cash funds, credited to the relevant clearing banking account or correspondent account of the Clearing House, opened with the Settlement Institution / Settlement Bank, as Collateral, is recorded under section of cash collateral register, opened with the special Sub-accounts Cluster.
- 18.9. After the cash funds are transferred to the clearing banking or correspondent account of the Clearing House, registered in the Settlement Organization / Settlement Bank and recording it as Collateral under the Settlement Account, connected with the Segregated Sub-accounts Cluster, the Clearing House obtains the obligation to return Collateral to the Authorized Accounts Owner. The defined obligation to return Collateral to the Authorized Accounts Owner is executed taking into account conditions defined in the paragraph 18.12 and also in the paragraph 18.15 or in the paragraph 18.16.
- 18.10. Return and posting Collateral in securities, recorded under the Trade Account, into the structure of which Unified Pool Settlement Account is included, is defined in the Common Part of the Clearing Rules.
- 18.11. Return by the Clearing House of cash funds, recorded as Collateral, is executed on the basis of the Request for Collateral return, and since the date defined by the decision of the Clearing House also on the basis of the Standing Instruction to return collateral. Clearing House notifies Clearing Members on making such decision by disclosing relevant information on the Clearing House's website in not less than 3 (three) Settlement Days before Clearing House starts accepting Standing Instructions to return collateral.
- 18.11.1. Beside information, stipulated by the Common part of the Clearing Rules, Request for Collateral return or Standing Instruction to return collateral can contain the code of the cash collateral register section (codes of sections, opened within one Sub-accounts Cluster), the currency and the amount of cash funds.
- The Request for Collateral return is executed under the conditions defined in the paragraph 18.12 and also in the paragraph 18.15 or in the paragraph 18.16, meanwhile such check of the defined conditions is executed in respect of the amount of cash funds defined in the Request for Collateral return.
- 18.12. The Request for Collateral return or Standing Instruction to return collateral is executed by the Clearing House under the condition of the registration by the Clearing House of Accounts for Collateral Return in the relevant currency. Registration of Accounts for Collateral Return is executed by the Clearing House in the following order, stipulated by a Common part of the Clearing Rules, taking into account the following specifics:

- 18.12.1. The Account for Collateral Return, (to) which is possible to debit (return) with cash funds, obligations to return which are recorded under cash collateral register sections, which have the codes of the Proprietary Sub-accounts Cluster, Client Sub-accounts Cluster or Trust Sub-accounts Cluster, opened within the Identifier of a Clearing Member, is registered by the Clearing House on the basis of the Request for the details of the Account for Collateral Return registration, submitted by a Clearing Member.
- 18.12.2. The Account for Collateral Return, (to) which is possible to debit (return) with cash funds, obligations to return which are recorded under cash collateral register sections, which have the codes of the Segregated Sub-accounts Cluster, is registered by the Clearing House:
- 1) on the basis of the Request for the details of the Account for Collateral Return registration, submitted by the Authorized Accounts Owner, fixed to this segregated Sub-accounts Cluster under the condition that the owner of such account is the defined Authorized Accounts Owner;
 - 2) on the basis of the Request for the details of the Account for Collateral Return registration, submitted jointly by the Authorized Accounts Owner, fixed to this Segregated Sub-accounts Cluster, and by the Clearing Member, which registered such Segregated Sub-accounts Cluster, under the condition that the owner of such account is the defined Clearing Member. The defined request can be submitted to the Clearing House as one document, signed by entities, or as two identical documents, each signed by the relevant entity.
- 18.12.3. In case if the details of the Account for Collateral Return / Standing Instruction to return collateral are changed, a Clearing Member / Authorized Accounts Owner must provide the Clearing House with the Request for changing the details of the Account for Collateral Return, containing information on new details.
- 18.13. Annulment of the registration of the Account for Collateral Return details is executed by the Clearing House in the order, stipulated by the Common part of the Clearing Rules, taking into account the following specifics:
- on the basis of the request of a Clearing Member and/or of an Authorized Accounts Owner, which have the right to submit Requests for the registration of the Account for Collateral Return details, submitted to the Clearing House in the same order as the Request for the registration of the Account for Collateral Return details;
 - for the Account for Collateral Return, the owner of which is an Authorized Accounts Owner, fixed to the Segregated Sub-accounts Cluster, when he stops acting as an Authorized Accounts Owner in respect of this Segregated Sub-accounts Cluster.
- 18.14. The Request for collateral return is submitted in accordance with the following conditions:
- 18.14.1. A Clearing Member is entitled to submit the Request for collateral return / Standing Instruction to return collateral with the indication of the cash collateral register sections, which have the code of the Proprietary Sub-accounts Cluster, Client Sub-accounts Cluster or Trust Sub-accounts Cluster, with the indication of the Account for Collateral Return, registered by this Clearing Member in accordance with the sub-paragraph 18.12.1.
- 18.14.2. An Authorized Accounts Owner, fixed to the Segregated Sub-accounts Cluster, is entitled to submit Request for collateral return / Standing Instruction to return collateral with the indication of cash collateral register sections, which have the code of this Segregated Sub-accounts Cluster, with the indication of the Account for Collateral Return, registered in accordance with the paragraph 1) or paragraph 2) of the sub-paragraph 18.12.2.

18.14.3. A Clearing Member is entitled to submit the Request for Collateral Return / Standing Instruction to return collateral with the indication of cash collateral register sections, which have the code of the Segregated Sub-accounts Cluster, with the indication of the Account for Collateral Return, registered in accordance with the paragraph 1) or paragraph 2) of the sub-paragraph 18.12.2. Herewith the Request for collateral return / Standing Instruction to return collateral shall be agreed with the Authorized Accounts Owner, fixed to the defined Segregated Sub-accounts Cluster. Such agreement is executed:

- through provision of the signature of the Authorized Accounts Owner, fixed to the defined Segregated Sub-accounts Cluster, on the Request for collateral return / Standing Instruction to return collateral or through provision of the identical Request for collateral return / Standing Instruction to return collateral signed by the Authorized Accounts Owner, fixed to the defined Segregated Sub-accounts Cluster; or
- through indication in such Request for the registration of the Account for Collateral Return details of the opportunity to submit Requests for collateral return / Standing Instruction to return collateral by a Clearing Member.

18.15. The Request for collateral return in Russian rubles is executed under the following conditions:

18.15.1. due to the result of such return, the value SZ_B , calculated under the Sub-accounts Cluster, within which the securities sub-account of the cash collateral register, indicated in the Request for the Collateral Return, will not become negative (if the Clearing Member did not indicate the necessity to withdraw the check of the value SZ_B when returning collateral). If the securities sub-account of the cash collateral register is not indicated in the Request for the Collateral Return, the abovementioned check is performed in respect of the Special Sub-accounts Cluster, connected with the Settlement Account, indicated in the Request for the Collateral Return.

18.15.2. due to such return the value SZ_{SC} , calculated under the Settlement Account, connected with the Sub-accounts Cluster, within which cash collateral register section defined in the Request for collateral return is opened, as the result of such return will not become negative. If the securities sub-account of the cash collateral register is not indicated in the Request for the Collateral Return, the abovementioned check is performed in respect of the Settlement Account, indicated in the Request for the Collateral Return;

18.15.3. there is no Margin Call, recorded under such Settlement Account, connected with such Sub-accounts Cluster, within which cash collateral register section defined in the Request for collateral return, is opened;

18.15.4. the sum of the return does not exceed the amount of cash funds in Russian rubles, which constitutes Collateral and are recorded under all cash collateral register sections of such Sub-accounts Cluster;

18.15.5. the sum of the return does not exceed the amount of cash funds in Russian rubles, which constitutes Collateral and are recorded under the Settlement Account, connected with the Sub-accounts Cluster, within which cash collateral register section defined in the Request for collateral return is opened, lessened for the size of the obligation with postponed settlement in Russian rubles calculated in accordance with the Common part of the Clearing Rules.

- 18.16. The Request for collateral return in foreign currency is executed if at least one of the following conditions is met:
- if the foreign currency defined in the Request for collateral return is not included into the List (taking into account the provisions of the paragraph 2.6);
 - terms defined in the sub-paragraphs 18.15.2 and 18.15.3, including the following terms, are met:
 - the value, calculated under the Sub-accounts Cluster, within which cash collateral register section defined in the Request for collateral return is opened, will not become negative (if the Clearing Member did not indicate the necessity to withdraw the check of the value SZ_B when returning Collateral);
 - the sum of the return does not exceed the amount of cash funds in the foreign currency, which constitutes Collateral and is recorded under the securities sub-account of the cash collateral register, indicated in the Request for the Collateral Return;
 - the sum of the return does not exceed the amount of cash funds in foreign currency, which constitutes Collateral and is recorded under the Settlement Account, connected with the Sub-accounts Cluster, within which cash collateral register section defined in the Request for collateral return, is opened, lessened for the size of the obligation with postponed settlement in such currency calculated in accordance with the Common part of the Clearing Rules.
- 18.17. Standing Instruction to return collateral, which contains feature that specifying the necessity to return whole available sum of cash funds, is executed by the Clearing House in the maximum possible sum of cash funds minus sum of cash funds, defined in the Request for depositing and/or Depositing standing instruction (in case if Clearing Members provides to the Clearing House Request for depositing and/or Depositing standing instruction), and in respect of which terms, defined in the paragraph 18.15, will be met.
- 18.18. When returning to a Clearing Member Collateral in the relevant currency the amount of Collateral, recorded under the Settlement Account of a Clearing Member, in such currency is lessened for the sum of returned cash funds, the Clearing House also records the information on Collateral return under the relevant securities sub-account of the cash collateral register, indicated in the Request for the Collateral Return / Standing instruction to return collateral. If the securities sub-account of the cash collateral register is not indicated in the Request for the Collateral Return / Standing instruction to return collateral, then the Clearing House records information on return of the Collateral under the main proprietary securities sub-account, opened within the Special Sub-accounts Cluster / under the securities sub-account of the Segregated Sub-accounts Cluster with the code of the following type: XXYY000, where XXYY is the code of the Segregated Sub-accounts Cluster.
- 18.19. Return by the Clearing House of cash funds on the basis of the Request for collateral return with the feature specifying the necessity to return whole available amount of cash funds, is performed since of the date, defined by the decision of the Clearing House. Clearing House notifies Clearing Members on making such decision by disclosing relevant information on the Clearing House's website in not less than 3 (three) Settlement Days before Clearing House starts accepting Request for collateral return with the feature specifying the necessity to return whole available sum of cash funds.

- 18.20. Since the date, defined by the Clearing House, Clearing Member is entitled to provide to the Clearing House according to the Common part of the Clearing Rules, Request for depositing or Depositing standing instruction, which contain certain sum of cash funds in Russian rubles. Clearing House notifies Clearing Members on making such decision by disclosing relevant information on the Clearing House's website in not less than 3 (three) Settlement Days before the Clearing House starts accepting Request for depositing or Depositing standing instruction.
- 18.21. Return by the Clearing House of cash funds in foreign currency on the basis of the Standing instruction for collateral return is not executed.
- 18.22. Request for depositing or Depositing standing instruction which contain indication of the sum of cash funds in foreign currency is not executed.
- 18.23. The Request for collateral return of cash funds, in which is indicated the Settlement Code, with which Segregated Sub-accounts Cluster is connected, is executed by the Clearing House under the following terms:
- terms of the execution of the defined request, set out in the Common part of the Clearing Rules,
- and
- the coincidence of entity (entities), on behalf of which and/or at the expense of which trades with the indication of the code of the positions register section, fixed to the sections, which have the code of the Segregated Sub-accounts Cluster, are concluded, with the entity (entities), on behalf of which and/or at the expense of which trades with the indication of the Settlement Account, registered for the other Market, are concluded.
- 18.24. Return by the Clearing House to the Clearing Member of cash funds on the basis of the instruction to transfer cash funds, submitted by the Clearing Member via the Clearing System, is not executed.

Article 19. Change of the recoding of cash funds of a Clearing Member

- 19.1. A Clearing Member is entitled via the Clearing System provide the Clearing House with the instruction to change Brokerage limits, containing:
- code of the Sub-accounts Cluster, in respect of which the Brokerage limit is lessened;
 - code of the Sub-accounts Cluster, in respect of which the Brokerage limit is enlarged;
 - the amount of cash funds in Russian rubles, which is subject to Brokerage limits change.
- 19.2. Brokerage limits are changed by the Clearing House when the following condition is met: sum of cash funds in Russian rubles under all cash collateral register sections , which have the code of the Sub-accounts Cluster, in respect of which the Brokerage limit is lessened, will not become less than zero.
- 19.3. Change of the cash funds recording in accordance with Brokerage limits change during the trading day is reflected during night clearing session under main cash collateral register sections of the Sub-accounts Cluster.

- 19.4. Change of the cash funds recording among Sub-accounts Clusters, connected with different Settlement Accounts, is not executed.

SUB-SECTION V-II. CLEARING SESSIONS

Article 20. Procedure for running “mark-to-market” clearing sessions

20.1. During Settlement Day the Clearing House executes the following “mark-to-market” clearing sessions:

- day clearing session;
- night clearing session.

For each clearing session the clearing pool is established. This pool consists of obligations to be settled (terminated) during such clearing session.

Obligations, included into the clearing pool of each clearing session, are terminated in the clearing pool of this clearing session.

20.2. During “mark-to-market” clearing session, run each Settlement Day within the period set out in the Time Specifications on the Derivatives market, the Clearing House besides the actions defined in the Common part of the Clearing Rules, performs the following actions:

20.2.1. During day clearing session the Clearing House:

- 1) stops recording obligations arising from option contracts, settlement date for which has arrived, and the option contract was not exercised by its Holder;
- 2) settles obligations arising from option contracts included into the clearing pool of the day clearing session;
- 3) executes settlement of Derivative Contracts with current settlement date, settlement of which during the day clearing session is stipulated by the Specifications and/or by the Time Specifications on the Derivatives market;
- 4) changes recording of obligations arising from Derivative Contracts recorded under each positions register section of a Clearing Member;
- 5) calculates the size of obligations arising from Derivative Contracts recorded under each positions register section of a Clearing Member;
- 6) executes settlement of Total Net Obligations / Total Net Claims in cash funds under in respect of Settlement Accounts, which are not Settlement Account of the Unified Pool;
- 7) takes into consideration termination of obligations arising from Derivative Contracts under positions register section of a Clearing Member;

- 10) calculates Total Required Margin Amount;
- 11) calculates Trade Limit;
- 12) re-evaluates the Assets Profiles of the foreign currency / security, transferred to the Clearing System / received from the Clearing System of the Securities Market: determines the value of the Assets Profile of cash funds in Russian rubles, recorded in the Clearing System of the Derivatives Market due to the transfer of the Assets Profile of the foreign currency / security, in accordance with the paragraph 16.3, for the Unified Pool Settlement Accounts;

13) forms reports for Clearing Members, clients of Clearing Members and Trading Members which are not Clearing Members and concluded with the Clearing House Agreement on keeping clearing registers.

20.2.2. During the night clearing session the Clearing House besides the actions listed in the paragraph 20.2.1, including settlement of the relevant obligations, included into the clearing pool of the night clearing session:

- 1) executes settlement of Derivative Contracts with the currency settlement date, settlement of which during the night clearing session is stipulated by the Specifications and/or by the Time Specifications on the Derivatives market;
 - 2) calculates and levies upon a Clearing Member forfeits (penalties, interest rate fines) stipulated by the Clearing Rules on the Derivatives market and/or by Specifications;
 - 3) calculates the estimated value of foreign currencies, recorded as Collateral for the Settlement Accounts, which are not Unified Pool Settlement Accounts;
 - 4) assigns Identifiers to Clearing Members;
 - 5) opens and closes clearing registers sections in the name of a Clearing Member;
- performs other actions stipulated by the Clearing Rules on the Derivatives market.

SUB-SECTION V-III. PROCEDURE FOR THE CALCULATION AND FULFILLMENT OF OBLIGATIONS INCLUDED INTO THE CLEARING POOL DURING DAY OR NIGHT CLEARING SESSION

Article 21. Variation margin and premium

21.1. Variation margin is calculated in respect of each futures contract or futures contract in accordance with the Specification of the futures contract or Specification of the option contract.

In accordance with the Specification party obliged to fulfill obligations to pay variation margin is a Clearing Member or the Clearing House.

21.1.1. Variation margin sum, to be paid, depends on the difference between current Settlement Price of Derivative Contract and previous Settlement Price of Derivative Contract.

21.1.2. If by the end of the Settlement period the Clearing House does not receive from the Exchange all required for variation margin calculation parameters in respect of the Derivative Contract stipulated by the Specification, the Clearing House does not calculate variation margin in respect of a Derivative Contract during day or night clearing session run after the defined Settlement period.

21.2. Option contract premium is calculated in accordance with the terms of this options contract.

In accordance with the Specification of an option contract party obliged to fulfill obligations to pay premium is a Clearing Member or the Clearing House.

21.3. Procedure for fulfillment of an obligation / claim of a Clearing Member to pay / receive variation margin is defined in the Article 22.

Article 22. Procedure for calculation of obligations to be fulfilled. Specifics of the fulfillment of obligations to pay variation margin, premium, penalties, forfeits, fines and fees

22.1. During the day and/or night clearing session the Clearing House:

22.1.1. calculates accepted for clearing obligations to pay variation margin and to pay premium in accordance with the Article 21 as well as obligations established by Specification;

22.1.2. includes into the clearing pool of the relevant day or night clearing session the following obligations with the arrived Settlement Date:

- obligations to pay variation margin and premium, calculated in accordance with the paragraphs 21.1 and 21.2;
- obligations to pay cash funds when settling non-deliverable option contracts;
- other obligations established by Specification
- obligations to pay penalties, late payment interest, forfeits, exchange fee and other fees;
- Debt emerged after previous day or night clearing session;
- obligation of the Non-resident Clearing Member / Clearing Member – International Organization to pay the sum, corresponding to the sum of the organization profits tax

on income of foreign organizations from sources located in Russian Federation, calculated by the Clearing House according to the Russian tax legislation, on the Settlement Day, following the day when this tax, calculated according to the requirements of the Russian tax legislation, is paid out;

- in case if the Non-resident Clearing Member does not provide certificate of tax resident of the Clearing Member and/or of the beneficial owner of income of such Clearing Member or in case of non-provision by the Clearing Member – International Organization of the certificate of tax residence of the beneficial owner of income of such Clearing Member (except for banks, permanent location of which can be confirmed by public information resources) for the next tax period (calendar year) within the period of time, defined in the Supplement 4, on the end date of the period for the provision of the abovementioned documents, - obligation of the Clearing Member to pay the sum, equal to the difference between the sum, corresponding to the sum of the organization profits tax on income of foreign organizations from sources located in Russian Federation, calculated according to the maximum rate, set by the Russian tax legislation, and the sum, corresponding to the sum of the tax, calculated according to the tax rate valid for the current calendar year, which is set by the applicable double taxation avoidance agreement, concluded with the state, which was the state of tax residence for the Non-resident Clearing Member, beneficial owner of income of the Non-resident Clearing Member or beneficial owner of income of the Clearing Member – International Organization for the previous calendar year (tax period).
- 22.1.3. terminates homogeneous obligations and claims of a Clearing Member and of the Clearing House, included into the clearing pool in accordance with the sub-paragraph 22.1.2 in respect of each Settlement Account of a Clearing Member; and calculates Total Net Obligation / Total Net Claim in cash funds, emerged in connection with the termination of the abovementioned obligations and claims;
- 22.1.4. transfers to the Clearing System of the Securities Market in the particular order, obligations to pay variation margin and bonus, calculated in accordance with the paragraphs 21.1 and 21.2, and also obligations to pay cash funds when settling non-deliverable option contracts, obligations to pay fines, exchange fee and the other fee with the arrived Settlement Date, recorded under the Settlement Accounts of the Clearing Member, which are Unified Pool Settlement Accounts. Fulfillment (termination) of the abovementioned obligations is executed within the Unified Clearing Pool in the order, defined in the Common Part of the Clearing Rules, taking into account specifics, set out in this article.
- 22.2. Fulfillment / termination of Total Net Obligations / Total Net Claims in cash funds, calculated in accordance with the sub-paragraph 22.1.3 recorded under Settlement Accounts, which are not Unified Pool Settlement Accounts, is executed in the order defined in the Common part of the Clearing Rules taking into account specifics given in this article.
- 22.3. Total Net Obligation in cash funds calculated in accordance with the sub-paragraph 22.1.3 in respect of a Settlement Account of a Clearing Member, connected with the Segregated Sub-accounts Cluster, is fulfilled using Collateral, information about which is recorded under such Settlement Account.
- 22.4. If the amount of Collateral in cash funds recorded under such Settlement Account of a Clearing Member is not enough for the fulfillment of the Total Net Obligation in cash funds recorded under the same Settlement Account, the Total Net Obligation in non-fulfilled (not

terminated) part is terminated by the emergence of the Debt of a Clearing Member in favor of the Clearing House, recorded under such Settlement Account, taking into account provisions of the Common Part of the Clearing Rules.

- 22.4.1. Information on the availability of a Debt and on its size is transferred to a Clearing Member as a part of the report on cash funds in Russian rubles, foreign currency, which constitute Collateral posted in accordance with the Article 37.
- 22.4.2. The Debt of a Clearing Member can be paid out including through the claim of a Clearing Member in respect of a call to receive the variation margin satisfied during the day clearing session.
- 22.5. In case if the Clearing Member has the Debt, not paid out within the period, set out in the Time Specifications on the Derivatives Market, the Clearing Member must pay to the Clearing House the fine for undue fulfillment of obligations in cash, procedure for the calculation of which is set out in the Common Part of the Clearing Rules.
- 22.6. If the Clearing Member obtains a Debt then in order to redeem it, the Clearing House is entitled to take actions, stipulated by the Article 26.
- 22.7. Total Net Obligations of a Clearing Member recorded under the Settlement Account connected with the Segregated Sub-accounts Cluster, are terminated by the emergence of the obligation of the Clearing House to return to the Authorized Accounts Owner of Collateral, information about which is recorded under this Settlement Account.
- 22.8. The Clearing House records information on termination of obligations under positions register section, where Derivative Contracts position is recorded, obligation to pay variation margin and bonus, and also obligations to pay cash funds when settling non-deliverable option contracts, obligation to pay penalties, forfeits, fines, trading fee and the other fee with arrived Settlement Date, termination of which resulted in the emergence of the Total Net Obligation / Total Net Claim in cash funds calculated in accordance with the sub-paragraph 22.1.3.
- In addition to that the value of the cash collateral register section, code of which coincides with the code of the positions register section, is lessened or enlarged for the size of the defined obligations.
- 22.9. Obligation to pay the penalty for undue fulfillment of obligations in cash, set out in the Common Part of the Clearing Rules, is not obtained by the Clearing Member in case of undue fulfillment of the Total Net Obligation in cash, calculated during the day clearing session.
- 22.10. Fee sum when executing closing trade is equal to the sum of 5 (five) exchange fees, set by the Moscow Exchange, and 5 (five) clearing fees, set by the Clearing House for the Derivative Contract.

Article 23. Total Required Margin Amount

- 23.1. Size of the Total Required Margin Amount (G) is calculated on the basis of the valuation, executed by the Clearing House, of risks of non-fulfillment of obligations under Derivative Contracts, recorded under the securities sub-accounts of positions register (portfolio risk assessment) in total:

- 23.2. The Clearing House calculates the Total Required Margin Amount in respect of the Sub-accounts Cluster in accordance with the accounts aggregation rule, with the calendar spread recording rule and with the inter-contracts spreads recording rule, defined by the Clearing Member in the Application for choosing Sub-accounts Cluster parameters. In case of non-provision by the Clearing Member of the Application for choosing Sub-accounts Cluster parameters, calculation of the Total Required Margin Amount is executed in accordance with the following rules: accounts aggregation rule – “half netting”, calendar spreads recording rule – “half netting”, inter-contracts spreads recording rule – “half netting”.
- 23.2.1. Change of the accounts aggregation rule, of the calendar spreads recording rule and inter-contracts spreads recording rule, used when calculating the Total Required Margin Amount in respect of the Sub-accounts Cluster, is executed during the closest night clearing session after receiving by the Clearing House of the Application for choosing the Sub-accounts Cluster parameters.
- 23.2.2. Information on the accounts aggregation rule, of the calendar spreads recording rule and inter-contracts spreads recording rule, which are in effect, used when calculating the Total Required Margin Amount in respect of the Sub-accounts Cluster, is provided to the Clearing Member as the part of the report on securities sub-accounts of clearing registers, provided in accordance with the 37.1.
- 23.2.3. If for the Sub-accounts Cluster the accounts aggregation rule – “half netting” is set, then the calendar spreads recording rule and inter-contracts spreads recording rule in respect of the Sub-accounts Cluster is not taken into account when calculating the Total Required Margin Amount in respect of the Sub-accounts Cluster.
- 23.3. The Clearing House calculates the values of the Total Required Margin Amount:
- Total Required Margin Amount under the section G_R in accordance with the calendar spread recording rule “half netting” and in accordance with the rules for recording inter-contract spreads “Half netting”;
 - Total Required Margin Amount under the Sub-accounts Cluster G_B in accordance with the accounts aggregation rule, chosen by the Clearing Member (“Netting” or “half netting”) and with the calendar spreads recording rule (“Netting” or “half netting”) and in accordance with the rules for recording inter-contract spreads (“Netting” or “Half netting”);
 - Total Required Margin Amount in respect of a Settlement Account in accordance with the accounts aggregation rule “Netting” and the calendar spreads recording rule “Netting” and in accordance with the rules for recording inter-contract spreads “Netting”.
- 23.3.1. The Clearing House calculates Total Required Margin Amount during day and night clearing sessions;
- 23.3.2. Clearing Member is entitled to set individual risk parameters for the purpose of calculating Total Required Margin Amount in accordance with the Total Required Margin Amount Calculation Methodology and the Risk parameters of the Derivatives market Calculation Methodology.
- 23.3.3. Information on Total Required Margin Amount is reflected by the Clearing House in the reports submitted on the basis of the results of day and night clearing sessions in accordance with the Article 37.

- 23.4. The Clearing House calculates the Total Required Margin Amount in accordance with the Total Required Margin Amount Calculation Methodology.
- 23.4.1. Procedure for the application of the accounts aggregation rule, of the calendar spreads recording rule and in accordance with the rules for recording inter-contract spreads when calculating the Total Required Margin Amount in respect of the securities sub-account, Sub-accounts Cluster, Settlement Account, is determined in the Total Required Margin Amount Calculation Methodology.
- 23.5. Clearing Members and their clients may get an opportunity to calculate Total Required Margin Amount on their own using special software.

Total Required Margin Amount Calculation under the aggregation of obligations arising from Derivative Contracts are indicated in the description of the defined special software.

The Clearing House is not responsible for the operation of the special software specified in this paragraph of the Clearing Rules on the Derivatives market. The results of calculating the Total Required Margin Amount using the specified software are for informational (reference) purposes. Information on the value of the Total Required Margin Amount calculated by the Clearing House is provided to the Clearing Member in accordance with paragraph 23.3.

Article 24. Procedure for the Margin Call emergence and specifics of its satisfaction

- 24.1. Margin Calls are calculated on the basis of results of each clearing session mark-to-market.
- 24.2. The availability of a Margin Call in respect of a Clearing Member is calculated through the following manner:

The value SZ_{SC} is calculated:

$$SZ_{SC} = TL_{SC} - G_{SC} - \text{tax} + \text{NetOptionValue},$$

, where

TL_{SC} is the Trading Limit for the Settlement Account, calculated in accordance with the Article 10,

G_{SC} is the Total Required Margin Amount in respect of the Settlement Account, calculated in accordance with the Article 23,

NetOptionValue is the value equal to the sum of theoretical options price, calculated according to the Total Required Margin Amount calculation principles,

tax – for the period from January 1st till the date, following the day of payment of the organization profits tax on income of foreign organizations from sources located in Russian Federation under Derivative Contracts, which is calculated according to the requirements of the Russian tax legislation: sum, equal to the organization profits tax on income of foreign organizations from sources located in Russian Federation, calculated at the maximum rate, set by the Russian tax legislation, under Trades, which are Derivatives, to be levy on the Clearing Member, which would be withheld by the Clearing House in case if current date was the tax date (recorded since January 1st and till the date of provision of the certificate of tax residence, defined in the Supplement 4 to the Common Part of the Clearing Rules, or till the actual date of provision by Non-resident Clearing Member (in respect of himself and the beneficial owner of income) or by the Clearing Member –

International Organization (in respect of the beneficial owner of income) of the certificate of tax residence for the current calendar year depending on the fact which event occurs earlier);

for the period since the date, following the day of payment of the organization profits tax on income of foreign organizations from sources located in Russian Federation under Derivative Contracts, which is calculated according to the requirements of the Russian tax legislation till the date of provision of the certificate of tax residence, defined in the Supplement 4 to the Common Part of the Clearing Rules, or till the actual date of provision by Non-Resident Clearing Member (in respect of himself and the beneficial owner of income) or by the Clearing Member – International Organization (in respect of the beneficial owner of income) of the certificate of tax residence for the current calendar year depending on the fact which event occurs earlier): difference between the sum, equal to the organization profits tax on income of foreign organizations from sources located in Russian Federation, calculated at the maximum rate set by the Russian tax legislation and the sum, equal to the organization profits tax on income of foreign organizations from sources located in Russian Federation, calculated at the tax rate of the current calendar year set by the applicable double taxation avoidance agreement, concluded with the state, which was the state of tax residence for the Non-resident Clearing Member, beneficial owner of income of the Non-resident Clearing Member or beneficial owner of income of the Clearing Member – International Organization for the previous calendar year (tax period).

for the period since the date of provision of the certificate of tax residence, defined in the Supplement 4 to the Common Part of the Clearing Rules, or till the actual date of provision by Non-Resident Clearing Member (in respect of himself and the beneficial owner of income) or by the Clearing Member – International Organization (in respect of the beneficial owner of income) of the certificate of tax residence for the current calendar year depending on the fact which event occurs earlier) (except for banks, permanent location of which can be confirmed by public information resources): the sum, equal to the organization profits tax on income of foreign organizations from sources located in Russian Federation under Trades, which are derivatives, to be levy on the Clearing Member, which would be withheld by the Clearing House in case of the current date was the tax date, since the date of receipt by the Clearing Member of the income under Trades, which are derivatives (in favor of the Non-resident Clearing Member inclusively) till the date following the date when the tax, calculated according to the Russian tax legislation, is paid.

If the value SZ_{SC} is negative ($SZ_{SC} < 0$) then it means that a Clearing Member has a Margin Call recorded under the Settlement Account.

Values SZ_R and SZ_B are calculated according to the following:

$$SZ_B = TL_B - G_B + \text{NetOptionValue},$$

$$SZ_R = TL_R - G_R - bc + \text{NetOptionValue},$$

Values TL_R , TL_B , TL_{SC} are the values of the relevant Trade Restriction calculated in accordance with the Article 10.

Values G_R , G_B are the values of the relevant Total Required Margin Amount calculated in accordance with the Article 23.

Value bc is calculated by the Clearing House on the basis of parameters, set by the Clearing Member, in respect of Derivatives Contracts, executed with the indication of the positions register section, code of which coincides with the code of cash collateral register, for which

the value SZ_R is calculated (hereinafter referred to as correction of idle collateral under section) in case if the Clearing Member has set such parameters. Value bc , calculated by the Clearing House, is in effect till the start of the next following night clearing session.

NetOptionValue is the value equal to the sum of theoretical options price, calculated according to the Total Required Margin Amount calculation principles.

24.2.1. The value SZ_{SC} , calculated with the aim to define the availability of a Margin Call in respect of a Clearing Member, recorded under a Settlement Account is calculated:

- during day clearing session – on the basis of obligations arising from Derivatives Contracts, recorded under all positions register sections and Active orders, submitted with the indication of the Clearing Member as a party to Derivative Contracts and of the code of the Sub-accounts Cluster connected with such Settlement Account as it is at the moment of the day clearing session start;
- during night clearing session – on the basis of obligations arising from Derivatives Contracts, recorded under all positions register sections.

24.3. Margin Call, recorded under a Settlement Account and emerged in respect of a Clearing Member on the basis of the results day and night clearing sessions shall be satisfied by the Clearing Member within the terms defined in the Time Specifications on the Derivatives market.

The Clearing House is entitled to prolong the abovementioned period of time for the satisfaction of the Margin Call till the beginning of the closest following day or night clearing session, in case of impossibility of provision by the Settlement Organization to the Clearing House of the information on crediting cash funds / securities to the clearing accounts of the Clearing House in accordance with the agreement, concluded between the Clearing House.

24.4. Margin Call, recorded under the Settlement Account, must be satisfied (terminated) in full or in part in the order and using methods, defined in the Common part of the Clearing Rules, and:

- by changing positions arising from Derivative Contracts, resulting in lessening of the Total Required Margin Amount in respect of the Settlement Account, under which Margin Call is recorded.

24.5. Margin Call, recorded under the Settlement Account and emerged in respect of a Clearing Member, is considered to be satisfied at the moment of time, when the value SZ_{SC} , calculated in accordance with the paragraph 24.1, will not become negative ($SZ_{SC} \geq 0$).

24.6. In case if a Clearing Member does not satisfy Margin Call recorded under the Settlement Account within the time period set out in the paragraph 24.3, the Clearing House applies to a Clearing Member, the procedure for forced positions close out in respect of the Settlement Account, under which non-fulfilled Margin Call is recorded, in the order set out in the Article 25.

24.7. Actions, stipulated by the paragraph 24.6, are also made within the cross-default procedure in respect of a Clearing Member in accordance with the Common part of the Clearing Rules with the aim to enlarge the amount of free Collateral (the value SZ_{SC}), recorded under the proprietary Settlement Accounts of a Defaulting Clearing Member on the Derivatives market.

Article 25. Procedure for the forced close out of positions

- 25.1. Forced close out of positions in accordance with this article is executed in respect of:
- 1) Defaulting Clearing Member that has non-fulfilled Margin Call, or
 - 2) Clearing Member, clearing service of which is suspended upon the decision of the Clearing House, or
 - 3) Defaulting Clearing Member in cases set out in the Common part of the Clearing Rules when executing cross-default procedure in respect of a Clearing Member, or
 - 4) Clearing Member, assets, recorded under a trading and/or clearing account, of which are subject to the levy in accordance with the Common Part of the Clearing Rules, or
 - 5) Clearing Member, which did not fulfill the Deliver obligations under the delivery Derivative Contracts in respect of precious metals in accordance with the paragraph 32.8.
- 25.1.1. Forced close out of positions of a Defaulting Clearing Member, which has non-fulfilled Margin Call, is executed under positions register of a Defaulting Clearing Member, which has the code of the Sub-accounts Cluster connected with the Settlement Account, under which non-fulfilled Margin Call is recorded, till the moment of termination of the abovementioned Margin Call.
- 25.1.2. Forced close out of positions of a Clearing Member, clearing service of which is suspended upon the decision of the Clearing House, is executed in case of non-fulfillment or undue fulfillment by the Clearing Member of obligations, accepted for clearing, under all positions register sections of such Clearing Member till the closure of all positions recorded under positions register sections of such Clearing Member.
- 25.1.3. Forced close out of positions of a Clearing Member when executing cross-default procedure in respect of a Clearing Member in accordance with the Common part of the Clearing Rules before using Collateral for Stress and/or Default Fund contribution on the Derivatives market, is executed under all positions register sections of such Clearing Member before closing positions recording under the positions register sections of such Clearing Member.
- Forced close out of positions of a Clearing Member, recorded under the position register securities sub-account, opened within the Segregated Sub-accounts Cluster, in case if there is no Debt under the Settlement Account, with which the Segregated Sub-accounts Cluster is opened, is executed not earlier than 2 (two) Settlement Days after notifying the Authorized Accounts Owner in accordance with the paragraph 25.9.
- 25.1.4. Forced close out of positions of a Defaulting Clearing Member with the aim to enlarge the amount of free Collateral (the value SZ_{SC}) when executing cross-default procedure in respect of a Clearing Member in accordance with the Common part of the Clearing Rules is executed under positions register sections of a Defaulting Clearing Member, which have the code of the Sub-accounts Cluster connected with proprietary Settlement Accounts till the moment of paying out Debts of a Defaulting Clearing Member or till the closure of all positions recorded under the defined positions register sections.
- 25.1.5. Forced close out of positions of a Clearing Member, which assets are the subject to the levy, is executed under all positions register sections, which have the code of the Proprietary Sub-accounts Cluster, till the moment the value SZ_{SC} , calculated in accordance with the paragraph 24.1, reaches (exceeds) the sum to be levied or till the closure of all positions recorded under the defined positions register section.

- 25.1.6. Forced close out of positions of the Clearing Member, which did not fulfill its delivery Obligations under Delivery Derivative Contracts in respect of precious metals in accordance with the paragraph 32.8, is executed under securities sub-accounts of the position register, under which positions under such Derivative Contracts in respect of precious metals is recorded, till closure of all positions under such Derivative Contracts in respect of precious metals.
- 25.2. Before the start of the procedure for the forced close out of positions the Clearing House sets in respect of the Settlement Account(s), used in the forced close out of positions procedure, the Settlement Procedure, procedure for the application of which is defined in the Common Part of the Clearing Rules.
- 25.3. During the procedure for the forced close out of positions the Clearing House is entitled to:
- at its sole discretion terminate obligations of a Clearing Member under counter positions arising from Derivative Contracts, except for obligations recorded under positions register sections, which have the code of the Trust or Segregated Sub-accounts Cluster;
 - prior to the scheduled maturity date settle option contracts, Holder of which is a Clearing Member, in respect of which the procedure for the forced close out of positions is executed, in the order set out in the Clearing Rules on the Derivatives market, during day or night clearing session.
- 25.4. During the procedure for the forced close out of positions, executed in respect of a Clearing Member in accordance with the sub-paragraphs 25.1.1, 25.1.3, 25.1.5, during the period before current Settlement period is over, the Clearing House in the name of the Defaulting Clearing Member in respect of itself via the Trading system of the Exchange executes closing Derivative Contracts, which lead to reduction of the Total Required Margin Amount under the Settlement Account of a Defaulting Clearing Member, in prices corresponding to the balancing trades prices, procedure for conclusion of which is defined in the Common Part of the Clearing Rules, and executes balancing trades.
- Prices of closing Derivative Contracts correspond to the prices of balancing trades.
- Procedure for the execution of closing and balancing trades is defined in the Common Part of the Clearing Rules.
- 25.4.1. The Clearing House is entitled to prolong the defined time period for conclusion of closing Derivative Contracts till the closest day or night clearing session, in case if it is impossible to conclude closing Derivative Contracts during the period of time till the current Settlement Period is over.
- 25.5. During the procedure for the forced close out of positions, executed in respect of a Clearing Member in accordance with the sub-paragraph 25.1.2, 25.1.3 during the time period till current Settlement period is over, the Clearing House in the name of such Clearing Member in respect of itself via the Trading System of the Exchange executes closing Derivative Contracts, which are counter to positions recorded under the relevant positions register sections of such Clearing Member, in prices corresponding to the balancing trades prices, procedure for conclusion of which is defined in the Common Part of the Clearing Rules, and executes balancing trades.
- Prices of closing Derivative Contracts correspond to prices of balancing trades.

Procedure for execution of closing and balancing trades is defined in the Common Part of the Clearing Rules.

- 25.6. Within the forced close out of positions procedure, executed in respect of the Clearing Member in accordance with the sub-paragraph 25.1.6, during the period of time till the end of the Main Trading Session on the Derivatives Market, the Clearing House in the name of such Clearing Member in respect of itself via the Trading System of the Exchange executes closing Derivative Contracts, which are counter to positions, recorded under the securities sub-accounts of the position register of such Clearing Member, under which positions under Derivative Contracts in respect of precious metals are recorded, according to prices, corresponding to balancing trades prices, procedure for the conclusion of which is defined in the Common Part of the Clearing Rules, taking into account the following specification: balancing trades between the Clearing House and Non-defaulting Clearing Members are not executed without orders submission, and executes balancing trades.

Prices of closing Derivative Contracts correspond to prices of balancing trades.

Procedure for the execution of closing and balancing trades is defined in the Common Part of the Clearing Rules, taking into account the following consequences: balancing trades between the Clearing Houses and Non-defaulting Clearing Member without orders submission can not be executed.

- 25.7. The Clearing House, acting on behalf of a Clearing Member in respect of himself, executes all legal and actual actions required for the conclusion of trades, in accordance with this article, without special power (power of attorney) and also without the consent of a Clearing Member.
- 25.8. Obligations arising from balancing Derivative contracts, concluded without the submission of orders between the Clearing House and Non-defaulting Clearing Members in accordance with the Common parts of the Clearing Rules, resulted from the conclusion of closing Derivative Contracts in accordance with the paragraphs 25.4, 25.5, in prices, calculated in accordance with the Common part of the Clearing Rules, are recorded under the liquidation sections of the positions register of Non-defaulting Clearing Members.
- A Clearing Member is entitled to secure the fulfillment of obligations arising from Derivative Contracts recorded under the liquidation sections of the positions register in the order similar for the obligations arising from Derivative Contracts recorded under other sections of the positions register.
- 25.9. If the ground for suspension of admission to the clearing service is the information, received from the Exchange, on suspension or termination of admission of the Clearing Member to trading due to annulment of the license on professional activity on the securities market, clearing fee is not charged upon the Defaulting Clearing Member within the forced close-out of positions procedure.
- 25.10. By the end of the forced close out of positions procedure the Clearing House imposes the Settlement Regime for such Settlement Account if there is no other grounds for setting Settling Procedure stipulated by the Clearing Rules.
- 25.11. The Clearing House forwards the information on application to a Clearing Member of the procedure for the forced close out of positions by the Authorized Accounts Owner, fixed

to such Segregated Sun-accounts Clusters connected with the Settlement Accounts of such Clearing Member.

Article 26. Procedure for using Collateral with the aim to pay out the Debt of a Clearing Member

- 26.1. In order to pay out the Debt in Russian rubles of a Defaulting Clearing Member under the Settlement Account, which is not a Settlement Account of the Unified Pool, in respect of which Collateral in foreign currency is recorded, the Clearing House without submitting orders concludes with a Defaulting Clearing Member closing buy-sell trades in foreign currency for Russian rubles, aimed at purchase of foreign currency by the Clearing House from a Defaulting Clearing Member.
- 26.2. In order to pay out the Debt in the foreign currency of a Defaulting Clearing Member under the Settlement Account, which is not the Unified Pool Settlement Account, under which Collateral in other foreign currency or in Russian rubles is recorded, Clearing House without submitting orders executes with a Defaulting Clearing Member closing buy-sell trades in foreign currency, aimed at selling by the Clearing House of the foreign currency to a Defaulting Clearing Member, in which the Debt is recorded.
- 26.3. Terms of closing buy-sell trades in foreign currency, concluded between the Clearing House on behalf of a Defaulting Clearing Member in respect of himself, in order to pay out the Debt of a Defaulting Clearing Member, corresponding to the terms of buy-sell trades in foreign currency, defined in the FX Market Rules / Securities market, Deposits market and Credit Market Rules, and to the terms of trades, taking into account the following specific:
- 26.3.1. price of a buy-sell trade in foreign currency is set the one equal to the price of the balancing trade in the relevant foreign currency, procedure for conclusion of which is defined in the Common part of the Clearing Rules;
- 26.4. The Clearing House acting on behalf of a Clearing Member in respect of himself executes all legal and actual actions required for the conclusion of trades, in accordance with this article, without special power (powers of attorney) and also without the consent of a Clearing Member.
- 26.5. Sum in Russian rubles / foreign currency, received by a Defaulting Clearing Member under buy-sell trades in foreign currency, concluded in accordance with the paragraphs 26.1-26.3, from selling / buying the foreign currency, is applied toward paying out the Debt of a Defaulting Clearing Member.
- 26.6. Paying out the Debt of a Defaulting Clearing Member using foreign currency, recorded as Collateral, is executed by the Clearing House without prior notification of a Defaulting Clearing Member.
- 26.7. Consequence of choosing cash collateral register section, which has the code of the Sub-accounts Cluster connected with the Settlement Account, under which the Debt of a Clearing Member is recorded, and foreign currency is defined by the Clearing House.
- 26.8. When using foreign currency for paying out the Debt in Russian rubles of a Clearing Member, recorded under the Settlement Account, the Clearing House lessens the value of

the cash collateral register section in foreign currency, where information on foreign currency has been recorded, for the sum of used foreign currency and enlarges the value of the cash collateral register section in Russian rubles for the sum of cash funds in Russian rubles received from the sale of the foreign currency. While using other foreign currency or Russian rubles to pay out the Debt in the foreign currency of the Clearing Member, recorded under the Settlement Account, Clearing House lessens value of the cash collateral register section in other foreign currency or in Russian rubles, under which information on other foreign currency / Russian rubles is recorded, for the amount of used foreign currency / Russian ruble, and enlarges value of the cash collateral register section in the foreign currency, in which Debt of the Clearing Member has been recorded, for the amount of cash funds in the foreign currency, received from selling to the Clearing member of such foreign currency.

SUB-SECTION V-IV. PROCEDURE FOR DERIVATIVE CONTRACTS SETTLEMENT

Article 27. Procedure for the settlement of option contracts, underlying asset of which is the futures contract

- 27.1. The option contract is exercised when the Holder claims the option contract exercise through concluding a futures contract, which is the underlying asset of the option contract (hereinafter the following article referred to as the execution futures contract), between the Clearing House and a Clearing Member – the Holder, without additional submission of orders.
- 27.2. A Clearing Member is entitled to provide the Clearing House with the application for denial to exercise an option contract in cases set out in the Specification.
- 27.3. Claim of the Holder to exercise an option contract is considered to be stated in the following cases:
- if the Holder is a Clearing Member:
 - in case of provision of the application for option contract execution by the Holder;
 - in cases, stipulated by the Specification of an option contract, for Clearing Members that did not provide the application in accordance with the paragraph 27.2;
 - in case if the procedure for the forced close out of positions in respect of such Clearing Member is applied in respect of the option contract defined by the Clearing House in accordance with the Clearing Rules on the Derivatives market;
 - if the Holder is the Clearing House, then when the Clearing House exercises the option contract with the same code under which he was the Writer (hereinafter the following article referred to as correlated option contract).
- 27.4. Execution futures contract between the Clearing House and a Clearing Member – the Holder is concluded in case if a Clearing Member – the Holder claims the option contract exercise.
- 27.4.1. The price of conclusion of the futures contract may be higher / lower than the Maximum value of the Price Range / Minimum value of the Price Range for the execution futures contract.
- 27.5. The execution futures contract between the Clearing House and a Clearing Member – the Writer is concluded without submitting orders in case if the Clearing House claims the option contract exercise, forwarded to a Clearing Member – the Writer. Herewith a Clearing Member – the Writer and the options contract to be exercised are selected according to the time of these option contracts conclusion, starting from the earliest one. Obligations arising from the concluded futures contract are accepted for clearing.
- 27.6. Exercise of an option contract, concluded by the Clearing House with a Clearing Member – the Holder, is executed by the Clearing House:

- during the closest day or night clearing session – on the basis of the application submitted by a Clearing Member – the Holder;
- in accordance with the terms of Specification of the relevant contract within the time period defined in the Time Specifications on the Derivatives market – when claiming the exercise of the option contract in cases stipulated by the Specification of the option contract except for the case when the exercise is claimed by the submission of the Application;
- within the terms defined in the Article 25 when executing the procedure for the forced close out of positions.

An option contract, concluded by the Clearing House with the Clearing Member – the Writer is exercised by the Clearing House concurrently with the exercise of the correlated option contract.

Article 28. Procedure for the execution of the settlement futures contracts

28.1. Settlement futures contracts are executed in accordance with the terms of Specification of the relevant contract within the time period, defined by the Time Specifications on the Derivatives market.

Obligations under settlements arising from execution futures contracts are accepted for clearing and included into the clearing pool of the relevant day or night clearing session.

Article 29. Specifies for the execution of the of one-day futures contracts with auto-prolongation

29.1. The execution of contract with auto–prolongation (hereinafter referred to in this article as a futures contract) is carried out when the Clearing Member - Buyer or Clearing Member - Seller submits an order for the execution of futures contracts with auto–prolongation within the time period determined by the Time Specifications on the Derivatives market by executing, without additional filing of applications, between the Clearing House and the Clearing Member - Buyer or between the Clearing House and the Clearing Member - the Seller– a futures contract of execution on the terms defined by the Specification of the futures contract and the Specification of the futures contract of execution.

29.2. When executing the futures contract specified in clause 29.1 of the Clearing Rules on the Derivatives Market, the Clearing House, being the Buyer /Seller for the specified futures contract (hereinafter referred to in this article as the linked futures contract), is entitled to execute the futures contract with the same code by which it will be the Seller / Buyer. The execution of the futures contract specified in this paragraph is carried out through the executing of a futures contract of execution.

29.3. The conclusion of the futures execution contract specified in paragraph 29.2 of the Clearing Rules on the Derivatives market between the Clearing House and the Clearing Member – Seller / Clearing Participant - Buyer is carried out without additional submission of applications. The Clearing Member – Seller / Clearing Member – Buyer and the futures contract to be executed are selected depending on the volume of the open position on the the positions register sections of the Clearing Member in futures contracts (from the largest to the smallest). At the same time, the number of futures contracts to be executed in respect of each Clearing Member is determined in proportion to the volume of open positions on

of the position registers sections of this Clearing Member to the total number of all contracts (for all Clearing Members) (if the number of futures contracts to be executed based on the results of such determination takes a fractional value, the specified value rounded up to the nearest integer). If there are the same number of positions on different position register sections (for all Clearing Members), the Clearing House performs execution according to registers, accounting for positions with the latest opening time of such positions.

29.4. The conclusion of a futures contract of execution is carried out on the terms defined by the Specification of the futures contract of execution.

29.5. Specification of futures contract may provide for the obligation of a party to a futures contract that has submitted an order for the execution of futures contracts with auto-prolongation to pay cash funds at a time during the execution of a futures contract, as well as the corresponding right of a party that has not submitted an order for the execution of futures contracts with auto-prolongation and has become a party to a futures contract execution, to demand the execution of the specified one-time payment.

29.6. The execution of a futures contract executed by the Clearing House with a Clearing Member – Buyer / Clearing Member – Seller who submitted an order for the execution of futures contracts with auto-prolongation is carried out by the Clearing House during the night clearing session specified in this paragraph from the moment the Clearing Member – Buyer / Clearing Member - Seller submits the order.

The execution of a futures contract executed by the Clearing House with a Clearing Member – Seller / Clearing Member – Buyer selected by the Clearing House in accordance with paragraph 29.3 of the Clearing Rules on the Derivatives market, when the Clearing House executes a linked futures contract, is carried out by the Clearing House simultaneously with the execution of the specified linked futures contract.

29.7. The provisions of this article of the Clearing Rules on the Derivatives market are applied in the cases and terms established by the Specification of the futures contract.

Article 30. Procedure for the execution of the delivery Derivative Contracts

30.1. With the aim of the Clearing Rules on the Derivatives market delivery Derivative Contracts stand for the delivery futures contracts or delivery option contracts, underlying asset of which is different from futures contracts.

30.2. Penalty (fine) for undue execution or non-execution of the delivery Derivative Contract may be set out in the Specification.

30.3. Procedure for the fulfillment of the obligation / claim of a Clearing Member to pay / receive the penalty (fine) is defined in the Article 22.

30.4. The delivery Derivative Contract is execution in accordance with the requirements and in the order set out in the Specification of the particular Derivative Contract.

30.5. Specifics of the settlement of delivery Derivative Contracts, under which the underlying asset is securities accepted as it is on the execution day for the conclusion of buy-sell trades

in securities during the Trading mode “Main Trading Mode T+” in accordance with the Securities market, Deposit market and Credit Market Rules (hereinafter referred to as delivery Derivative Contracts of the mode T+), are defined in the Article 31 taking into account specifics set out in the Specification of such delivery Derivative Contract.

- 30.6. Specifics of the settlement of deliverable Derivative Contracts, under which the underlying asset is precious metals (hereinafter referred to as the delivery Derivative Contracts in respect of precious metals), are defined in the Article 31.15, taking into account specifics, set out in the Specification of such delivery Derivative Contract.
- 30.7. Specifics of the settlement of deliverable futures contracts, underlying asset of which is corn (hereinafter referred to as the deliverable futures contracts on agricultural products) are defined in the Article 33, taking into account specifics set out in the Specification of such delivery futures contract.

Article 31. Specifics of the execution delivery Derivative Contracts of the mode T+

- 31.1. The delivery Derivative Contracts of the mode T+ is settled on the settlement day of the Derivative contract in accordance with the terms of Specification of the relevant Derivative contract within the time period set out by the Time Specifications on the Derivatives market.
- 31.2. Are to be executed concurrently all delivery Derivative Contracts with one code, Delivery obligations under which are recorded by the Clearing House under one positions register section of a Clearing Member as it is at the moment of the execution of the delivery Derivative Contracts of the mode T+ set out by the Time Specifications on the Derivatives market,
- 31.3. The essential requirement for the fulfillment of the Delivery obligation arising from delivery Derivative Contracts of the mode T+ is that the Clearing House has the information on the Trade Account of a Clearing Member, or on the Trade Account of the 2nd level, or on the Trade Account of the 3rd level on the securities market, with the indication of which conclusion of Trades T+ is possible in the Securities market Section of the PJSC Moscow Exchange (hereinafter referred to as the delivery Trade Account on the Securities Market).
- 31.4. Information on the delivery Trade Account on the Securities Market shall be provided by a Clearing Member to the Clearing House within the time period, set out in the Time Specifications on the Derivatives market, in the Application on the correspondence of the delivery Trade Account to the Sub-accounts Cluster or in the Application on correspondence of the delivery Trade Account to the positions register section, or in the Application for the delivery Trade Account registration.
- 31.4.1. The Application on the correspondence of the delivery Trade Account to the Sub-accounts Cluster contains the following:
- Sub-accounts Cluster code (except for special Sub-accounts Cluster);
 - type of the Settlement Account, with which the Sub-accounts Cluster is connected;
 - Identifier assigned to a Market Participant on the securities market;
 - code of the delivery Trade Account on the Securities Market;

- type of the Settlement Account, which is the part of the delivery Trade Account on the Securities Market;
- clearing register section code;
- short code of the client of a Market Participant, registered in accordance with the Trading Rules on the Securities Market, Deposit Market and Credit Market (optionally).

Type of the Settlement Account, with which Sub-accounts Cluster is connected, defined in the application shall correspond to the feature of the Settlement Account, which is the part of the delivery Trade Account on the Securities Market.

31.4.2. The Application on the correspondence of the delivery Trade Account to the positions register section contains the following:

- positions register section code;
- type of the Settlement Account, with which the Sub-accounts Cluster is connected, within which the position register section is opened;
- identifier assigned to a Market Participant on the Securities market;
- code of the delivery Trade Account on the Securities Market;
- type of the Settlement Account, which is the part of the delivery Trade Account on the Securities Market;
- short code of the client of a Market Participant, registered in accordance with the Trading Rules on the Securities Market, Deposit Market and Credit Market.

Type of the Settlement Account, with which the Sub-accounts Cluster code is connected, within which positions register section, defined in the application, is opened, shall correspond to the type of the Settlement Account, which is the part of the delivery Trade Account on the Securities Market.

31.4.3. The Application for the delivery Trade Account registration contains the following:

- Identifier of a Clearing Member;
- identifier assigned to a Market Participant on the Securities market;
- code of the delivery Trade Account on the Securities Market, corresponding to the Settlement Accounts;
- code of the delivery Trade Account on the Securities Market, corresponding to the client Settlement Accounts;
- code of the delivery Trade Account on the Securities Market, corresponding to the Trust Settlement Accounts.

31.4.4. Delivery Trade Account on the Securities Market, corresponding to the Settlement Account with the particular type, defined in the Application for the delivery Trade Account registration, is used to conclude buy-sell trades in securities with the aim to execute delivery Derivative Contracts of the mode T+, obligations under which are recorded on the positions register sections, which have the code of the Sub-accounts Clusters, connected with the Settlement Accounts of the relevant type, opened within the Identifier of a Clearing Member, except for:

- the Sub-accounts Clusters / positions register sections, in respect of which a Clearing Member provided the Application on the correspondence of the delivery Trade Account to the Sub-accounts Cluster / positions register section;

- Sub-accounts Clusters / positions register section, connected with the Unified Pool Settlement Accounts.

31.5. If the Clearing Member is not admitted to the execution of buy-sell trades in securities in the “Main Trading Mode T+” of the Stock market Section of the PJSC Moscow Exchange, then only Trade Account of the 2nd level or Trade Account of the 3rd level, corresponding to the Trade Account of the 1st level of such Clearing Member, registered on the Securities market, Deposit market and Credit market with the indication of which execution of Trades T+ in the Stock market Section of the PJSC Moscow Exchange, can be indicated as the delivery Trade Account.

The Clearing House is entitled to cancel the linked delivery Trade Accounts of one or more Clearing Members if the execution of T+ Trades may entail a violation of the restrictions established by regulatory acts defining temporary economic measures.

31.6. Execution of the delivery Derivative Contracts of the mode T+ is the conclusion between the Clearing House and a Clearing Member of the buy-sell trade in securities in the Trading Mode “Fulfillment of obligations under derivative contracts” in the Securities market Section of the PJSC Moscow Exchange, under the following conditions:

- trade is executed in respect of securities, which are an underlying asset of the delivery Derivative contracts of the mode T+;
- number of securities under the trade is equal to the product of the delivery Derivative Contracts of the mode T+ lot and the number of the delivery Derivative Contracts of the mode T+, Delivery obligations under which are recorded by the Clearing House;
- price of one security under the trade is defined in the order, set out in the Specification of the delivery Derivative Contracts of the mode T+;
- time period for the fulfillment of obligations arising from the trade is defined in accordance with the Trading Rules on the Securities Market, Deposit Market and Credit Market;
- a Clearing Member is the Buyer under the trade if he is a Buyer in respect of the position under the delivery Derivative Contract of the mode T+. A Clearing Member is the Seller under the trade if he is a Seller in respect of the position under the delivery Derivative Contracts of the mode T+;
- trade is executed with the settlement code Nn in case if the method of the calculation of the Total Required Margin Amount has been chosen when executing delivery with the transfer of the Asset Profile and with the settlement code Yn in other cases.

31.6.1. Settlement of the delivery Derivative Contract, underlying asset of which is securities, is executed on the basis of the last Settlement Price of the delivery Derivative Contract, calculated in accordance with the Derivative contract Specification and (or) Methodology for Calculation of derivatives contracts’ settlement prices, which is the supplement to the trading rules on the derivatives market, taking into account underlying asset price.

31.7. On the execution day of a contract the Clearing House via the Trading System forwards to the Exchange Notification on the necessity to conclude on the trading venue of the PJSC Moscow Exchange buy-sell trade in securities with the aim to fulfill obligations arising from the delivery Derivative Contracts of the mode T+, which contains conditions of the concluded trade, defined in the paragraph 31.5, and also the information on the following, defined in accordance with the paragraph 31.4:

- identifier assigned to a Market Participant on the Securities Market;
- code of the delivery Trade Account on the Securities Market;
- clearing register code (if any);
- short code of the client of a Market Participant, registered in accordance with the Trading Rules on the Securities Market, Deposit Market and Credit Market (if any).

The defined trades are concluded on the trading venue of the PJSC Moscow Exchange without orders submission.

- 31.7.1. Fee for the clearing services of the Clearing House, connected with the execution of the delivery Derivative Contracts of the mode T+ is levied in accordance with the Tariffs of the Clearing House as the fee for the clearing service of Clearing Members under the trades with the relevant securities, which are the underlying asset of the delivery Derivative Contracts of the mode T+.
- 31.8. Fulfillment of obligations arising from buy-sell trades in securities, concluded on the trading venue of the PJSC Moscow Exchange with the aim to execute the delivery Derivative Contracts of the mode T+, is executed in the order defined in the Clearing Rules on the Securities market, Deposit market and Credit Market for the fulfillment of obligations under the Trades T+.
- 31.9. If as the result of conclusion of the Trade T+ with the aim to fulfill obligations arising from the delivery Derivative Contracts of the mode T+ the Single Limit of a Clearing Member in respect of a Settlement Account of a Clearing Member, calculated in the Clearing System of the Securities market, will become negative and a Clearing Member will not satisfy the emerged Margin Call within the time period set out in the Time Specifications, which is the Appendix to the Common part of the Clearing Rules, the Clearing House is entitled, in order to make the Debt of a Clearing Member in respect of the Settlement Account of a Clearing Member, emerged in the Clearing System of the Securities market, be paid out, to use Collateral of such Clearing Member recorded under the cash collateral register sections, which have the code of the Sub-accounts Cluster, within which positions register section is opened, where Delivery obligations arising from the defined delivery Derivative Contracts of the mode T+. This positions register section is connected with the Settlement Account of a Clearing Member under which the Debt in the Clearing System of the Securities market is recorded.
- 31.10. If the Settlement Account, with which the Sub-accounts Cluster is connected, is the Unified Pool Settlement Account, and into the structure of the delivery Trade Account on the Securities Market the same Unified Pool Settlement Account is included, the Clearing Member is entitled to choose the Collateral calculation method when executing the delivery:
- 1) with the Asset Profiles transfer;
 - 2) without the Asset Profiles transfer.

In order to choose the Collateral calculation method when executing the delivery, the Clearing Member provide the Clearing House with the Application for choosing the Collateral calculation method when executing the delivery. In case of non-provision of the Application, defined in this document, the Collateral calculation method when executing the delivery without Asset Profiles transfer is in effect.

- 31.11. In case if the Collateral calculation method when executing the delivery with the Asset Profile transfer is chosen together with the executing of trades with the aim to fulfill obligations under delivery Derivative Contracts of the T+ regime, the following actions are taken:
- 31.11.1. Asset Profiles, recorded under the Unified Pool Settlement Account in the Clearing System of the Derivatives Market, are changed for the volume of obligations / claims under the delivery Derivative Contracts in the T+ regime: Asset Profiles in cash funds / securities, in which the Clearing Member has an obligation under the delivery Derivative Contracts in the T+ regime, are lessened for the volume of the defined obligations, Asset Profiles in cash funds / securities, in which the Clearing Member has a claim under the delivery Derivative Contracts in the T+ regime, are increased for the volume of the defined claims.
- 31.11.2. Asset Profiles, recorded under the Unified Pool Settlement Account in the Clearing System of the Securities Market, are changed for the volume of obligations / claims, arising from the delivery Derivative Contracts of the T+ regime, counter to the change of Assets Profiles in the Clearing System of the Derivative Market.
- 31.12. In case of choosing Collateral calculation method when executing delivery without Asset Profiles transfer, actions, defined in the paragraph 31.11, are not taken.
- 31.13. If the Clearing Member is not admitted to the execution at his own expense or at expense of his clients of buy-sell trades un securities in the Trading Mode “Main Trading Mode T+” of the Securities market Section of the PJSC Moscow Exchange, including due to restrictions established by regulatory acts defining temporary economic measures, and the Clearing Member has not provided the Clearing House with the information on the Market Participant, admitted to the execution of buy-sell trades in securities in the Trading Mode “Main Trading Mode T+” of the Securities market Section of the PJSC Moscow Exchange, which has the right to submit orders indicating Clearing Member as the party to a traded, or the Clearing Member has not provide the Clearing House with the information, defined in the paragraph 31.4 within the terms set by Time Specifications, such Clearing Member is considered to be a party that did not fulfill obligations under the delivery Derivative Contracts of the mode T+ and is to pay compensation in favor of the Clearing House meanwhile Delivery obligations arising from the delivery Derivative Contracts of the mode T+ are terminated by the compensation payment. The size of the compensation under such Derivative Contract is equal to the Required Margin Amount, set out during the day clearing session of the execution day for such Derivative Contract.
- 31.14. Procedure for the fulfillment of obligations / claims of a Clearing Member to pay compensation is defined in the Article 22.
- 31.15. Unless otherwise established by a decision of the Clearing House, for the purpose of fulfilling (terminating) the claims of the Clearing Member - Counterparty to a Related Central Counterparty Trade, corresponding to the obligations of the Clearing Member specified in paragraph 31.13 of the Clearing Rules on the Derivatives market, under the deliverable Derivatives Contract of T+ mode, the Clearing House concludes on the date on which the Clearing Member specified in paragraph 31.13 of the Clearing Rules on the Derivatives market could not become a party to the securities purchase and sale trade specified in paragraph 31.6 of the Clearing Rules on the Derivatives market, in relation to himself personally balancing trade (balancing trades) in the manner determined by the Common part of the Clearing Rules, with securities being the underlying asset of the

deliverable Derivatives Contract of T+ mode. The conditions of the specified balancing trade (balancing trades) correspond to the terms of trades determined by the Stock Market Rules.

Article 32. Settlement specifics of delivery Derivative Contracts in respect of precious metals

- 32.1. Delivery Derivative Contracts in respect of precious metals are settlement on the settlement date of the Derivative Contract in accordance with the Specification of the relevant Derivative Contract within the period of time, determined by the Time Specifications on the Derivatives Market.
- 32.2. All Delivery Derivative Contracts in respect of precious metals shall be settled simultaneously. Obligations to deliver under delivery Derivative Contracts are recorded by the Clearing House under one securities sub-account of the position register of the Clearing Member as at the moment of the settlement of delivery Derivative Contracts in respect of precious metals, set out in the Time Specifications on the Derivatives Market.
- 32.3. Required terms for the fulfillment by the Clearing Member of Obligations to deliver, arising from the Derivative Contracts in respect of precious metals, are the following:
- Clearing Member is the Market Participant, admitted by the PJSC Moscow Exchange to the organized trading in precious metals, or the Clearing Member is the Market Participant, which has the right to submit orders with the indication of the Clearing Member as the party to the trade, admitted by the PJSC Moscow Exchange to the organized trading in precious metals;
 - Clearing Member is admitted to the clearing on the FX Market and Precious Metals Market and fulfills the conditions, set by the Clearing Rules on the FX Market and Precious Metals Market, required for the execution of buy-sell trades in precious metals;
 - Clearing Member registers on FX Market and Precious Metals Market Trade Account, into the structure of which the Settlement Account of the Clearing Member, to which the trading bank account in the relevant precious metal, or the Trade Account of the 2nd level, or the Trade Account of the 3rd level, into the structure of which the Settlement Account of the 2nd level or the Settlement Account of the 3rd level correspondingly is included, connected with the Settlement Account of the Clearing Member, for which the trading banking account in the relevant precious metal is opened (hereinafter referred to as the Delivery Trade Account on the FX Market and Precious Metals Market) is registered;
 - Clearing Member provides the Clearing House with the information on the Delivery Trade Account on the FX Market and Precious Metals Market.
- 32.4. Information on the Delivery Trade Account on the FX Market and Precious Metals Market can be provided by the Clearing Member to the Clearing House in the Application for the setting correspondence between the Trade Account and the Sub-accounts Cluster, or in the Application for setting correspondence between the Trade Account and the delivery securities sub-account of the positions register, or in the Application for the registration of the delivery Trade Accounts.

32.4.1. Application for setting correspondence between the Trade Account and the Sub-accounts Cluster contains the following:

- Sub-accounts Cluster code (except for special Sub-accounts Cluster);
- type of the Settlement Account, with which the Sub-accounts Cluster is connected;
- identifier, assigned to the Market Participant on the FX Market and Precious Metals Market;
- code of the Trade Account for the delivery on the FX Market and Precious Metals Market;
- type of the Settlement Account, which forms the part of the Trade Account for the delivery on the FX Market and Precious Metals Market;
- code of the securities sub-account of the clearing register (not mandatory);
- short code of the Market Participant's client, registered in accordance with the Trading Rules on the FX Market (not mandatory).

Type of the Settlement Account, with which the Sub-accounts Cluster is connected, indicated in the application, shall correspond to the type of the Settlement Account, which forms the part of the Delivery Trade Account on the FX Market and Precious Metals Market.

32.4.2. Application for setting correspondence between the Delivery Trade Account and the delivery securities sub-account of the positions register contains the following:

- code of the securities sub-account of the positions register;
- type of the Settlement Account, with which the Sub-accounts Cluster is connected, within which the positions register section is opened;
- identifier, assigned to the Market Participant on the FX Market and Precious Metals Market;
- code of the Trade Account for the delivery on the FX Market and Precious Metals Market;
- type of the Settlement Account, which forms the part of the Delivery Trade Account on the FX Market and Precious Metals Market;
- short code of the Market Participant client, registered in accordance with the Trading Rules on the FX Market (not mandatory).

Type of the Settlement Account, with which Sub-accounts Cluster is connected, within which the securities sub-account of the positions register is opened, indicated in the application, must correspond to the feature of the Settlement Account, which forms the part of the Delivery Trade Account on the FX Market and Precious Metals Market.

32.4.3. Application for the registration of the Delivery Trade Account shall contain the following:

- Identifier of the Clearing Member;
- identifier, assigned to the Market Participant on the FX Market and Precious Metals Market;
- code of the Delivery Trade Account on the FX Market and Precious Metals Market, corresponding to proprietary Settlement Accounts;
- code of the Delivery Trade Account on the FX Market and Precious Metals Market, corresponding to client Settlement Accounts;

- code of the Delivery Trade Account on the FX Market and Precious Metals Market, corresponding to Trust Settlement Accounts.
- 32.4.4. Delivery Trade Account on the FX Market and Precious Metals Market, corresponding to the Settlement Account with the particular type, indicated in the Application for the registration of the Delivery Trade Account, is used for the execution of buy-sell trades in precious metals with the aim to settle delivery Derivative Contracts in precious metals, obligations under which are recorded under securities sub-accounts of positions register, which have the code of Sub-accounts Clusters, connected with the Settlement Accounts of the relevant type, opened within the Identifier of the Clearing Member, except for:
- Sub-accounts Cluster / securities sub-accounts of positions register, for which the Clearing Member provided the Application for setting correspondence between the Trade Account and the delivery Sub-accounts Cluster / securities sub-account of the position register;
 - Sub-accounts Cluster / securities sub-accounts of positions register, connected with the Unified Pool Settlement Accounts.
- 32.5. If the Clearing Member is not the Market Participant that is admitted by the PJSC Moscow Exchange to organized trading of precious metals, only Trade Account of the 2nd level, or Trade Account of the 3rd level, corresponding to the Trade Account of the 1st level of such Clearing Member, registered on the FX market and Precious metals market, can be indicated as the delivery Trade Account on the FX market and Precious metals market.
- 32.6. Settlement of the Delivery Derivative Contracts in precious metals is the execution between the Clearing Member and the Clearing House of the buy-sell trade in precious metal on the PJSC Moscow Exchange under the following conditions:
- trade is executed in respect of the precious metal, which is the underlying asset of the Delivery Derivative Contracts in respect of precious metals;
 - amount of the precious metal under the trade is equal to the product of the lot of the Delivery Derivative Contracts in respect of precious metals and of the number of delivery Derivative Contracts in respect of precious metals, Obligations to delivery under which are recorded by the Clearing House;
 - price of the precious metal under the trade is calculated in the order, set out in the Specification of the Delivery Derivative Contracts in respect of precious metals;
 - Settlement Date for the obligations under the trade is the Settlement Day, following the trade execution day;
 - Clearing Member is the Buyer in respect of the position under the trade, if he is the Buyer under the Delivery Derivative Contracts in respect of precious metals. Clearing Member is the Seller under the trade, if he is the Seller in respect of the position under the Delivery Derivative Contracts in respect of precious metals.
- 32.7. On the last day of execution of the Derivative Contract in respect of precious metals, the Clearing House sets the Positions Closing Regime for Derivative Contracts in respect of precious metals regarding securities sub-account of the positions register, under which positions under the Derivative Contracts in respect of precious metals are recorded, in respect of the Clearing Member, not corresponding to at least one of the terms, defined in the paragraph 32.3.

- 32.8. If on the last day of execution of the Derivative Contract in respect of precious metal at the moment of time, defined by the Time Specifications on the Derivatives Market, under the securities sub-accounts of the positions register, not corresponding to at least one of the terms, defined in the paragraph 32.3, positions under such Derivative Contract in respect of precious metals are recorded, such Clearing Member is considered as the one that did not fulfill Obligations to deliver, arising from Delivery Derivative Contracts in respect of precious metals, and in respect of such Clearing Member the Clearing House applies the procedure of the forced close out of positions in accordance with the Article 25.
- 32.9. If by the end of the Main Trading Session on the Derivatives Market on the last execution day of the Derivative Contract under the securities sub-accounts of positions register, not corresponding to at least one terms, defined in the paragraph 32.4, positions under such Derivative Contract in respect of precious metals are recorded, the Clearing Member is considered as the one that did not fulfill Obligations to deliver, arising from the Delivery Derivative Contracts in respect of precious metals, and must pay in favor of the Clearing House the compensation payment, while Obligations to deliver under the Delivery Derivative Contract in respect of precious metals are terminated through the compensation payment. The size of the compensation payment under each such Derivative Contract is equal to the maximum value out of these two: (1) difference between the Settlement Price of the this Derivative Contract, calculated on the basis of results of the night clearing session on the last execution day of the Derivative Contract, and the price of balancing trades in the relevant precious metal, procedure for the execution of which is defined in the Common Part of the Clearing Rules, taking into account specifics, set out in the Article 25; (2) Required margin amount, set out on the last execution day of such Derivative Contract.
- 32.10. Procedure for the fulfillment of the obligation / claim of the Clearing Member to pay the compensation payment is defined in the Article 22.
- 32.11. On the Settlement Date of the contract, the Clearing House via the Trading System forwards to the Exchange the Notification on the necessity to execute within the trading of the PJSC Moscow Exchange buy-sell trade in precious metals with the aim to fulfill obligations under the Delivery Derivative Contracts in respect of precious metals, which contain the terms of closing trades, defined in the paragraph 6, and also information on the following in accordance with the paragraph 32.4:
- identifier, assigned to the Market Participant on the FX Market and Precious Metals Market;
 - code of the Delivery Trade Account on the FX Market and Precious Metals Market;
 - code of the securities sub-account of the clearing register (if any);
 - short code of the Market Participant code, registered in accordance with the Trading Rules on the FX Market (if any).

The abovementioned trades are executed with the trading of the PJSC Moscow Exchange without orders submission.

- 32.11.1. Payment for the clearing services of the Clearing House, connected with the settlement of Delivery Derivative Contract in respect of precious metals, is levied in accordance with the Tariffs of the Clearing House for the clearing of spot trades in precious metals, which is the underlying asset of the Delivery Derivative Contracts in respect of precious metals.

- 32.12. Fulfillment of obligations under buy-sell trades in precious metals, executed within the trading of the PJSC Moscow Exchange with the aim to settle Delivery Derivative Contract in respect of precious metals, is executed in the order, set out in the Clearing Rules on the FX Market and Precious Metals Market for the fulfillment of obligations under the Trades in precious metals.
- 32.13. If according to the result of the execution of the Trade in precious metals with the aim to fulfill obligations under the Delivery Derivative Contract in respect of precious metals, the Single Limit of the Clearing Member in respect of the Settlement Account, calculated in the Clearing System of the FX Market and Precious Metals Market, becomes negative and the Clearing Member does not satisfy the emerged Margin Call within the period of time, determined by the Time Specifications, which is the Supplement to the Common Part of the Clearing Rules, the Clearing House for paying out the Debt under such Settlement Account, emerged in the Clearing System of the FX Market and Precious Metals Market, is entitled to use Collateral of such Clearing Member, recorded under the securities sub-accounts of the cash collateral register, which have the code of the Sub-accounts Cluster, within which the securities sub-account of the positions register is opened, under which Obligations to deliver under the abovementioned Delivery Derivative Contracts in precious metals are recorded, connected with the Settlement Account, under which the Debt is recorded in the Clearing System of the FX Market and Precious Metals Market.
- 32.14. If the Settlement Account, with which the Sub-accounts Cluster is connected, is the Unified Pool Settlement Account, and into the structure of the delivery Trade Account on the FX Market and Precious Metals Market the same Unified Pool Settlement Account is included, the Clearing Member is entitled to choose the Collateral calculation method when executing delivery:
- 1) with the Asset Profiles transfer;
 - 2) without the Asset Profiles transfer.
- In order to choose the Collateral calculation method when executing delivery, the Clearing Member provides the Clearing House with the Application for choosing the Collateral calculation method when executing delivery. In case of non-provision of the application, defined in this paragraph, the Collateral calculation method when executing delivery without Asset Profiles transfer is in effect.
- 32.15. In case of choosing the Collateral calculation method when executing delivery with the Asset Profiles transfer together with the execution of trades with the aim to fulfill obligations, arising from the delivery Derivative Contracts on precious metals, the following actions are taken:
- 32.15.1. Assets Profiles, recorded under the Unified Pool Settlement Account in the Clearing System of the Derivatives Market, are changed for the volume of obligations / claims, under the delivery Derivative Contracts on precious metals: Assets Profiles in cash funds / precious metals, in which the Clearing Member has an obligation under the delivery Derivative Contracts on precious metals, are lessened for the volume of the defined obligations, Assets Profiles in cash funds / precious metals, in which the Clearing Member has a claim under the delivery Derivative Contracts on precious metals, are increased for the volume of the defined claims.
- 32.15.2. Assets Profiles, recorded under the Unified Pool Settlement Account in the Clearing System of the FX Market and Precious Metals Market, are changed for the volume of

obligations / claims under the delivery Derivative Contracts on precious metals counter to the change of Assets Profiles in the Clearing System of the Derivatives Market.

32.15.3. The Clearing House records in the Clearing System of the Securities Market change of the Asset Profile, transferred to the Clearing System of the FX Market and Precious Metals Market in the amount of obligations / claims under the delivery Derivative Contracts on precious metals counter to the change of Assets Profiles in the Clearing System of the FX Market and Precious Metals Market.

32.15.4. The Clearing House records in the Clearing System of the Securities Market change of the Asset Profile, transferred to the Clearing System of the Derivatives Market in the amount of obligations / claims under the delivery Derivative Contracts on precious metals counter to the change of the Asset Profiles in the Clearing System of the Derivatives Market.

32.15.5. In case of choosing the Collateral calculation method when executing delivery without Asset Profiles transfer, actions, defined in the paragraph 32.15, are not taken.

Article 33. Specifics of the execution deliverable futures contracts on agricultural products

33.1. Deliverable futures contracts on agricultural products are executed on the day of execution of the futures contract on agricultural products according to the terms of the Specification of the deliverable futures contract on agricultural products within the period of time, set out in the Time Specifications on the Derivatives Market.

33.2. All deliverable futures contracts on agricultural products with one code are to be executed at the same time, Obligations to deliver under which are recorded by the Clearing House under one positions register section as at the moment of the beginning of the mark-to-market night clearing session of the last Trading day, during which deliverable future contract can be entered into.

33.3. Terms required for the fulfillment by the Clearing Member of the Obligation to deliver under the deliverable agricultural products futures contract are the following:

- person, whose identification data have been defined when opening position register section of the Clearing Member, under which deliverable agricultural products futures contracts are recorded, is the Market Participant of the NAMEX, admitted to organized trading of agricultural products and other commodities on the NAMEX spot market (hereinafter referred to as the NAMEX Market Participant);
- in case if the Clearing Member is the Seller under deliverable agricultural products futures, recorded under the position register section of the Clearing Member, the entity, identification data of which has been indicated when opening such position register section, is the NAMEX Market Participant, which has the “Seller” status, admitted to trading of agricultural products and other commodities the NAMEX spot market;
- notification on delivery intention provided by the Clearing Member, the Seller under the deliverable agricultural products futures contract, within the period of time, defined in the Time Specifications on the Derivatives Market, shall contain the following:
 - positions register section, under which deliverable agricultural products futures contracts are recorded, Obligations to deliver under which the Clearing Member is intended to fulfill;

- information on the quality of the commodity, in respect of which Obligation to deliver is planned to be fulfilled. Quality of the commodity shall meet the requirements, set by the Parameters list for deliverable agricultural products futures contracts approved by the Moscow Exchange (hereinafter referred to as the Parameters list). Delivery of the commodity of different quality, stipulated by the Parameters list, is allowed per one delivery Basis.
- information on the amount of the commodity, in respect of which Obligations to deliver under the deliverable agricultural products futures contracts are intended to be fulfilled. The defined amount of the commodity placed under one delivery Basis of the same quality, listed in the Parameters list, must be more than or equal to the minimum delivery batch, size of which is set out in the Specification of the deliverable agricultural products futures contracts. In case if amount of the commodity of one quality, stipulated by the Parameters list, placed with one delivery Basis, defined in the notification on delivery intention, is less than the minimum delivery batch, size of which is set out in the Specification of the deliverable agricultural products futures contracts and/or Parameters list, Clearing House is entitled to refuse Clearing Member to accept notification on delivery intention in case of receiving information from NAMEX that shows impossibility of delivery.

In this case Clearing Member is considered to be the one that has not met all required terms to fulfill delivery Obligation under deliverable agricultural products futures contracts;

- code(s) of the delivery Basis, included into the NAMEX Basis List and stipulated by the Parameters list.

33.4. Fulfillment by parties of the deliverable futures contracts of Obligations to deliver under deliverable agricultural products futures contracts is execution of the buy-sell trade in commodity, underlying asset of which is the deliverable agricultural products futures contracts, by NAMEX Market Participants within the NAMEX trading according to the terms, defined by the Clearing House in the delivery list, forwarded to NAMEX in accordance with the paragraph 33.5.

Procedure for execution of buy-sell trades is set out in the NAMEX Trading Rules for agricultural products and other commodities on the spot market.

33.4.1. Delivery obligations of each party to the deliverable agricultural products futures contract are terminated at the moment of execution by NAMEX Trading Members with the NAMEX of the buy-sell trade(s) in commodity, underlying asset of which is deliverable agricultural products futures contracts, according to the terms, provided by the Clearing House the delivery list, forwarded to the NAMEX according to the paragraph 33.5.

33.5. On the last day of execution of the deliverable agricultural products futures contracts the Clearing House forwards to the NAMEX delivery list, which contains the following information on terms of each of buy-sell trades in commodities, which is the underlying asset of the deliverable agricultural products futures contracts, which shall be executed by NAMEX Market Participants within the NAMEX trading with the aim to fulfill Obligations under deliverable agricultural products futures contracts:

- code of the exchange commodity, stipulated by the Parameters list for buy-sell contracts, executed on the on-exchange trading in agricultural products and other commodities on the spot market of the NAMEX;

- amount of the commodity;
 - code of the delivery Basis, stipulated by the NAMEX Basis List in respect of the underlying asset, corresponding to the code of the agricultural products futures contract;
 - price of the buy-sell trade (VAT not included), calculated in the order, defined by the sub-paragraph 33.5.2;
 - buyer – NAMEX Market Participant, identification data of which have been defined by the Clearing Member when opening position register section, under which the position in deliverable agricultural products futures contracts, in respect of which the Clearing Member is the Buyer, is recorded;
 - Seller – NAMEX Market Participant, identification data of which have been defined by the Clearing Member when opening position register section, under which the position in deliverable agricultural products futures contracts, in respect of which the Clearing Member is the Seller, is recorded
- 33.5.1. Clearing House is the one to define buyers and sellers, which are parties to the buy-sell trade in commodity, amount of the commodity in the buy-sell trade in commodity, according to the Methodology for parties definition when executing deliverable agricultural products futures contracts, approved by the Clearing House.
- Methodology for parties definition when executing deliverable agricultural products futures contracts is disclosed on the Clearing House's website.
- Definition of the quality of the commodity and delivery Basis is performed by the Clearing House on the basis of the notification on delivery intention, submitted by the Clearing Member, which is the Seller under the deliverable agricultural products futures contracts.
- 33.5.2. Price of the buy-sell trade in commodity is the contract execution price, lessened/enlarged for the amount of the discount/extra pay for the quality and/or discount/extra pay for the delivery Basis, defined by the Parameters list.
- 33.6. Contract execution price is the calculated price of the deliverable agricultural products contract, calculated on the basis of results of the mark-to-market evening clearing session on the last day of execution of the deliverable agricultural products contract.
- 33.7. On the Settlement Date of the deliverable agricultural products contracts NAMEX forwards to the Clearing House information on executed buy-sell trades in commodities within the NAMEX trading, underlying asset of which is the deliverable agricultural products contracts, also on active by the end of the time for execution of buy-sell trades in commodities with the aim to fulfill Obligations to deliver under deliverable agricultural products contracts, registered by NAMEX orders to execute buy-sell trades in commodity, in respect of trades, defined in the delivery list and forwarded by NAMEX according to the paragraph 33.4.1.
- 33.8. Clearing Member is recognized as the one that have not fulfilled Obligations to deliver under deliverable agricultural products contracts in the following cases:
- 33.8.1. in case of non-fulfillment of at least one of terms, defined in the paragraph 33.3, on the last day of execution of the deliverable agricultural products contract by the time when the Main Trading session ends, for the positions register section of the Clearing Member, under which position under deliverable agricultural products contract is recorded, or

- 33.8.2. in case of non-execution of the buy-sell trade according to the terms, defined by the Clearing House in the delivery list, by the NAMEX Market Participant, identification data of which has been provided by the Clearing Member when opening positions register section, under which positions register section under deliverable agricultural products contract is recorded, and while at the same time there is no orders to execute buy-sell trades in commodity, submitted by such NAMEX Market Participant, active by the moment of time for execution of buy-sell trades in commodity with the aim to fulfill Obligations to deliver under deliverable agricultural products contracts, registered by NAMEX orders to execute buy-sell trades in commodity, defined by the Clearing House in the delivery list.
- 33.9. Clearing Member is recognized as the one that fulfilled Obligations to deliver under deliverable agricultural products contracts when executing buy-sell trades in commodity according to the terms, defined by the Clearing House in the delivery list, by NAMEX Market Participant, identification data of which has been indicated by the Clearing Member when opening positions register section, under which position under deliverable agricultural products contracts is recorded.
- 33.10. Obligations to deliver under deliverable agricultural products contracts of the Clearing Member, which has not fulfilled Obligations to deliver, are terminated by paying forfeit to the Clearing House on the settlement date of the deliverable agricultural products contract.
- In case if the Clearing Member has partially fulfilled Obligation to deliver under deliverable agricultural products contracts towards the Clearing House, non-fulfilled part of the Obligation to deliver is terminated by paying out forfeiture on the settlement date of deliverable agricultural products contracts. Forfeit is calculated according to the paragraph 33.13 proportionally to the size of non-fulfilled by the Clearing Member Obligation to deliver.
- 33.11. In case if there are Clearing Members, which have not fulfilled Obligations to deliver under deliverable agricultural products contracts, and in case if:
- a) Clearing Member meets all terms, defined in the paragraph 33.3, on the last day of execution of the deliverable agricultural products contract by the end of the Main Trading session, for the positions register section of the Clearing Member, under which position under deliverable agricultural products contract is recorded, and
 - b) Clearing House has not included into the delivery list information on terms of buy-sell trades in commodity, with the aim to fulfill Obligations to deliver under deliverable agricultural products contracts, recorded under the positions register section of the Clearing Member according to the Methodology for definition of the party when settling deliverable agricultural products contracts.
- Obligations to deliver under deliverable agricultural products contracts of the Clearing House towards such Clearing Member are terminated by paying forfeit on the settlement date of the deliverable agricultural products contracts.
- 33.12. If there are Clearing Members, which have not fulfilled Obligations to deliver under deliverable agricultural products contracts, and in case if:
- a) Clearing House has included into the delivery list information on terms of buy-sell trades in commodity with the aim to fulfill Obligations to deliver under deliverable agricultural products contracts, recorded under the positions register section of the Clearing Member, and

- b) buy-sell trade in commodity has not been executed according to the terms, defined by the Clearing House in the delivery list, party to which is the NAMEX Market Participant, identification data of which has been provided by the Clearing Member when opening positions register section, under which position under deliverable agricultural products contracts is recorded, and
- c) there are orders, submitted by NAMEX Market Participant, identification data of which has been provided by the Clearing Member when opening positions register section, under which position under deliverable agricultural products contracts, which are active by the end of time for execution of buy-sell trades in commodity with the aim to fulfil Obligations to deliver under deliverable agricultural products contracts, registered by NAMEX to execute buy-sell trades in commodity under the terms corresponding to the terms of buy-sell trades in commodity, set out by the Clearing House in the delivery list,

Obligations to deliver under deliverable agricultural products contracts of the Clearing House towards such Clearing Member are terminated by paying forfeit on the settlement date of deliverable agricultural products contracts.

- 33.13. Size of the forfeit, paid by the Clearing Member, which has not fulfilled Obligations to deliver, and to the Clearing Member, Obligations to deliver of which are terminated according to the paragraphs 33.11 and 33.12, under each deliverable agricultural products contract, obligations under which are terminated through paying forfeit, is equal to the Total Required Margin Amount per one futures contract, set by the Clearing House on the day of execution of the deliverable agricultural products contract during day mark-to-market clearing session, calculated at the price of the contract settlement, defined according to the paragraph 33.6.

Obligation / claim to pay forfeit is calculated in respect of each position register section of the Clearing Member.

- 33.14. Procedure for the fulfillment of the obligation / claim of the Clearing Member to pay forfeit is given in the Article 22.

Article 34. Procedure for settling non-deliverable option contracts.,

- 34.1. Settlement of option contracts is performed according to the terms of the Specification of the relevant contract within the period of time, defined by such Specification and Time Specifications on the Derivatives Market.
- 34.2. Obligations to pay cash funds when settling non-deliverable option contracts (Settlement obligations) are accepted for clearing and included into the clearing pool of the night clearing session, unless otherwise provided by the terms of the Specification of the relevant contract.
- 34.3. In case if the Clearing Member is the party to the option contract, under which securities are underlying assets, issuer of which has made decision on income payment, and list of persons, which have the right to receive it, is defined during the period after execution of the option contract and till its settlement (expiration), while the income, paid for underlying asset of the option contract is the Payment equivalent to dividends or interest, Clearing Member, based on the claim received from the Clearing House in the period of time not

exceeding 5 (five) workdays since of receiving of such claim, must pay to the Clearing House the sum, corresponding to the sum of the tax on income from the source located in the USA and/or income equal to it, paid by the Clearing House due to performing functions of the Qualified Derivatives Dealer (QDD). Such claim is forwarded by the Clearing House via EDI to the Clearing Member, recognized as the party that receives Payment equivalent to dividends or interest. Clearing Member pays the sum, corresponding to the sum of the tax on income from the source located in the USA and/or income equal to it, using details given in the claim received from the Clearing House.

- 34.4. In case of non-fulfillment by the Clearing Member of the obligation to pay the Clearing House the sum, corresponding to the sum of the tax on income from the source located in the USA and/or income equal to it, paid by the Clearing House due to performing functions of the Qualified Derivatives Dealer (QDD) or fulfilling such obligation with a breach of time, defined in the paragraph 34.3, Clearing Member must pay the Clearing House the fine, which is calculated as follows:

Penalty = $D \times C \times R / 365$, where

Penalty is the amount of the fine, in Russian rubles,

D is the amount of non-fulfilled obligation of the Clearing Member to pay the Clearing House the sum, corresponding to the sum of the tax on income from the source located in the USA and/or income equal to it,

C is the exchange rate of the foreign currency against Russian ruble, set by the Bank of Russia on the day of the fine calculation,

R is the rate set by the Clearing House according to the Methodology for Defining Risk Parameters for FX and Precious Metals Market and applicable to cases of settling obligations under Partially Secured Trades, for the fulfillment of which there is no sufficient amount of cash funds,

Amount of the fine, calculated according to this paragraph, is VAT free.

Clearing Member that admitted non-fulfillment or undue fulfillment of obligations to pay the Clearing House the sum, corresponding to the sum of the tax on income from the source located in the USA and/or income equal to it, paid by the Clearing House due to performing functions of the Qualified Derivatives Dealer (QDD), must fully reimburse losses of the Clearing House, arisen due to such non-fulfillment or undue fulfillment.

- 34.5. Obligations of the Clearing Member to pay the Clearing House the sum, corresponding to the sum of the tax on income from the source located in the USA and/or income equal to it, paid by the Clearing House due to performing functions of the Qualified Derivatives Dealer (QDD), is not included into the clearing pool according to the sub-paragraph 21.1.2.
- 34.6. Procedure for identifying Clearing Member, recognized as a party that receives Payment equivalent to dividends or interest, and that must pay the Clearing House sum, corresponding to the sum of the tax on income from the source located in the USA and/or income equal to it, defined in the paragraph 34.3, is set in the Procedure for tax management regarding income from the source located in the USA and/or income under Derivative Contracts equal to it, approved by the Clearing House and disclosed on the website of the Clearing House.

34.7. Sum, corresponding to the sum of the tax on income from the source located in the USA and/or income equal to it, is calculated in respect of each option contract as follows:

Tax = ROUND(Inc × P × Rate × T); 2), where	
Tax	sum to be paid by the Clearing Member, corresponding to the sum of tax on income from the source in the USA and/or income, equal to it, paid by the Clearing House to the budget of the USA according to the US tax legislation (in US dollars);
Inc	size of the Income paid under securities, which are underlying asset of option contract (per one security in the currency of payment according to the information received from the Settlement Depository);
d	number of securities, which are underlying asset of the option contract, which is one lot of the option contract according to the Specification (in units);
Delta	Delta ratio, calculated according to the Procedure for tax management regarding income from the source located in the USA and/or income under Derivative Contracts equal to it, approved by the Clearing House;
Rate	cross rate, applicable for re-calculation of payment of income under securities, which are underlying asset of option contract, denominated in the currency different from the US dollar. Cross rate is calculated as the ratio of the foreign currency rate, in which currency of payment of income under securities is defined, against the Russian ruble, set by the Bank of Russia on the day of Income transfer, to the US dollars-Russian ruble rate, set by the Bank of Russia on the day of Income transfer. In case if the currency of the income payment under securities, which are underlying asset of option contract, is denominated in the US dollars, Rate is equal to 1;
T	applicable tax rate.

34.8. Applicable tax rate, defined in the paragraph 34.7, is defined by the Settlement Depository on the date of payment of the income from securities, which are underlying asset of the option contract, based on the tax identification forms of beneficiaries and intermediaries, received from the Clearing Member / beneficiaries. Information on applicable tax rate is transferred by the Settlement Depository to the Clearing House in the order, defined in the Common Part of the Clearing Rules.

SECTION VI. PROCEDURE FOR MAKING PAYMENTS FOR THE SERVICES. CLEARING REPORTS

Article 35. Special aspects of making payments for the services of the Clearing House, the Exchange and of the Technical Centre

Bonus is credited to the Market Participant / Clearing Member by the Exchange and the Clearing House upon the main Settlement Account for the fees withdrawal, procedure for setting of which is defined in the Common Part of the Clearing Rules, not later than the last Settlement Day of the month, following the reporting period of service provision, defined by the Tariffs of the Clearing House.

Information on the bonus sums, transferred to the Clearing Member, is provided to the Clearing Member as a part of the Cash Flow Statement.

Article 36. Procedure for the provision of the information and clearing reports

36.1. Except for reports, stipulated by the Common part of the Clearing Rules, the Clearing House forms the following reports on the basis of clearing results for Clearing Members:

- reports on concluded Derivative Contracts, party to which is a Clearing Member and which contain information on obligations arising from trades accepted for clearing;
- reports on obligations under Derivative Contracts, which contain information on obligations of the Clearing Member, calculated on the basis of the clearing results;
- reports on cash funds in Russian rubles and foreign currency , which constitute Collateral, which contain information on the amount of Collateral of the Clearing Member and on the change of its amount;
- report on operations under cash collateral register section;
- report on clearing registers section;
- report on the additional fee on the additional fee for error transactions;
- summary financial statement.

36.2. The Clearing House forms the following clearing reports for Clearing Members in respect of each Sub-accounts Cluster, opened by such Clearing Member:

- reports on concluded Derivative Contracts, party to which is a Clearing Member and which contain information on obligations arising from trades, accepted for clearing;
- reports on obligations under Derivative Contracts, which contain information on obligations of the Clearing Member, calculated on the basis of clearing results;
- reports of cash funds in Russian rubles and foreign currency , which constitute Collateral, containing information on the amount of the Collateral of the Clearing Member and on its amount changes;
- report on operations under securities sub-account of the cash collateral register.

36.3. In case if a Clearing Member indicates in the Application for client clearing registers section opening the necessity to form reports on clearing registers or in case if a Clearing Member provides the Application for forming reports on clearing registers, the Clearing House forms the following clearing reports for a client of a Clearing Member:

- reports on concluded Derivative Contracts, party to which is a Clearing Member, containing information on obligations arising from trades, accepted for clearing and recorded under the securities sub-account of clearing registers;
- reports on obligations under Derivative Contracts, which contain information on obligations defined on the basis of the results of clearing and recorded under the securities sub-account of clearing registers;

- reports on cash funds in Russian rubles and foreign currency , which constitute Collateral, which contain information on the amount of Collateral and on the change of its amount, recorded under the securities sub-account of clearing registers;
- report on operations under cash collateral register section.

For the provision of reports to clients of a Clearing Member in accordance with this paragraph, the fee is charged upon a Clearing Member in accordance with the Tariffs of the Clearing House.

36.4. The Clearing House is entitled to provide reports to the Authorized Accounts Owner, fixed to the Segregated Sub-accounts Cluster, in respect of securities sub-account of clearing registers, which have codes of this Segregated Sub-accounts Cluster, are opened.

36.5. Reports, defined in paragraphs 36.1, 36.2, 36.4, are forwarded to a Clearing Member, Authorized Accounts Owner, client in the form of an electronic document via the EDI.

The abovementioned reports are forwarded to the Clearing Member, Authorized Accounts Owner on a daily basis under the condition that the Clearing Member has performed relevant operations in the Clearing System on that particular day using trading accounts / clearing registers of Authorized Accounts Owner.

Reports, defined in the paragraph 36.2, formed in respect of the Sub-accounts Cluster, opened by the Clearing Member for the Non-clearing Member – Market Participant, are forwarded to Market Participant, in case if the Market Participant concluded with the Clearing House the Agreement on keeping clearing registers, stipulated by the Common Part of the Clearing Rules.

36.6. Reports, defined in the paragraph 36.3, formed under the clearing registers section, which has the code of the Sub-accounts Cluster, opened for the Non-clearing Member – Market Participant, are forwarded:

- in case if clearing services regarding keeping clearing registers of the 3rd level are provided by the Clearing House with the Clearing Member – Market Participant;
- in case if clearing services regarding keeping clearing registers of the 3rd level are provided by the Clearing House to the Clearing Member – Market Participant. Meanwhile reports on executed Derivative Contracts and reports on obligations under Derivative Contracts are forwarded to the Market Participant.

Reports are forwarded to the Market Participant in the form of electronic documents in accordance with the EDI Procedure.

36.7. Reports, defined in the paragraph 36.3, are forwarded to the Clearing Member, which is the Market Participant (for its transfer to the Clearing Member client).

The abovementioned reports are forwarded to the Clearing Member on a daily basis under the condition that on this particular day relevant operations have been performed in the Clearing System as designated by the Clearing Member client.

36.8. In case if the clearing services regarding keeping clearing registers of the 3rd level are provided by the Clearing House to the Market Participant, the Clearing House forms the following reports for the Market Participant:

- report on clearing registers;

- report on operations with foreign currency, recorded as Collateral under the clearing registers sections, which have the code of the Sub-accounts Cluster, opened for such Market Participant.
- 36.9. In reports, formed for the Clearing Member, which is not the Market Participant, in case if the clearing services regarding keeping clearing registers of the 3rd level are provided by the Clearing House to the Market Participant, the following information under clearing registers sections, which have the code of the Sub-accounts Cluster, opened for such Market Participant, is not included:
- on cash funds in Russian rubles and foreign currency, which constitute Collateral;
 - on risk parameters;
 - on transfers between Securities Sub-accounts of clearing registers within the Sub-account Cluster;
 - on operations under cash collateral register;
 - on clearing registers sections (except for the information on the opportunity to execute cross trades).
- 36.10. In reports, formed for the Non-clearing Member – Market Participant, in case if the clearing services regarding keeping clearing registers of the 3rd level are provided by the Clearing House to the Clearing Member, the information on clearing registers sections, which have the code of the Sub-accounts Cluster, opened for such Market Participant, defined in the paragraph 36.9, is not included.
- 36.11. The Clearing House provides the Clearing Member, which is the Market Participant, with the opportunity to receive from the Clearing House information, recorded under Settlement Accounts, Sub-accounts Clusters and clearing registers sections, including the following:
- on positions, recorded under clearing registers sections;
 - on the amount of Collateral;
 - on the size of the SZ under the Settlement Account;
 - on the Trading Restriction;
 - on the Collateral.
- 36.12. The Clearing Member, which is not the Market Participant, the Clearing House provides the opportunity to receive from the Clearing System of the information, defined in the paragraph 36.11, under Settlement Accounts and Sub-accounts Clusters, opened for the Market Participant.
- 36.13. To the Clearing Member, which is not the Market Participant, in case if clearing services regarding keeping clearing registers of the 3rd level are provided by the Clearing House to the Market Participant, is available the information, recorded under such clearing registers sections and on identification data of the Market Participant client in accordance with the requirements, set by the Exchange when registering clients of the Market Participants, which were defined in the Request for opening of the clearing register of the 3rd level.
- 36.14. The Clearing House provides the Market Participant, which is not the Clearing Member, with the opportunity to receive from the Clearing System information, defined in the

paragraph 36.11, under Settlement Accounts and Sub-accounts Clusters, opened for the Market Participant.

- 36.15. The Non-clearing Member – Market Participant, which concluded with the Clearing House the agreement on keeping clearing registers, and in case if the clearing services regarding clearing registers of the 3rd level are provided by the Clearing House to the Market Participant, the Clearing House provides an opportunity to receive from the Clearing System information, defined in the paragraph 36.11, under clearing registers sections, which have the code of the Sub-accounts Cluster, opened for such Market Participant.

SECTION VII. MISCELLANEOUS

Article 37. Specifics of the obligations and Collateral transfer from one Clearing Member to the other Clearing Member

- 37.1. Consent to the acceptance, provided by a Receiving Clearing Member, besides the information, stipulated by the Common part of the Clearing Rules, may contain information on the code of the Client Sub-accounts Cluster / Trust Sub-accounts Cluster, under which transferred obligations and Collateral are required to be recorded.
- 37.2. In order to execute the Application for obligations and Collateral transfer the Clearing House besides the actions stipulated by the Common part of the Clearing Rules:
- opens in the name of a Receiving Clearing Member Client Sub-accounts Cluster / Trust Sub-accounts Cluster and the clearing registers section with the code of such Client Sub-accounts Cluster for a Segregated Client (if such Sub-accounts Cluster and the section were not opened in advance) and fixes the Segregated Client to such Sub-accounts Cluster. Fee for opening clearing register section for a Segregated Client in accordance with this paragraph is not charged.
- 37.3. After finishing the procedure for obligations and Collateral transfer the Clearing House annuls the registration of the Sub-accounts Cluster and of the clearing registers section, opened by the Principal Clearing Member.

Article 38. Transfer of positions and Collateral of the Segregated Sub-accounts Cluster

- 38.1. The Clearing House transfers the debt and assignment of claims of one Clearing Member (hereinafter the Principal Clearing Member) under obligations accepted for clearing, recorded under positions register sections, which have the code of the Segregated Sub-accounts Cluster, opened for such Clearing Member, and also transfers Collateral, recorded under cash collateral register sections, which have the code of the Segregated Sub-accounts Cluster, to the other Clearing Member (hereinafter the Receiving Clearing Member) if there is an Application for positions and Collateral transfer (hereinafter referred to as the Application), provided by an Authorized Accounts Owner, fixed to the defined Segregated Sub-accounts Cluster (hereinafter referred to as positions and Collateral transfer). In the Application shall be indicated the name of a Receiving Clearing Member and also not less than one of the grounds in respect of a Principal Clearing Member for the execution of the positions and Collateral transfer:
- 38.1.1. grounds, stipulated by the Common part of the Clearing Rules for the obligations and Collateral transfer, except for the provision by a Principal Clearing Member to the Clearing House of the instruction to transfer obligations and Collateral;
- 38.1.2. provision by a Principal Clearing Member to the Clearing House of the instruction to transfer obligations and Collateral;
- 38.1.3. availability of a Debt of a Principal Clearing Member after the Clearing House executed all actions stipulated by the Article 26;
- 38.1.4. appliance to a Principal Clearing Member of the procedure for the forced closed out of positions.

- 38.2. The day when the Procedure for positions and Collateral transfers starts is considered to be the day of the revocation (annulment) by the Bank of Russia of the banking license of a Clearing Member – Credit Institution or the day of appointment of the interim administration or the day when the Arbitrage Court makes the decision on introduction of one of the bankruptcy procedures in respect of a Clearing Member, in case of the execution of the procedure for the positions and Collateral transfer on the basis of the defined grounds, or the day when the Clearing House receives from an Authorized Accounts Owner the Application on positions and Collateral transfer in case of execution of the procedure for positions and Collateral transfer under the other grounds.
- 38.3. Procedure for positions and Collateral transfer can not long for more than 2 (two) days since of its start, in case of the execution of the positions and Collateral transfer on the basis of the grounds of the revocation (annulment) by the Bank of Russia of the banking license of a Clearing Member – Credit Institution, appointment of the interim administration or the decision of the Arbitrage Court on introduction of one of the bankruptcy procedures in respect of a Clearing Member, or more than 2 (two) Settlement Days since of its start in case of the execution of the positions and Collateral transfer on the basis of other grounds.
- 38.4. Submission by a Principal Clearing Member of the Application on the Segregated Sub-accounts Cluster opening is the indisputable consent of the Principal Clearing Member upon the fact that the Clearing House provides the Receiving Clearing Member with the information on the Principal Clearing Member, stipulated by the paragraph 38.8. Such consent can not be revoked by the Principal Clearing Member.
- 38.5. Transfer of positions and Collateral is not executed without the consent of the Receiving Clearing Member, stipulated by the paragraph 38.11.
- 38.6. Provision by the Authorized Account Owner of the Application on positions and Collateral transfer is the indisputable consent of the Authorized Account Owner upon the fact that the Clearing House provides the Receiving Clearing Member with the information on the Principal Clearing Member, stipulated by the paragraph 38.8, including insider information of the Clearing House in accordance with the financial legislation.
- 38.6.1. The Clearing House does not check the reliability of the grounds for the Positions transfer, defined by the Authorized Accounts Owner in the Application. Herewith the Clearing House is entitled to deny to execute the Application for positions and Collateral transfer, submitted by the Authorized Accounts Owner, if there is information on absence of the grounds defined in the Application.
- 38.6.2. The Clearing House is not responsible for losses, incurred by the Principal Clearing Member / Authorized Accounts Owner in case of execution / non-execution by the Clearing House of the Application submitted by the Authorized Accounts Owner in accordance with the paragraph 38.1.
- 38.7. If the Clearing House receives information on the fact that in respect of the Principal Clearing Member one or several grounds for the positions and Collateral transfer, stipulated by the paragraph 38.1, have occurred, and the Application for positions and Collateral transfer from the Authorized Accounts Owner, fixed to the Segregated Sub-accounts Cluster of the Principal Clearing Member, is not received, the Clearing House is entitled to inform the Authorized Accounts Owner on such grounds.

- 38.7.1. The Application on the positions and Collateral transfer confirms that the consent of clients of the Principal Clearing Members upon the positions and Collateral transfer to the Receiving Clearing Member is received by the Authorized Accounts Owner.
- 38.8. When the Application on positions and Collateral transfer from the Authorized Accounts Owner is received and the Clearing House does not have the grounds to deny the execution of the Application, the Clearing House transfers via the EDI to the Receiving Clearing Member draft message on the open positions under Derivative Contracts and Collateral, recorded under clearing registers sections, which have the codes of the Segregated Sub-accounts Cluster, to which the Authorized Accounts Owner, which submitted the Application for positions and Collateral transfer, is fixed.
- 38.9. Receiving Clearing Member provides the Clearing House with the draft consent to accept positions under Derivative Contracts and Collateral, defined in the paragraph 38.8, not later than in 30 (thirty) minutes till the end of the main trading session, defined in the Derivatives Market Rules, of the Trading Day when the draft message on open positions and Collateral from the Clearing House is received in accordance with the paragraph 38.8.
- 38.10. In order to execute the Application for positions and Collateral transfer after receiving the draft consent of a Receiving Clearing Member in accordance with the paragraph 38.9, the Clearing House:
- 38.10.1. immediately after accepting the Application for the execution notifies the Exchange on the necessity to set the Closing Positions Regime for the Principal Clearing Member in respect of the Segregated Sub-accounts Cluster.
- In case if at the defined in this sub-paragraph moment of time the Exchange does not hold organization trading on the derivatives market, in connection with the end of organization trading, the Clearing House is entitled to not execute actions, set out in this sub-paragraph.
- 38.10.2. till the start of the night clearing session of the Trading Day on which the defined draft consent is received within the Receiving Clearing Member, the Identifier of which is indicated in the Application for positions and Collateral transfer:
- opens clearing registers sections of the Segregated Sub-accounts Cluster. The fee for opening clearing registers sections of the Segregated Sub-accounts Cluster in accordance with this sub-paragraph is not levied;
 - fixes to such Segregated Sub-accounts Cluster the Authorized Accounts Owner, which provided the Application on positions and Collateral transfer;
 - registers client Settlement Account / Trust Sub-accounts Cluster in the name of a Receiving Clearing Member, fixes to it the Segregated Sub-accounts Cluster, to which the Authorized Accounts Owner, which provided the Application on positions and Collateral transfer, is fixed;
 - within such Segregated Sub-accounts Cluster opens the same set of clearing registers sections, which is opened within the Segregated Sub-accounts Cluster, opened for the Principal Clearing Member.
- 38.10.3. by the moment of start of the night clearing session of the Trading Day, on which the defined draft consent upon acceptance is received, transfers via the EDI to a Receiving Clearing Member the message on the open positions under Derivative Contracts and Collateral, recorded by the start of the night clearing session of the Trading Day of receipt of the defined draft consent upon acceptance under clearing registers sections, which have

the code of the Segregated Sub-accounts Cluster, to which the Authorized Accounts Owner, which provided the Application on positions and Collateral transfer (hereinafter referred to as the Message on open positions and Collateral), is fixed.

38.11. A Receiving Clearing Member after receiving the Message on open positions and Collateral within the period defined in the Time Specifications on the Derivatives market provide the Clearing House with the consent to accept positions under Derivative contracts and Collateral, defined in the sub-paragraph 38.10.3 (hereinafter referred to as the Consent upon acceptance).

38.11.1. After receiving from the Receiving Clearing Member of the Consent upon acceptance the Clearing House immediately:

- notifies the Exchange on the fact that the Application on positions and Collateral transfer has been accepted for the execution;
- notifies the Exchange on the necessity to set the prohibition on submission by the Principal Clearing Member of orders to conclude Derivative Contracts with the indication of the codes of the Segregated Sub-accounts Cluster;
- forwards to the Exchange the notification on the necessity to delete Active orders submitted with the indication of the codes of the Segregated Sub-accounts Cluster opened for the Principal Clearing Member.

In case if the procedure for the obligations and Collateral transfer is executed on the day, when the Exchange does not hold organized trading on the derivatives market, the Clearing House is entitled to not perform the actions defined in this paragraph.

38.12. In case if the Clearing House does not receive the Consent upon acceptance from a Receiving Clearing Member, defined by the Segregated Client, within the time period, set out by the Time Specifications on the Derivatives market, the procedure for positions and Collateral transfer is not executed, the Clearing House notifies the Exchange on the necessity to cancel the Closing Positions Regime for the Principal Clearing Member in respect of the Segregated Sub-accounts Cluster. In case if the procedure for obligations and Collateral transfer is executed on the day, when the Exchange does not hold organized trading on the derivatives market, the Clearing House is entitled to not notify the Exchange on the necessity to cancel the Closing Positions Regime for the Principal Clearing Member in respect of the Segregated Sub-accounts Cluster.

38.13. Within 30 (thirty) minutes as of the start of the additional night clearing session of the Trading Day, following the Trading Day of receipt of the consent of the Receiving Clearing Member in accordance with the paragraph 38.11, the Clearing House changes record of positions under Derivative Contracts and also the record of Collateral in the following manner:

- under positions register sections, which have the code of the Segregated Sub-accounts Cluster, opened for the Receiving Clearing Member, starts recording positions under Derivative Contracts equal to positions under Derivative Contracts, recorded under the relevant positions register sections, which have the code of the Segregated Sub-accounts Cluster, opened for the Principal Clearing Member, and concurrently stops recording such positions under Derivative Contracts, recorded under positions register sections, which have the code of the Segregated Sub-accounts Cluster, opened for the Principal Clearing Member;

- values of the cash collateral register sections, which have the code of the Segregated Sub-accounts Cluster, opened for the Receiving Clearing Member, sets equal to values of the relevant cash collateral register sections, which have the code of the Segregated Sub-accounts Cluster, to which the Authorized Accounts Owner, which provided the Application for positions and Collateral transfer, is fixed, and concurrently values of the cash collateral register sections, which have the code of the Segregated Sub-accounts Cluster, opened for the Principal Clearing Member, sets as ones equal to zero.
- 38.14. Authorized Accounts Owner before the Clearing House receives from the Receiving Clearing Member the Consent upon acceptance is entitled to revoke its Application on positions and Collateral transfer by forwarding to the Clearing House the relevant application (hereinafter referred to as the Application for revocation).
- 38.15. Authorized Accounts Owner before the Clearing House receives from the Receiving Clearing Member the Consent upon acceptance is entitled to replace the Receiving Clearing Member initially indicated with the other Receiving Clearing Member by forwarding to the Clearing House the Application on positions and Collateral transfer with the indication of the name of new Receiving Clearing Member.
- 38.16. The Clearing House, Principal Clearing Member, Receiving Clearing Member and the Authorized Accounts Owner are entitled to execute the interchange of messages stipulated by the this article via the EDI or the S.W.I.F.T. system, if such interchange is stipulated between them, included but not limited to the provision of the Application for positions and Collateral transfer, Consent upon acceptance, Application for revocation.
- 38.17. For the execution of the Procedure for positions and Collateral transfer the fee in the amount, set out in the Tariffs of the Clearing House, is levied upon a Receiving Clearing Member.
- 38.17.1. The Procedure for the fulfillment of obligations of a Receiving Clearing Member to pay the fee for the execution of the Procedure for the positions and Collateral transfer is defined in the Article 22.

Article 39. Course of action in case if the Authorized Accounts Owner is included in the list of organizations, in respect of which there is information on their involvement in the extremist activity or in the terrorism

- 39.1. On the date of inclusion of the Authorized Accounts Owner into the list, except for Authorized Accounts Owners that are Clearing Members, the Clearing House immediately:
- blocks (freezes) cash funds recorded under the accounts of the Clearing House as Collateral under clearing registers sections, opened within Segregated Sub-accounts Clusters, to which the defined Authorized Accounts Owner is fixed, and blocks operations with the defined funds;
 - cancels the status of Authorized Accounts Owner from a Clearing Member;
 - notifies the Exchange on the necessity to set the prohibition on the submission of orders with the indication of the codes of the Segregated Sub-accounts Clusters, to which the defined Authorized Accounts Owner is fixed, and on the necessity to withdraw such registered orders.

- 39.2. On the date of inclusion of the Authorized Accounts Owner into the list, except for Authorized Accounts Owners that are Clearing Members, obligations of a Clearing Member under Derivative Contracts, recorded under the positions register sections, which have the codes of the Segregated Sub-accounts Clusters, to which the defined Authorized Accounts Owner is fixed, are terminated fully by the emergence of the net obligation / net claim of a Clearing Member calculated in Russian rubles as the sum, taking into account:
- in respect of each Derivative Contract the sum of positions under Derivative Contract, recorded by the date of inclusion of the Authorized Accounts Owner into the list under the positions register sections of a Clearing Member, which have the codes of the Segregated Sub-accounts Clusters, to which the Authorized Accounts Owner, included into the list, is fixed, converted into Russian rubles on the basis of the Settlement Price of the relevant Derivative Contract, set out by the Clearing House for the date of inclusion of the Authorized Accounts Owner into the list.
 - other obligations accounted for in accordance with the Clearing Rules on the Derivatives market on the date of inclusion of the Authorized Accounts Owner in the list of sections of the Clearing Member's position register that have the codes of Segregated Sub-accounts Clusters to which such Authorized Accounts Owner is assigned.

If the value, calculated in accordance with this paragraph, is positive then it means that there is a net claim of a Clearing Member in respect of the Clearing House, if it is negative then it means that there is a net obligation of a Clearing Member in respect of the Clearing House.

- 39.3. The net obligation of a Clearing Member, calculated in accordance with the paragraph 39.2, is fulfilled using Collateral of a Clearing Member, recorded under Proprietary Sub-accounts Clusters of a Clearing Member, and using contributions of a Clearing Member to the Default Fund of the Derivatives market.

Supplement 1
to the Clearing Rules on the Derivatives market
